FINANCE AND TRADE, OFFICE OF PITTSBURGH GAZETTE. WEDNESDAY, July 7, 1869. The money market being exceedingly tight, gold, stocks and bonds declined from 2 to 3 per cent. The opening price of gold was 1351/4, declined to 1341/8, but it reacted quickly, and closed at 1351/6. Fluctuations during the week are likely to be very violent, and higher prices for gold must be looked for. For eign bankers are the principal purchasers of

gold, and their bills are now selling up the specie shipping point. Government bonds were strong, delining, however, about 1/2 per cent. and losed with a slight recovery.

Stocks had suffered a further decline o-day, but at the last board the entire market had recovered to last night's quotations. A large number of bond fide holders of stocks get tired of paying high interest for money and sell out, so the market is without any outside supfort to sustain it. Money easier at the

PITTSBURGH MARKETS. OFFICE OF PITTSBURGH GAZETTE, WEDNESDAY, July 7, 1869. The markets in a general way present but little that is new or really important The advices from New York and Chicago, on Tuesday, reported flour and wheat excited, and considerably higher; we are glad to state, however, that it was owing glad to state, however, that it was owing mainly to their ports from Europe and not the weather, as has been the case recently. There has been no rain here for four days, and the warm sun and dry, winds are ripening wheat rapidly, and what is true of this vicinity seems to be general, as our advoices from the west report but very little rain within the past few days. It is now generally conceded that there will be a good crop of wheat, notwithstanding the unfavorable weather, but considerable apprehension is felt in regard to corn, which if reports are correct, is more seriously injured by the recent rains than wheat. Later advices, however, may throw a different light on the matter, and it is

probable that corn, as in the case of wheat, will turn out much better than expected.
