The Monument—Three Years' Consideration—What Came of It—Action Finally Taken—Where It Shall Be and What It Shall Be, with Other Interesting Particulars.

Saturday afternoon another meeting of the Monumental Association was held at the rooms of the Young Men's Christian Association, Fifth avenue, for the purpose of taking action in reference to the selection of a site and instituting the preliminary steps towards accomplishing the work undertaken.

The meeting was organized by calling Mrs. R. Robinson to the chair and appointing the usual Secretaries. The following members were present:
Mrs. R. Robinson, Mrs. Samuel McKee,
Mrs. M. S. Johns, Mrs. R. Preston, Mrs.
Q. A. Scott, Mrs. John Barton, Mrs. H.
H. Mann, Mrs. C. C. Scafe, Miss Mary Galway and Miss Annie Stewart.

REPORTS OF COMMITTEES. Mrs. Pearson presented the draft of a Constitution and By-Laws for the government of the Association, as prepared by the Committee appointed for that purpose at the last meeting.

After some discussion the paper was unanimously adopted. The report of the Committee appointed to visit the various sites proposed for the

onument was next called for.

Mrs. Scale asked if the Committee were not appointed to visit the different sites proposed and, if so, if they had attended to their business. She thought some report should be made of the advantages offered by either place in order that the Association might be prepared

Miss Galway was of the same opinion She wished to know what the Committee had seen, what had been proposed, and what they thought best to be done. Mrs. Preston finally, in behalf of the Committee reported they had visited Al-Committee reported they had visited Allegheny Park, Second Avenue Park and Allegheny Cemetery, either of these places presented some advantages, but the Committee after due reflection had found no reason to change their previous opinion in favor of Allegheny Cemetery, which they accordingly recommended as the most suitable site.

Mrs. Galway—Well, that to me, looks as if the site had been selected previously, and nothing could change the result. The report isn't full enough for me. I want to know what were the propositions made. I understand that

Mrs. Robinson—They did not make any direct offer of \$10,000, They said they were prepared to contributely handin cash, beside the foundation We told them to send us in a direct offer of the amount. We expected they would do this, and then we could have thing to act upon.

Miss Stewart thought the report of the

Committee should be received and the Committee discharged before any further discussion. The report was then on motion received, and the Committee dis-

sioners named in the charter. The Secretary will read the charter on this point.

The section referring to the matter was then read, which sustained the decision of the Chair. INTERESTING DIALOGUE.

Mrs Scalfe—Then I object to voting on the question now. There are but eleven of the Commissioners here, and 1 think it is very unjust to deprive them of their votes by hasty action. Chairman—It's not our fault they are not here. The meeting was called a week ago, and everybody knew its object. 'All

rested should have paid attention to the matter. Mrs. Mann—I don't think the case was properly understood. \ I am one of the Commissioners, but I did not know until to-day about this meeting, and that I was to-day about this meeting, and that I was entitled to a vote. If the matter had been properly understood I know others would have been here to-day. Mrs. Galway—I think it will be an out-

rage if a vote is taken now. Nine memrage if a vote is taken now. Nine members are absont. No notice has been given through the newspapers of this meeting and its object, and I think the business is altogether unfair and wrong.

"BUSINESS IN ORDER." Chairman-Well, ladies, it's no time

Chairman—Well, ladies, it's no time for talk. We must do something. We can't delay any longer.

The discussion here took place upon the merits of the different sites proposed, and was quite spirited.

Mrs. Robinson favored Allegheny Cemetery as the most suitable place.

Miss Galway thought it no place at all. The Monument should be built in a place where at all times it could be seen by the people and visited by strangers. y the people and visited by strangers. Mrs. McKee—Well, I think the proper place to put such a memorial is where ver twelve hundred of the soldiers we lesign to honor lie buried. They are doing this in other cities. In Sewickley, in Springfield, in Staubenville and many

other places. "COUNTRY TOWNS." Miss Galway—Oh, they are only country towns. Where is the city in which such action is taken.

PUBLIC OPINION. Mrs. Scalfe-Well, I think the public ought to be consulted in this matter. They gave the money, and they evidentwant the Monument some other place

look that way. But we can't delay any longer. If we intend to build the monument we must do something toward it at ones. It has been delayed and under consideration for three years now, and that ought to be long enough.

