Chartlers Railrood .- We learn that work was commenced on the Chartiers Valley Railroad, at Bell's Tunnel, on Monday last.

Fornex Et Cet .- Margaret O'Conner made information before the Mayor yes-terday, charging Thomas Mulveyhill with formex et cet. A warrant was is sued for his arrest.

Ice Cheap .- Mr. John White, Jr., an nounces through our columns, that he is prepared to farnish the very best chataugus founty, New York, Lake ice, cheaper than any house in the city. His number is 336 Penn street.

Disposed of.—Two other Sunday cases have been disposed of. Alderman Koenig yesterday rendered decisions, imposing fines of \$25 upon John Snyder, for selling ics, and Mr. Herbst of the Ordinary, for selling ice cream on Sun-

Teachers Elected.-For the Eighth Ward Public School, Allegheny, the Ward Public School, Alleguery, the following teachers have been elected for the ensuing year: Principal, Miss Helen Renwick; Intermediate, Miss A. L. Haller; Primary, Miss Sue Omsler. One teacher fremains to be elected for the teacher fremains to be Grammar Department.

Another Seizure.—Collector Davis yes terday seized five empty whisky barrels at the establishment of Glockner & Co., St. Clair street. It appears the liquor had been removed from the barrels, and the stamp had not been cancelled or removed. The penalty is a fine of \$300 for each and every package so discovered.

The Liquor Law .- Mrs. A. Kirk, residing at 45 Arthurs street, had a hearing yesterday, before Alderman Neeper, on an information for selling liquor without license, preferred by David Acor, upon which she gave bail for Court. She was also charged with selling liquor to mi-nors, but this case was held over for a hearing.

A boy, named Burns, aged twelve years, whose parents reside on Second avenue, was drowned yesterday afternoon by falling off a raft of logs lying above the Monongahela Suspension Bridge, on this side of the river. A vigorous effort was made to save the boy's life by parties who witnessed the acci dent, but of no avail, as the body was drawn under a flat boat and did not come to the surface. The body has not yet been recovered, but active search was being made for it up to a late hour last evening.

Felonious Hoeing.

John Madoney and Michael Seiferth laborers, employed as mortar and brick carriers in the erection of St. Andrew's Church, Hand street, got into an altercation yesterday, when, it is alleged, Michael made an assault upon John with a hoe, striking him on the ear, splitting it in twain, and otherwise injuring him about the head and face. Jehn objected to such an immoderate use of the hoe and made information before Alderman McMasters last evening, charging Michael with felonious assault and battery. A warrant was issued for his arrest.

Separated.

There has been trouble in the Archibald family, denizens of the Ninth ward. Yesterday Ellen, the wife, manifested her feeling toward Thomas, the husband, by applying several very approblons epithets to him. He in turn struck her with his fist, raising, she says, a lump "just behind her ear." Mr. Long asked for information in reference to the nature of the suits. Mr. Megraw explained that high and low water lines had been established for the river. That certain persons on the Pittsburgh side, the owners of mills, had filled up about seventy or eighty feet over the established line. He wished to know if any definite action had been taken or could be taken to make these parties comply with the law. They had been sued, and the matter had been put been sued, and the matter had been put off from time to time for several years.

Mr. Long suggested that perhaps Allegheny City had no right to compel Pittsburghers to comply with laws.

Mr. Megraw said this was merely a test. If the parties who had been sued,

Messrs. Zug & Co., were made to comply with the law then, all the others owning mills on either side would be settled. Mr. McNelll thought there was no doubt about the law, but there seemed to be an "extreme delicacy with the So-licitors" to tough this matter. If the Solicitor was "stirred up" stittle how, he would soon fall back into the old track. There seemed to be a "strauge mesmerism" come over the Solicitors whenever the question of high and low mater lines was talked of, ite favored the employment of a lawyer who would make it his especial business. It would better to pay \$5,000 and have it setled at once. After some further discussion the res-

olution was adopted. RESIGNATION,

Mr. Hanna presented the resignation of his colleague, Mr. H. M. Long, as a member of Common Council from the First ward.
The resignation was accepted and the Mayor instructed to issue his proclama

tion for a special election to fill the vacancy. THE LIBRARY AGAIN. In the business from Select Council a resolution in reference to the library was

alled up.
Mr. McNeill moved to recede from former action and concur in the action of Select Council, in authorizing the con-struction of a room for the City Engineer by an alteration in the Common Council chamber according to a plan prepared by the architects, thus allowing the Library the continued use of the room, which

