

The Pittsburgh Gazette.

PUBLISHED BY PENNIMAN, REED & CO., Proprietors.

OFFICE: GAZETTE BUILDING, NOS. 54 AND 55 FIFTH ST.

OFFICIAL PAPER OF PITTSBURGH, Allegheny and Adair Counties.

UNION REPUBLICAN TICKET. STATE TICKET.

GOVERNOR, JOHN W. GEARY. SUPREME JUDGE, HENRY W. WILLIAMS.

COUNTY TICKET. ASSOCIATE JUDGE DISTRICT COURT, JOHN M. KIRKPATRICK.

ASSOCIATE JUDGE DISTRICT COURT, JOHN M. KIRKPATRICK. ASSISTANT LAW JUDGES, CONSIDOR P. FAS...

WE PRINT on the inside pages of this morning's GAZETTE—Second page: Poetry, "Contentment," "Billiards," "Miscellany," "Financial, Mercantile and River News, Markets, Imports. Seventh page: Notes of Travel, Washington Items, Clippings, Amusements.

REDEMPTION at Antwerp, 49 1/2. U. S. BONDS at Frankfurt, 86 1/2.

Gold closed in New York on Saturday at 135 1/2.

When the Post says "we want," it adds that "we means all the honest men in Allegheny county." Very cool, for this hot weather!

THE POLITICAL crisis in France has not yet culminated. The Emperor apparently hesitates to accept the liberal programme; a few days more must witness some conclusion.

THE Post enters an appeal from the decision of the Court of Quarter Sessions upon the illegal propositions of the Grand Jury. Why not get an injunction from Judge Shearswood at Mt. Pleasant?

It is understood by the knowing ones that General Hancock should receive the nomination for Governor of Pennsylvania, he will undoubtedly resign his position in the army and accept the same.

It surprises no one to hear that the Secretary of the Treasury is in no sense, whether actively or by any tacit assent, a party to current electioneering schemes for the next Presidency.

IN HIS "BETTER PROPOSED" to locate the Soldiers' Monument at the south-western corner of Market and Liberty streets, provided the city purchases and donates that site for the purpose to the Association.

THE New York and Erie, Pittsburgh and Connellsville and the Baltimore and Ohio Railroad Companies, it is hinted, have in view the early consummation of a project for constructing a railway through to Chicago.

AN enterprising firm in Cincinnati, recognizing the strength of the public demand, have commenced the manufacture of whisky from garbage, potato peelings, street-sweepings and the refuse of slop-barrels.

THE long deep-sea section of the French Atlantic Cable has been successfully laid, the expedition having reached shoal water on the Newfoundland Banks, two days since.

thrown in the sea-board markets. Our own Monongahela collieries have shipped, in the first half of the current year, twenty-seven millions of bushels to the west and south.

THE POLITICAL ASPECT throughout the State is daily becoming more cheering, and unless the Democracy are more fortunate in their choice of a gubernatorial candidate than is indicated by present appearances, GEARY will walk over the course into his second term of office with an old-fashioned majority.

WE HAVE received the initial number of the Northwestern Independent, a new monthly paper published at Butler, Pa. It is a folio sheet, neatly printed, and contains a choice selection of interesting reading matter.

THE "UNINSTRUCTED" DELEGATES propose to reconstruct the Pennsylvania Democracy at Harrisburg this week. HANCOCK and the universal brotherhood of all the opponents of radical oppression, will be the ticket for them this year.

OUR LOCAL COLUMNS present an abstract of the collections of internal revenue in the XXIII District for the quarter ending June 30, '69. Notwithstanding the large falling off in the receipts for a portion of this period from certain sources specified, we may observe that the total collections under the present Administration show an increase in this district of \$113,813.93 over the corresponding period of last year.

THE ELECTIONS in Mississippi and Texas have been deferred to November, to avoid any interference with agricultural industry. The test oath and disfranchisement clauses of the Mississippi instrument will be submitted separately, and the Texas Constitution, which is much more liberal, will be voted upon as a whole.

THE Buffalo and Erie Railroad Directors have agreed to consolidate with the Lake Shore and Michigan Southern line to Chicago. The proposition will be submitted to the stockholders at once.

THE Cincinnati Gazette states, upon authority, that the Pennsylvania Railroad Company favors the early construction of the Ten Millon Road thence to Chattanooga. There need never have been a doubt on this point; when that road shall be built the common interests of all concerned will lead at once to its lease to the Pennsylvania corporation.

THE new seven per cent. bonds of the Allegheny Valley Railway, dated in April last, are on the market. The issue is understood to be intended to supply the needed funds for the construction of the new Mahoning line eastward, flanking the mountains and connecting with the Pennsylvania system on the tidewater slope.

THE sagacious Mr. Smith thinks we are disposed to bull the market in the interest of the Gazette's oil farm, which, of course, we claim to be the long-lost buckle of the petroleum belt, and all this because we expressed the belief that the Pennsylvania petroleum regions are being rapidly exhausted.