A FINALITY. After some further sharp discussion the vote was finally taken upon the sites. Eight votes were cast in favor of the Allegheny Cemetery. Three ladies, Mrs. Mann, Mrs. Scaife and Miss. Galway declined to vote. They characterized the affair as a farce, and emphatically declared against being recorded in such an illegal proceeding.

The announcement of the result was received in profound silence, which was

broken at length by
Mrs. Mann-Well, it seems strange such an important matter should be decided by so few persons. It looks like a partisan affair. It should not be built in any partisan spirit. In a few years all these party lines will be extinguished, and then what will be thought of this

Miss Galway-I won't have anything to do in such a matter, and I now tender my resignation as a member of that august Committee of nine which has it

charge. Considerable sensation was created by this announcement, and the lady was ged to reconsider her action. She reisted, however, and a vote was taken urged to on its reception, which was decided in the negative. The lady, however, said she would not hereafter consider herself a member of the Committee, and so the case rested. PRELIMINARY PREPARATIONS.

The Chairman then announced as the ext business in order, the appointment of a Building Committee.

The following gentlemen were selected: Gen. A. Pearson, Capt. W. B. Cook, Mr. John Chislett, Mr. Clarence,

THE DESIGN. Action was next taken on the adoption of a design. It was stated that a design had been adopted at a previous meeting. On motion this action was confirmed.

The design selected was prepared by Mr. Morganroth. It is one of three designs, seventy feet high with a spiral stairway in the interior ascending to a gallery twenty-nine feet from the ground. The column is surmounted by a collossal statue of a soldiea at "Parade Rest.", The estimated cost of the design out of the material proposed by the Association is \$26,000.

On motion, the Building Chmmittee were instructed to immediately adver tise for proposals for the erection of the monument, and proceed with the work as rapidly as possible. as rapidly as possible.

The Resignation of Miss Mattie Fowler, as Secretary of the Association was read, and on motion accepted. Mrs. B. Preston was elected to fill the vacancy.

A resolution was passed unanimously tendering the thanks of the Association to Gen. J. B. Sweltzer for his efforts in securing entertainment for the soldiers' orphans' from Uniontown on Decora-

The Association then adjourned to neet at the call of the chairman.

Cutting Affray. About eight o'clock, Saturday night, cutting afiray of a rather serious character occurred in the Ninth ward, on Penn street, near the Niagara Engine House, in which David Jones and Henry Coats were the principal actors. We have heard two versions of the affair, one of which is most probably correct, as they both agree, except as to who was the attacking party. The first statement is that Jones, having a grud Coats, who is a member of the Niagara Engine Company, was passing along Penn street, and seeing Coats standing in the door made an attack upon him

with a knife, inflicting a severe wound in the right arm between the shoulder and elbow. After receiving the wound, Coats, it is stated, ran into the street and picked up a boulder, which he threw at Jones, who dodged it, and the stone struck a young man on the opposite side of the street. About this juncture of the proceedings the police made their ap-pearance and Jones fied, taking refuge in his father's house.

The other side of the case is that Jones. having been up at a picnic that day, was returning in company with his sister, and when passing the Niagara engine house, was attacked by Coats, who, without exchanging words, run into the street, picked up a paving stone and threw it at d. whereupon the latter started Jones nead, wherever a pile of stones on the street. Coats, it is alleged, followed him, and he then drew the knife and used it in self defence.

This statement is vouched for by re-

This statement is vouched for by responsible parties, and it appears the most plausible as it is not probable that Jones, being alone, would attack Coats at the engine house among his friends. No arrests have been made. This, we learn is the third fight between these

The Mountain Seminary. No country in the world surpasses ours in the number and excellence of our in stitutions of learning, and it is the most hopeful sign of the times that education in our land is progressive and that a deep and abiding interest is manifested by all in the subject of education.

The education of the young lady is commanding the same attention as the education of the young man, although each occupy a sphere far different in life, yet to each a good education is es-sential. Female influence upon society is a matter of great importance, and that that influence should be well and healthily directed, it is for the good of society that the young ladies of the land should

be thoroughly educated, that they may take with them to the severe ordeal of domestic life the superior advantages of a thorough education. At the present time almost every settlement has its female seminary, and prominent among them in our State is the "Mountain Semthem in our State is the "Mountain Seminary," situated in the beautiful hamlet of Birmingham, Huntingdon county.
