THE municipal authorities of Berlin have at length fixed on a suitable monu-ment in honor of Humboldt. They propose to proceed at ones to the completion of one of the two new parks which have been projected, and to give it the name of "The Humboldt." The bust of the great philosopher is to be placed in a little temple open on all sides and erected in a conspicuous position. A small bot-anical garden for the use of students is to be formed within the enclosure.

An Arkansas Republican paper thus refers to the conservative groans over the recent ruin of the South: "A few months of Radical reign, and alas for the evidences of gross misrule. A FORTNIGHT ago, at Napoleon, Onio, two boys named Cameron, aged nine and fourteen, were sent to bed supperless and threatened with a thrashing in the morning. In the night they got up, walked five miles to a railroad station, went to Chicago, thence to Baltimore, and since leaving the latter place the persons employed by Mr. Cameron to find the boys met with no success. They can not be caught. They seem to have no definite object in view, but when a train of cars drives up they get on and travel to the

A Laudation of Lager. A writer in Tuesrday's Boston Trancript discourses thus upon the philosophy and imbibition of lager beer:

"The impression that Germans use lager beer to an excess 18 an erreneous one, whether it refers to those among us or those in the Vaterland. Many persons fancy that the Teutons assemble at night in their saloons to make enormous and intemperate exhibitions of their natural beverage, and to make 'beasts of them-selves.' But those who understand this valuable class of our citizens know that their gatherings are not Bacchanalian, but social, and that conversation and not inebriation is the object sought after the labors of the day. Those who are accustomed to the use of lager beer consume daily but little of it; perhaps not much more than habitual tea drinkers do cups

"A boy who had suddenly received the freedom of a candy shop would, no doubt, for a few days cause to disappear a great number of sticks; but soon his appetite would be cloyed, and sweet things would sink to a low rank among the luxuries of appetite, and be for many days untasted. So it is with our sound headed Germans: while hours are spent in social unterhalting, perhaps not more than one or two glasses of beer are swallowed, and the brain is left as unbenebelt as before Whatever may be said of national beverages, the German brain will retain the ascendancy which it has already won; and on the continent of Europe its range is la(r)ger than any other; and if the nation advances (under the lead of Prussia). as fast as it has done for the past century. its future in the eastern world will open as brightly as that of the United States in the western."

Premature Interment. It is well known that cases of premature interment are of too frequent occurrence. To prevent death from this cause, Mr. Im. Pfeiffer, of Copenhagan, has invented an apparatus which he thinks will effect this object. The arrangement consists of an electro-galvanic battery, which generates positive and negative currents. from which battery two wires are run which connect with an electrical apparatus placed in a small brass tube inclosed in a larger pipe that is inserted in an aper. ture in the lid of the coffin in which the person supposed to be dead is buried. The moment even pulsation commences in the body an alarm is rung by the battery, which notifies the person in charge of the cemetery that life is not extinct. Each apparatus is numbered to correspond with the grave, so that immediate assistance can be given. Mr. Preiffer gives practical illustrations of his invention at the Cooper Institute.

The first officers of this library were elected in January, 1822, Mr. Robert Wain being the first president. The library opened in March, 1822, on the second floor of the house No. 100 Chestnut street. In 1824 the association numbered 380 members. and the library contained 1,500 volumes. A newspaper reading room was added in 1825, and in 1826 the members resolved themselves into a joint stock company; the books, furniture, &c., were valued at \$3,000; and 300 shares, at \$10 each, were issued and subjected to an annual tax of \$1 each. SCHENCE'S PULMONIC

SYRUP. SEAWRED TONIC AND
MANDRAKE PILLS will cure Consumption.
Liver Complaint and Dyspepsis, if taken conding to directions. They are all three to be taken at the same time. They cleanse the stomet, release the stomes good; the foot digest sud make, release the stomes good; the foot digest sud make good blood; the patient begins to grow in flesh; the diseased matter ripens into the lunes, and the patient outgrows the disease and gets with the patient outgrows the disease and gets with. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivaled success in the treatment of pulmonary Consumption. The Pulmonic Syrup pines the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phiesm or matter is ripe a silabit cough will throw it off, and the patient has rest and the lungs begin to heat.

To do this, the Ecaweed Tonic and Mandrake Tills must be irrely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the aucts of the gail bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calcume (a deadly po'son which is very dangerous to use uness with great care,) that will untook the gail bladder and start the secretions. Liver complaint is one of the most prominent canesa of Consumption.

Schenck's Seawed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissoive the food with the Plumonic Syrup and the stomach.

The great reason why physicians do not cure consumption is, they try to do to SCHENCR'S PULMONIC

into good b ood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do the much: they give medicine to stop the cough, to stop chillato stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dycepsia. Catarrh, Canker, Dicerted Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the ungs in some way are diseased, either tubercies, abcesses, bronchial irritation, pleura adhesion.

stomach are made healthy.

If a person has consumption, of course the ungs in some way are diseased, either tubercles, abcesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must not only the lungs that are wasting, due? It is not only the lungs that are wasting, due? It is not only the lungs that are wasting, due? It is the whole body. The stomach and liver have lost the patient of the stomach and liver have lost their power to make blood out of for the well of the conject that the patient will begin to want food, it will digrest easily and make good blood; then the patient geth and as soon as the body begins to grow, the lungs commence he body begins to grow, the lungs commence he body begins to grow, the lungs commence he bead up, and the patient gets fishy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandr-ke Pills are sufficient, without the Pulmonic Syrup. Take the Manorake Pills freely in all billious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 235 pounds, was wasted away to a mere sketeton, in the very last stage of Pulmonary Consumption, his phylicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid mer kinnes, and since his recovery many thousands similarly afficted have used Dr. Schenck's preparation with the same remarkable success. Full directions accompany each, making it not absolutely necessary to personaliv see Dr. Schenck, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadeliphia, every saturday, where all letters for advice must be addressed. He is also professionally at No. 35 Hanover street, Boston, every other Treaday, and at No. 35 Hanover street, Boston, every other Treaday, and at No. 35 Hanover street, Boston, ev
