THE MISSISSIPPI VALLEY: Its Physical Geography, including sketches of the Topography, Botany, Climate, Geelogy, and Mineral Resources; and of the Progress of Development in population and material wealth. By J. W. Foster, LL. D. Illustrated by maps and sections. Published by S. C. Griggs & Co., Chicago. For sale by R. S. Davis & Co., Pittsburgh.

The copious title page above gives some idea of the excellencies of this work. Seldom have we found compressed in the space of one volume so much really valuable information. It discusses questions that have been heretofore very seldom dwelt upon. We know too little of the vast resources of our great country, and less of the mighty Mississippi Valley than some other portions of the country. The mode of handling the topics in this work is quite different from the course pursued in most publications of the kind. The dry details of scientific facts are beautifully relieved by the glowing passages that abound throughout the work. It is a work of scientific merit, and yet clothed in language plain and attractive. The range of thought embodied may be gathered from the mention of some of the chapters, on mountains and plains, the origin of prairies, phenomena of the Mississippi river, forest culture and irrigation, climate, cultivated plants, geology, influence of climate on man, origin, civilization and progress and development, The origin of the prairies and the mound-builders will be read with much pleasure, as well as the author's views of geology. We repeat too little is known of our vast resources, especially of the Mississippi Valley, and we therefore most heartily welcome this valuable contribution to scientific literature. It is exceedingly gratifying to note in this connection that our former young townsman, Geo. Alex. C. McClurg, son of Alex. McClurg, Esq., an active business gentleman of this city, who won a fine record during the rebellion, rising from s private to a General for meritorious services, is a member of the firm of S. C. Greggs & Co., Chicago. We wish him much success in his business association. THE GATES WIDE OPEN, or Scenes in Another World. By George Wood, author of "Peter Schlswihl in Amer-

the republication of this work under a new name. However much alike this work is with "The Gates Wide Open" in name, the matter is widely different. The object of the story is to present views of the other world, as being a fit type of this one. There is much that is fanciful representations of the employment of the redeemed will arrest the attention of most readers. The work is well gotten

We have found by careful reading of "Beatrice," that the high opinion of the English Reviews of this extraordinary poem, are not too extravagant. Its corgeous description of Nature has not often been surpassed. There is a wealth of thought, too, embodied in the beautiful and highly colored language, and an exquisiteness of expression that is charming and fascinating. The poem, viewed as a whole, is a wonderful production. In reading it we felt the intensity and tenderness of many of the passages. The construction of the poem, and unity of the evidences on the mind of its power. The published. It contains some fine sketches main drift of the poem represents the love of Clement and Beatrice, how the latter was carried away by force, by a wealthy duke, during the absence of Clement; her rescue and sad and touching death before reaching her cozy home. The closing words of the dying Beatrice are touchingly beautiful, and true to nature. Mr. Noel is a poet of merit.

How Lisa Loved the King. By Geo. Elliot, author of the "The Spanish Gipaey," etc. Published by Fields, Osgood & Co., Boston. For sale by R. S. Davis & Co., 193 Liberty street,

Persons familiar with the "Spanish Gipsey" and the charming prose works in all respects similar to Reade's, and is of George Elliot, need not to be told. that this poem fully sustains the high reputation of this author as one of exquisite grace and beauty, and worthy, too. of a wide circulation. There is a life-like ty-five cents per volume. This edition is style in all that "George Elliot" writes. and the same wonderful genius is seen in this little brochure. Difficult as it might appear to put in English verse the stories of Boccaclo, this gifted author has not been wanting in ability to paraphrase Boccadio in metrical form. It is a story of love. Lisa, a gentle malden, fell in love with Pedro, King of Sicily, but knowing how hopeless her passion, pined away almost unto death. The King being made aware of the fact, in connection with the Queen, playned her marriage to the one her father had arranged. Space will not permit extracts to show its ele-

The opening chapters of this book are devoted to furnishing arguments against "Liberal Christianity," followed by some sensible reflections on leading scriptural doctrines. In connection with these doctrines he traces various reforms in their relations to Christianity, opposing capital punishment and woman suffrage. The

So large a class of persons are interested in the question discussed in this interesting book, that we predict a large sale. It is not merely of a few things relating to marriage in different countries of the world, and at different periods, but it embodies careful painstakng, by giving reliable in formation on this all-absorbing subject. Aside from its nistorial merits, it reads like the most charming romance. The author has given a faithful portraiture of this interesting theme, which is invaluable for reference and instruction. To perform a duty so well, must have required greaf labor upon the part of the author. The full contents and index are of the most satisfactory character for reference.