Mr. Megraw contended the room was needed by the City Engineer, and that the library room was the only one which would suit him. He thought the Councils had no right to take a room out of the city building and donate it for the use of a private organization. As to the argument that it was a good institution and for the benefit of the poor mechanics and similar persons this was altogether. imilar persons this was altogether a mistake. It was only a place for young men who could go there "fixed up," and

ras no benefit at all to any others. Mr. mcNeill thought this was one of its great recommendations. If it induced young men to "inx up," and encouraged them in such a practice, it was worth all the mere putance which had been or would be expended in keeping it up. If knowledge by it was disseminated among young people, and a place of instruction and amusement thus afforded them, it was certainly worthy the

Mr. Herman was aroused by a night watchman and experienced considerable difficulty in meets with the hearty approval of a large. meets with the hearty approval of a large majority of the interested parties. There is no question but that a market is absolutely needed in this section of the city, and as this is the most central for that reason it is certainly the most eligible and proper site. It is right in the heart of one of the most populous secthe heart of one of the most populous sections of the city, residents of which are now paying nearly as much for transportation of their purchases from the market in the Diamond, as would sustain the proposed new enterprise. The ground is offered at a very reasonable price, much less than it could easily be sold for if disposed of in lots, and if it is not secured now, another year will unquestionably find the price considerably advanced. The citizens of the Sixth, Seventh, Eighth, Eleventh and Thirteenth wards and those in the rapidly inc, as the rush during the day is so great questionably find the price considerably advanced. The citizens of the Sixth, Seventh. As they will be its patrons, and as such its support, certainly their preference is worthy of consideration. Another point not to be overlooked is the unde fact that a market house must be built in this neighborhood sconer or later, and the sconer it is done, the more favorable the terms can be made.

But, Mr. Editor, we don't wish to dic-tate, but respectfully urge Councils to decide upon the case as soon as possible, as Select Council has alreaded adopted the recommendations of the Committee. Meeting of the Railroad Committee of Councils—They Report an Ordinadea Granting the Right of Way to the

Connelisville Railroad. A meeting of the Committee of Coun cils on Railroads was held at the Mayor's office yesterday afternoon, to take into consideration the matter of granting to the Connellsville Railroad Company the right of way through the city, to enable said Company to make connections. The meeting was called to order by Mr. Og-den, Chairman of the Committee, at halfnast ten o'clock.

REPORT OF THE SUB COMMITTEE. Mr. Edwards, from the Sub-committee, appointed at a previous meeting, to investigate the matter and accertain the best route over which to make such connection and report to the Committee, ubmitted the following: Gentlemen: The undersigned Sub-Committee, appointed to take into considera tion and prepare an ordinance, granting to the Connellsville Railroad such right

i way as would enable it to make western connections, respectfully report: After a full and careful examination and inquiry respecting the propriety of allowing the said road right of way through the city by way of Cherry alley, your Committee came to the conclusion that Committee came to the conclusion that the granting of such right would be inimical to the interests of the city and property holders, and the use of such route dangerous to life and generally obnoxious to citizens.

The feeling of this Committee, as indicated at the last meeting, seemed to be against it also, and we therefore turned our attention in search of another route

our attention in search of another route that would be more favorable and less inconvenient and dangerous. After a careful examination and full investiga-tion, your Committee unanimously de-cided upon the Water street route, which had before been referred to in the Comhad before been referred to in the Committee. By this route but little, if any damage, will be done to property and business usual to the wharf, and Water street will be impeded to an extent hardly appreciable, while the shipping and steamboat interests, as we believe, will be greatly benefitted. Indeed to our own knowledge, the simple extension of the railroad down Water street has been asked by steamboatmen and merchants. The Committee, however, looked further and look into consideration the demand of the oil trade and other interests on Duquesne Way for increased and better railroad facilities, an examination convinced us that if at all practicable, the extension of the

road up Duquesne Way so as to form connections with the Allegheny Valley and other roads, especially the former, would be of immense importance and benefit, and of yearly increasing interest to the city and her manufactures and trade. This, in addition to the construction of the proposed bridge at the Point, is worthy of careful consideration. Your Committee has had an ordinance pre-pared by the City Solicitor in accordance with the wiews herein briefly expressed. This ordinance we respectfully submit, and ask that it be given that attention which the importance of the matter

demands. The accompanying ordinance was read It provides for the construction of a road down Water street to the Point and thence to the Allegheny Valley railroad depot, via. Duquesne Way, and it re-quires that the connection be made within one year after the acceptance of the ordinance by said company.

After considerable discussion the re-

port of the sub-Committee was adopted and the ordinance will be recommended to Councils for consideration.