IT is submitted on all hands that the decision of the Supreme Court at Brownsville yesterday, affirming the power of the Governor to remove Registrars at his pleasure, secures the election of Senter.

THE ANTHRACITE COLLIERIES of this State are all in operation again, except those of the Hudson and Lackawanna companies. During the suspension, large supplies of bituminous coal have been

THE BEAVER SENATORIAL CASE.

As the details of the "arrangement" under which the Conference arrived at this nomination, have been narrated to us, by responsible and dispassionate individuals, there seems to be enough, at least, to raise a strong presumption of corruption.

OF course, this case specially touches the honor of the Republicans of Washington county, which is ably and honestly conducted, refuses to recommend the support of Mr. ROTAN, until the matter shall be thoroughly investigated and he fully acquitted in the premises.

IF, therefore, Mr. ROTAN obtained his nomination by purchase, and that fact should be established with reasonable certainty, he should either be made to decant out of the ticket by competent authority. Policy as well as principle points to this conclusion.

WE are not inclined to condemn any man by invidious or unheeded. We consequently, leave this matter in the hands of the Republicans of Washington and Beaver, trusting that they will sift it to the bottom, and make such a decision as the evidence elicited shall necessitate and demand.

PENNSYLVANIA CROPS.

A trip, by daylight, through the State, enables us to speak with some definiteness as to the crops. All sorts of fruits seem to be in uncommon abundance.

West of the Alleghenies, not much harvesting has been done. This is in part owing to the backwardness of the spring, and in part to the rains, which have made harvesting almost impossible.

Corn is decidedly backward. Very little of it is as high as it should be at this season, and much of it is sickly here, by reason of water standing in great patches upon the fields, or too liberally saturating the soil.

Potatoes are mostly in full blossom, and have a healthy look. East of the mountains, the wheat and hay harvests have begun in earnest.

It is generally admitted that the Virginia election has been a fair one in the main. Its simple result is the reconstruction of the State on the Republican plan, but under Democratic auspices.

DEMOCRATIC NEWSPAPERS, which a few months ago were prophesying a terrible deficit in the revenue and a consequent augmentation of the national debt as a result of the policy of Congress and the incapacity of President Grant.

BLUESKAD PLAINS, a barren waste of 7,000 acres on Long Island, is about to be purchased by Alexander T. Stewart, Esq. of New York, and several millions of dollars will be expended by him in putting up handsome improvements.

Frank Blair's Latest Appearance. The officers of the Army and Navy of the Gulf party of their annual banquet at Long Branch on Thursday last.

IN view of these facts, it is a wild and an ignorant perversion, which claims this election as a Republican triumph. No result could have been further from them in Virginia.

AT least one thousand persons stopped in front of Dr. Hallock's show window last night to admire a full-blown night flower. The plant had been placed there late Monday evening, in order that all might be able to see this rare and exquisite flower.

A MAGNIFICENT FLOWER. At least one thousand persons stopped in front of Dr. Hallock's show window last night to admire a full-blown night flower. The plant had been placed there late Monday evening.

Progress in Iron Manufacture. Four new and nearly distinct improved processes are now being matured for the making of iron and steel.

TRUSSES AND HERNIA. The sad and deplorable condition of many who are afflicted with hernia or rupture of the bowels, calls loudly for some efficient and unobtrusive remedy.

CONCLUSIVE EVIDENCE IN FAVOR OF HOSTETTER'S STOMACH BITTERS. Dr. H. Basse, a leading druggist in Monticello, Ill., in a letter of June 5, 1868, writes to this effect: "Having sold Hostetter's Bitters for the past four years, I cannot but speak of the article as being the best tonic and appetizer extant."

IN ANSWER to the question as to what the Ritualists are going to do, the Rev. Mr. Mackonochie, of St. Alban's, Holborn, replies: "We are going to fight as well as we have breath in us for the full acceptance in the Church of England of the Catholic teaching which she has received, though her forefathers, in a tradition of eighteen centuries, have not done."

A Brave Son.

Daniel Upton, formerly a member of the Michigan Legislature, recently attempted to cross Black Lake, Mich., which is half a mile across, in a leaky boat, and it went to pieces, leaving him and his youngest son to get ashore the best way they could.

EARNINGS. Twenty clerks in a store. Twenty hands in a printing office. Twenty young men in a village. All want to get along in the world, and expect to.

A CURIOUS fact has lately been brought to notice in regard to the Nevada silver mines. Heat, not water, is the chief enemy encountered after reaching a great depth, and instead of pumping out water, the company have to pump in air.

A SOUTHERN paper intimates that gentlemen who part their hair in the middle thereby incite the wisdom of Solomon, who once proposed to settle a dispute between two women by parting the hair in the middle.

TRUSSES AND HERNIA. The sad and deplorable condition of many who are afflicted with hernia or rupture of the bowels, calls loudly for some efficient and unobtrusive remedy.
