All the buds are blown,
Trees are dark and shady
(It was spring who dress'd them, though,
Buch a little lady)
And the birds sing lond and sweet
Their enchanting hist'ries.
(It was Spring who taughrthem, though,
Buch a singing mistress!)

From the slowing sky

Summer shines above us:

Spring was such a little dear,
But will Summer love us?

She is very beautiful,

With her grown up blisser,

Summer we must how before:

Spring we colved with kisses!

Spring is growing up. Leaving u. soloneiv, In the place of little pring, We have Summr ouly! Summer, with her lofty airs, And her stately paces, In the place of little Spring With her childish graces!

## PENNSYLVANIA.

MEADVILLE proposes to erect a monu-ment to General Mead, the founder of On Friday a lumber yard in Altoona was set on fire in two or three places. By hard work the fire was confined to the

amounted to about \$1,500. On Tuesday morning, in Brownsville, the house owned by Mr. Ayres Lynch and occupied by Mr. Altred Swearer, was, with an adjoining stable, completely destroyed by fire. There was some little

insurance on the buildings. THE prospect for peaches hereabouts is said to be very encouraging. Reports from other localities are also favorable, and the probability is that this year will show the largest peach crop that has been pro-duced for years:—Lebanon Courser.

THE Warren Mail says: . The heavy showers of last week made a nice little flood in the river. On Sunday afternoon the rafts frem Salamanca. Corydon and Kinzua began to come thick and fast, and Warren Eddy was full on Monday morning. The creek was not very high.

FROM every appearance there will be a large crop of hay this year. The time for mowing is not far off. The grass fields never looked better than at present. A few weeks of warm sun, with an occasional shower, will ripen the clover and bring the hay crop to its full maturity.-

THE heavy rain and wind storms of the past week have been very hard on the wheat in Chester county and vicinity. A number of farmers inform us that their wheat is so much down and broken that it will hardly be able to righten. It will considerably damaged and sylvania: make very laborious harvesting. - Village

Two of the workmen who were standing in front of the boiler when the explosion

MR. SOLOMON RUSHEY, who resides near Wellsville, Warrington township, York county, was seriously injured by mule on Saturday last. He was working several of the animals, and one of the number, not being properly broken, became unmanageable, threw Mr. Bushey upon the ground and tramped upon his head, breaking his skull to such a degree as to expose the brain.

The Clearfield Journal says: A correspondent informs us that, on the night of May 26th, the foundry, turning shop, wagon shop, warehouse and iron shop, Mills, was entirely destroyed by fire. Loss about \$3,000. No insurance.

THE Chester county Record says: Juo. Wood and Maria Sylvester, both wit nesses at the late Court, quarreled on the road to their homes in Marple, when Wood fired six loads of a revolver at the woman; she escaped by entering her own dwelling. None of the shots took effect. He was committed on Monday last by Squire Atkinson, under \$1,500 bail. He is also under the charge of threatening the life of Mr. Sylvester.

A FEARFUL accident occurred in the mill of Mr. Jacob Gabel, Gilbertsville, twelve years, in the absence of her father, went into the mill, and was accidentally carried around with fearful velocity, her arms and legs sustaining eight or nine fractures, besides, otherwise bruising the child. Her recovery is considered very

Foxes are proverbial for their cunning, but are not always able to avert the just rewards of their misdeeds. A forcible illustration of this occurred some weeks illustration of this occurred some weeks since in the southern part of Lancaster county. Mr. Cooper Stubbs had some chickens that were roceting on a small tree in his garden, which was enclosed by a paling fence. During the midnight alumbers of these birds, Reynard came alumbers of the services of th the purpose of taking them from the perch. But the best laid schemes of foxes and men sometimes fail, and in this case it proved so .- For some reason or other, Reynard did not clear the fence, but falling back, his neek was caught be tween two palings, where he was found in the morning stiff and cold.—Lancaster

: **:** -:-

CHARLES STRIBLEN, a little boy, was drowned in Fall Creek, near Indian. apolis, last. Thursday, and up to Saturday night the body could not be found. On that nights Mr. Bess, who had engaged in the search, dreamed that he saw the body under the water, at a point some distance below where the lad was drowned. He awoke and after a while been United States minister at Sweden, was repeated. This impressed him so strongly that at daylight he repaired to spolls, last Thursday, and up to Saturday night the body could not be found. On that night a Mr. Bess, who had engaged was repeated. This impressed him so is now a resident of this city, strongly, that at daylight he repaired to

In Bellefontaine, Logan county, a young man named Hartley broke his leg badly the other day while riding on a

By the abandonment of the O. & P Canal, and the draining of Lake Brady, north of Ravenna, forty or fifty acres of good land is, by reversion added to several farms.

