Pints Ben's alle rolling bert tonic)

FARM. HARDEN AND HOUSEHOLD.

DOMESTIC ECONOMY. Russe .- Beat a quart of cream to a froth. sweeten with white pulverized sugar sufficiently, add a teaspoon of extract of sugar beet, &c. The plough used on the occasion reed; mix all thoroughly; then take strawberries and lines deep dish and pour the cream in the center.

A Nut Cake .- Take 's half a pound of are rated at fourteen-horse power, and flour, a half pound of sugar, quarter of a propel themselves from one point to an-pound of butter, three poor two tea. pound of butter, three eggs, two tea--Hearth & Home. spoons of baking powder; mix this well, and then mix in a teacup of nuts -- hick-ory nuts are preferred; bake in a well heated over,

Cream Cake-Half cup of sour cream, half a cup of sugar, one cup and a half of four, two eggs, half teaspoon of soda dissolved in cream.

Puff Cake .- One cup of sugar, one cup and a half of flour, half a cup of butter, not wide from the mark. There is a two eggs, one cup sweet milk, three tealarge loss from moulding at the bottom of the stack, and old ralls, boards, or straw

spoors of baking powder. Graps Jelly -- Pick the grapes when they are ripe, boil in half pint of water until soft, then let, them drain through a thin cloth; after the Juica is drained out, will not wholly prevent it. Then the whole external surface for three or four inches is weather beaten, and loses much of its sweetness; and it is not improbable boil again a few minutes and then add that this loss of sroms extends through sugar-a pound for every pint; the best white sugar should be used-boil fifteen the whole stack. The conviction is universal among inminutes and pcur in glasses.

telligent men that barn-stored hay is worth much more than that which is minutes and pcur in glasses. Apple Jelly.—Fall pippin apples are decidedly the best for jelly. To one peck of apples, after they are pared and quartered, take three pints of water and the juice of one lemon, with a very little lemon peel, stew until soft, then pour into a jelly bag and let drain; to every pint of infee add a pound of every rest it. taken from the stack. Why then follow this wasteful practice? Look at the loss of this farmer who cuts one hundred tons of hay, worth \$2,000. According to his own estimate he pays \$100 a year for the privilege of stacking one fifth of his crop. pint of juice add a pound of sugar; set it This is but a small part of the loss where on the fire; take off any scum that arises; the hay is fed out at the stack. It costs at least a third more hay to keep cattle let boil twenty or thirty minutes, trying occasionally with a spoon to see if it jells. without shelter. These are strong arguready to put in glasses the syrup will ments for more barn-room.-Ex. drop thick. BEST TIME TO CUT TIMBER.

Apple Tarts.-Stew eight tart apples I have cut timber at all seasons of the year, and noted the results to ascertain its as for sauce, sweeten and add cinne and a tablespoonful of butter while hot: effects upon its durability. You may cut when cold add half a teacup of bread, pignut or scaly bark hickory in winter or early spring, and make up into axe-belves, brumbs, and the yolks of four eggs well beaten, with a cup of sweet milk: bake and worms will eat them up; but, cut the with under crust; when done beat the same timber, say from the first of July and as long as the bark continues to peel, and they will remain sound. In proof, L white of the egg and four large spoonfuls of white sugar, and extract to suite taste, beat stiff, pour over the tarts, set them in have a windlass and frame for same, over a well on my farm, made of pignut hickthe oven to gain a light brown. Soft Woffles, - Take three pints of milk, Ive eggs, large cup of butter yeas, half ory, cut in July, 1856, which is sound

to-day. The like effect will be experi-enced upon every description of timber cut as before stated; hence, instead of cup, make as soft as batter cakes. Tomato Batter Cakes.-Slice ripe tomaces, cover them with batter and fry on cutting timber in winter, or as soon as the sap begins to run, it should attain its

griddle, as any other cakes. Sherry Cobbler. - Fill a quart pitcher. palf full of broken ice, teacup of strawgreatest flow, and have commenced a decreass in circulation, by which fermenta-tion is prevented, and yet the pores of the perries, one lemon peel, cup of white suzar, fill with sherry. wood are

Punch .-- To a quart of sweet milk add three eggs well beaten, add eugar, nut-meg and lemon peel; boil this until it hickens, then add a cup of rum; stir all the time.

Pop Over Cake .- The following is the receipt for making the justly celebrated Pop Over Cake. It is said to be well worth a trial. One cup of mills, one cup stated, remain. of flour, once up of egg, a little pinch of alt; increase in proportion to the family.

simply cut the trees and bark them, and TO GATHEB AND PRESERVE PLANTS. work unthe timber in the following fall 1. If possible gather dry plants upon dry day, and protect them from sunlight with the same good results -- Rural World.