THE DODGE CLUB; or Italy, in MDCCC-LIX. By James De Mille, author of "Cord and Creese." Published by Harper & Brothers, New York.

When these papers appeared in Harper's Magazine, we enjoyed the racy discription of the "Dodge Club," with intense satisfaction. The author has not only the nack of amusing his readers, but imparting valuable information to travelers. Few books of this character are so truthfully portrayed as this one. The incidents are presented in a charming and attractive form, abounding with striking hits at the annoyances of trave. in Europe. The author is a genuine humorist, and is an adept in drawing eccentric characters. The historical merits of the work make it worthy of a wide circula-

street, Pittsburgh. In noticing this edition of the "Wa verly Novels," we have uttered strong words of commendation, and most cheerfully repeat that it is the cheapest and best edition that we have seen. Some may nean-held its anniversary exercises. object to the small type, but its clearness removes that objection. The edition of Scott's works is compressed in six volumes, and all may be obtained for the trifle of ten dollars. It is well printed on clear type, on white paper, elegantly illustrated, and hardly quite orthodox enough to suit and robed in handsome green morocco, some. It will, however, be extensively with elaborate gold chasing on back and read, and many will be glad of the op- cover. It is a rare thing to find a novel ten forty years ago popular now, and there are few works of flotion are few works of fiction issuing from the press in these days that are likely to be read forty years hence. But we are not surprised that "Norman Leslie" is popular, as anything Mr. Fay writes contains vitality and worth. We learned to regard him highly in our childhood days, and have watched his brilliant career ever since. There is a finish and dignified style about his writings that command the respect of the reader. This work gives us a picture of New York society, which will be read with interest now, perhaps equal to what it had when first is well constructed, and maintains its in-

"Vanity Fair," or, indeed, any of Thackeray's great works, as the merits of each one have been critically and thoroughly canvassed. This story is regarded as one of his best. THE QUAKER PARTISANS. A story of the Revolution. By the author of "The Scout." With Illustrations. Published by J. B. Lippincott & Co., Dbugdelphia. Philadelphia.

Peculiar interest hangs on this story from the fact that it depicts scenes during the revolutionary struggle that are al-ways of thrilling interest, and especially his only home was a garret. We all know what garret life in Paris is. This will not permit extracts to show its elegance and vivid touches.

the attraction of the story. There is not much of the sensational, but an easy flowing style, making it a pleasant and agreesble book to read.

THE POETICAL WORKS AND REMAINS OF HENRY KIRK WHITE, with Life by Robert Southey. Published by D. Ap-pleton & Co., New York. For sale by S. A. Clarke & Co, 119 Wood street Pittsburgh.

We have already commended this popular edition of standard poets for the compact and tasteful manner in which the series is printed, and very low price. The series embraces a class of poets that have stood the severest criticisms, and live while others which have appeared since are now forgotten. The merits of White's poems are known by all lovers of true poetry. His Life by Southey is interesting, and will repay reading.

SCOTCH WORDS; and The Bapteesmen O' the Bairn, by Robert Leighton, London, and New York: Geo. Rout ledge & Sons. Pittsburgh: S. A. Clarke & Co.

This is a wee book, containing two short poems in that Scotch dialect which Burn's poems and Scott's novels have. made so dear to us all. These poem have attracted a great deal of attention abroad and are undeniably witty and full of thought and genius.

COUNT ROBERT OF PARIS.—This is the twenty-fourth volume of Appleton's cheap edition of the Waverly Novels, at the low price of 25 cents. It is gotten up in nice style and illustrated. Certainly no one need want a set of Scott's great works when it can be furnished at such a low price.

VILLA EDEN .- When the first portion of this popular work was issued, we gave quite a favorable opinion of its merits. We expect to notice it more fully again. Part II. has been received through R. S. Davis & Co., 193 Liberty street. The publishers, Roberts Brothers, Boston, have brought the work out in fine style and in various forms to suit the public.

The promise of grain and fruit in this section of the country is, as everywhere else, very encouraging. The wheat is too heavy, some fields begin already to

lie down. One is surprised to see how much the railroad has improved this region of the country. All along the line are seen evidence of enterprise and thrift. Farms are improving in appearance, and increasing in value. The road itself is being put in fine order and seems to be doing a large business. Its accommodations for passengers are excellent. It de serves, as it is receiving, increased patronage. It is certainly under good management. Judge Jewett is the right man in the right place.
