THE OPENING. The indictment was then read to the jury by the Clerk, Mr. W. H. Black, after which District Attorney W. H. Grier opened the case in a short address on behalf of the Commonwealth. He said it was with feelings of diffidence that he appeared before a jury in a case where the facts which must be brought out would fall like daggers on the heart out would tait like daggers on the heart of aneighbor. But, however hard it might be, duty to his office, and the claims of justice, demanded that these solemn and important truths should be adduced. The prisoner at the bar was accused of a crime the most terrible in the calendar, and yet he belie zed if ever any human being deserved the name applied to the crime, it was she who was now arraigned at the bar. Mr. Grier is rather a pleasing speaker and his address made a fine impression.
At its close, Judge McGuffin announced that the examination of the Common wealth's witnesses would proceed. THE EVIDENCE.

There was no softening of the mucous membrane. There were some of these spots above the point I speak of in the folds of the stomach.