On Sunday afternoon, at about three clock, just as the rain was coming on, Richard Hesslegesser was standing in his barn, near Tremont, telling his brotherin-law what the physician had said about his having heart disease, and that he was liable to die at any moment. He finished by saying that he believed heart disease would be his death, and he at once fell dead upon the spot where he was talking. THE Ashland Times says: A little girl living in Troy township, this county, whose name we did not learn, was fatally injured while out in the hall storm of Wednesday afternoon, the 26th ult. We suppose she was where there was no shelter, or becoming so frightened, lost con-trol of her mind, which caused the above

head. It is seldom that we are visited with such violent hall storms. THE BUCYEUS Journal says: On Saturday afternoon, Jacob Burbughy, while attending the planer at Stoll's Sash factory, reached over the cylinder while in full motion, to pour oil into a lubricating piles in which it was started, and the loss box on the further side of the machine. His shirt which was of heavy woolen naterial, hanging loosely, was caught by the plane bits and instantly, before the brain could act, his hand and wrist were drawn into the front of the machine and literally cut to pieces by the cylinders, only three quarters of an inch apart, and

fatal result. An old man who happened

to be out in it had his hands and knuckles

badly skinned in trying to protect his

to the minute, or about seventy to the The shouts and screams of the poor fellow were heart rending. The engine was quickly stopped, but the planer had to be ungeared and taken apart before the poor victim could be extracted.
This took time, and with hand and wrist literally torn to shreds, he was compelled to endure the torture of standing held the cylinders together could be unscrewed

The Pacific Railway-Its Early Friends, The following communication appeared in the Philadelphia Ledger, of the 24th of May, and is unchallenged history. We recollect well the assiduity, energy, and eloquence with which Hon. James H. Campbell, Chairman of the Select Committee on the Pacific Railroad, in 1861 urged and advocated that important measure. The tribute of the Ledger is simple justice to a worthy son of Penn-

Now that the Pacific Railroad is made, and promises to have an unexampled influence on the course of trade and on the THE boiler of the engine used at the prosperity of the United States, it is just paper mills of Messrs. Mullen, at Mount that due credit should be given to the effective laborers in the project. By referploded on Friday last with terrific force. House of Representatives, Thirty-seventh

> As chairman of that committee Campbell reported the bill entitled 'An act to aid in the construction of a railroad and telegraph line from the Missouri river to the Pacific Ocean." The bill was not received with favor at first, and an exciting debate took place. Mr. Campbell's duty, as chairman of the committee reporting the bill, was to explain and defend its provisions.

He discharged that duty in an able and and was sent to the Senate. In the Sentogether with the tools, patterns, and a ate, a number of amendments were enlarge stock of castings and unfinished work; belonging to W. Murphy & Co., of to the House at so late a period in the Erltown, two miles west of Pine Grove session that the enemies of the bill were confident of defeating it, because there was no time for the separate consideration of each amendment; and the friends of this great measure had given up almost all hope of success. But Mr. Campbell, on examining the amendments carefully, saw that the main feature of the bill, and indeed, all its valuable practical provisions, remained intact, and he believed that the objectionable amendments could be altered by subsequent legislation. Under these circumstances he made his views known to the friends of the measure, and moved to consider the amend. ments en masse, demanded the previous question, and brought the House to a vote directly on the bill. Here again he ex-Montgomery county, on the 28th ult. A directly on the bill. Here again he ex-little daughter of Mr. Gabel, aged about plained the importance of the measure, and the propriety of concurring in all the amendments and passing the bill at once. caught by her clothing in an upright shaft. It passed by a large majority, and was Before the mill could be stopped she was signed by President Lincoln the follow-

ing day.
The Press of July 15th, 1862, edited by Hon. John W. Forney, then at Washington as Secretary of the Senate, and, of course, familiar with the Congressional proceedings, contains the following state-

"It was a son of Pennsylvania, James H. Campbell, of Schuylkill county, chairman of the Special House Committee, who reported the bill for the construction of the Union Pacific Railroad, and to his careful and enlightened management the country is indebted alike for the bill it-

self, and for its triumph and passage."

The Hon. Aaron A. Scheent, of California was a member of the Select Committee on the Pacific Railroad, and distinguished himself for his energy and ability in advocating the bill. No man is more familiar with the efforts of Mr. Campbell in favor of the bill. We have more familiar with the efforts of Mr. in his department.

Campbell in favor of the bill. We have seen a letter from the vice president of the Central Pacific Railroad, in which it is stated that "at the suggestion of the Hon. A A Sergent, a complimentary pass for county, on the result of the Presidential County, on the Presidential County, on the result of the Pre

CLIPPINGS.

THE report of the money order depart ment of the Cincinnati Post-office, for last month, shows \$16,128.01 of orders issued. and \$75,721.89 of orders paid.

