motion was made to repair to the schoolhouse near by, so taking a last, fond linbere a scene presented itself, perhaps un-paralleled in the history of pienics. Hu-man nature was strikingly manifested in its various "moods and tenses." Some bustling, some running, some frightened while others were taking it quite cooly, it is attached to a pitman which works in obeying the Scriptures injunction, "Let a slot, thus giving the tools two drops for your moderation be known to an mon. And as we should be ever learning, we observed that these fared as well, if not better than those who "got in a flurry." Here a every scene in life has its diffi. your moderation be known to all men." culties, so this, and we observed that those who in their hurry excitement strayed from the and right path, met with perplexing difficulties, in the form of underbrush interfering with crinoline and trains; however, we observed the gents acted their part gallantly and well, and were entirely unselfieb in their vigorous efforts to extricate the ladies from their perplex-

ing situation, and it was gratifying to us to see the ladies nobly stand up for their rights. Yes, we who have so long been deprived of so many of our rights, how rights. Yes, we who have so long been deprived of so many of 'our rights, how gratifying to us, and we appreciate the enjoyment' of those undisputed rights every fowl of the air, and all that moveth

which we take advantage of at every oprights" to drop her fan, glove of parasol, whenever she chooses, if it should be a half dozen, times in a day, and how consequential she feels when she beholds the dignified "lord of

form, pick it up and hand it gracefully to creation" by her side, oow mis noor form, pick it up and hand it gracefully to her, and she may reward him with a smile, and a "thank you," or not, just as We must confess we have That each class of food does contain she chooses. We must confess we have almost felt like "accidentally" dropping it a second time, just to see a repetition of the graceful performance. But, we are digressing, so to return to our subject, the parting hour came too soon, and the company dispersed, feeling that an afternoon five, and water fifty. Wheat contains of carbonaceous food seventy per cent. nitrogenous fifteen, phosphatic two; and water fourteen. Now, considering that thirty per cent. of fat is equal to two and had been pleasantly, if not profitably spent, so taking a fond parting took on "this sly little nock by the babbling

WELL ANSWERED. - A naval officer being at sea in a dreadful storm, his wife, who was sitting in the cabin near him, and filled with alarm for the safety of the and filled with alarm for the safety of the vessel, was so surprised at his composure and selenity that the originatules are nearly alke; out the beef has more than twice the herve and selenity that the origination of the terve and selenity that the origination of the terve and selenity that the origination of the terve and selenity that the wheat has. In this last respect, however, beef and wheat differ items from the chile issued to the deck, supporting himself by a pillar of the bed-place, drew his sword, and digning to the breast, of his wife, while he adjusted his life-preserver, exclaimed, "Are you not affaid of that sword?". She instantly answered tho." sword?", She instantly answered 'No." "Why?" said the officer. "Because," rejoined the lady, "I know that it is in the hands of my husband, and he knows too well to hurt me, and that if I die now all my money will go to sister Belle."

July 1st, the ceremonies of dedicating the monument in the Soldiers' National Cemetery at Gettysburg take place. They will be of a solemn and impressive they will hardly bring twenty-five cents character. - H

driven and the drill operated is simple and ingenious. The conductor is placed TUESDAY, JUNE 1st, TO SUNDAY, the pole, and down the other side, where it is attached to a pitman which works in every revolution of the slot. The drop machine, and no reamer is, or need be used. The tools are raised, the sand pumping and the pumping for testing the well, are done by the aid of horse power. The average number of feet drilled per day by the machine, in limeston formation, was six, but in the softer formation in the oil region it is expected that it will be much greater.