THE grand total of personal property in Hamilton county, Ohio, as returned by the Township Assessors to the County Auditor, for the present year, is \$55,743,

CROP reports say that in New England and Northern New York the prospects or grass, grain and other fruits have no been better for many years. Planting is over, and corn is in the ground earlier than usual. Orchards give abundant avidence of a large yield. Franklin and Marshall leads off, we

elieve, among the State colleges in its commencement, that anniversary falling on the first day of July-one day later than the same occasion at Princeton, Layayette holds on until the 27th of the same month, and Gettysburg is still later. WHITE PINE, the famous silver mining

district in Nevada, received its name from the vast quantities of white pine timber covering the mountains in that neighborhood. A local paper notices boards twenty-two feet in length and twenty-one inches wide, cut from the white trees. One log yielded seven hundred and sixty-six feet of lumber.

In consequence of the potters' strike at Trenton, N. J., not less than five hun-dred persons have been idle for about eleven weeks, during which time they might have earned over \$70,000. The employing potters have been unable to manufacture ware or take orders, and the trade is almost at a standstill, greatly to the loss of employers and employed, and greatly to the detriment of all the business interests of the city.

THE following change of Postmasters ermed with two planers and whirling at in Pennsylvania has just been made: Manor Hill, Huntingdon county, Andrew Wilson vice J. B. Myton, resigned. the rate of over four thousand revolutions The following new Postoffices have been established: Morrell, Huntingdon county, J. A. Hagerty appointed Postmaster. Halbrook, Greene county, James Wood appointed Postmaster. Big Tree, Greene county, J. S. Moore appointed Post-

> In a book by Dr. Harley, just publish ed in London, there is some curious information in regard to hemlock. He has found that preparations from the dried plant or fruit are quite inert, but that the fresh plant and preparations from the un-ripe fruit are potent poisons; and he coniders hemlock valuable as a remedial agent in a variety of nervous diseases He is of opinion that it was the spotted hemlock with which Socrates and Phocion were killed.

Somnambulism .- A cure for this dangerous disease, it is reported, has been discovered by Prof. Pellozzari, of Florence. The plan consists in winding once or twice round the leg of the patient, the end of a slender flexible copper wire, long enough to reach to the floor. The heory is that the copper wire dissipates the electricity in the human body. Eighteen somnambulists, treated in this way, it is asserted, have either been en-tirely cured or greatly relieved.

ROCHESTER women have successfully combined to restrain prostitution by wo in front of the boiler when the explosion took place were very much burned and scalded, and it is feared will not recover. The damage to machine and buildings amounts to about \$10,000.

Congress, second session, commencing the 2d of December, 1861, it will appear that Hon. James H. Campbell, of Pennsylvania, was the Chairman of the Select Committee on the Pacific Railroad. cants would, if the request was assented to, have to hear the names of their husbands, brothers and even their fathers, the female reformers retired and estab lished a system of espionage over the houses of ill-fame. This had the desired effect, and reformation was the result...

THE Columbus Journal of the 8th says that three-fourths of the corn in that part of the State was planted before the rain. Fully one half of this was destroyed, and will have to be replanted. Corn, however, it is thought, will mature in good time, planted late, as one half of the crop will be. Potatoes in bottom fields were entirely spoiled, while those on the uplands were injured but little. It is thought that the rains of last week lessened the potato crop of this county fully one half. All kinds of fruit are very forward. There was a slight frost June 7th, but no injury is reported as having resulted from it.

AT Astley's Amphitheatre, in London, in the play of "The Battle of Waterloo," Napoleon, with his staff, rides upon the stage on horseback. A few days ago an aid de camp's horse became restive and unmanageable. It pranced about the stage, then backed on to the footlights; which it smashed, and finally fell back, ward into the orchestra, throwing its rider. The musicians tried to escape from the dangerous proximity of their un welcome visitant; but one had his collarbone broken. Violins, violoncellos, flutes and flageolets were broken to atoms, and the music was torn and scattered in every direction. The horse was extricated after a delay of about twenty minutes.

A NEW YORK letter to the Chicago Journal says, "The Postmistress of Richmond, in addition to being a Federal spy within the Confederate lines, contributed very much to the comfort of sick and wounded Federal soldiers, who fall into Rebel hands. She borrowed the money from a friend to defray her expenses in going to Washington and pressing her claims for the Richmond Postoffice. Gen, eral Grant was knowing to her valuable services in the Union cause. On residing Washington she went directly to the President. He immediately acquiesced in her request, and accompanying her to Postmaster General Creswell's office, introduced her, and asked that her appointment be made out at once. This position is worth \$4,500 per annum. This is the only appointment which the President has, in person, asked Mr. Creswell to make
