STEWART'S HOTEL FOR WORKING POBPLE

In order to provide suitable homes for industrious young men and women, Mr. Alexander T. Stewart, of this city, has devoted six millions of dollars to the erection of buildings for bur work-people. His plan includes the construction of two grand structures, which may be called hotels. On Fourth syenie, be-tween Thirty-second and Thirty-third streets, the excavation is already made, and the foundations begun, for the first building, which is intended as a home for young working-women. "It is to be con-Tammany, who instruct him that the debt must be paid in gold; then turning to Pendleton and the Western leaders, who structed of iron, thoroughly fire-proof, and will have three fronts upon the three Pendleton and the Western leaders, who streets named. On Fourth avenue the assure him that if paid at all it is to be streets named. On Fourth avenue the frontage will be one hundred and inlety-two feet aix inches; on Thirty-second and Thirty-third streets, respectively, two hundred and five feet. The area covered by the whole structure will be forty-one thousand square feet. It would be useless to encumber our space with architectural details that would convey, no idea to the general reader. The main building will cratic policy; but, as he looks down into general reader. The main building will

THE Richmond State Journal says, upon sufficient authority, that there is no truth in the Washington gossip, im-puting to General Sherman and the Pres-ident a desire to place General Canby in command in Mississippi. But, it adds, there is ground for the statement that certain Virginia politiciane are anxious,

for personal and party purposes, to sub-stitute in the military command of this State some, Copperhead officer in the stead of General Canby.

That is what the great Democratic party has fallen to ! PASSIONS SUICIDAL.-Excessive labor, exposure to wet, and cold, deprivation of sufficient quantities of necessary and wholesome food, habitual bad lodging, sloth, and intemperance, are all deadly enemies to human life; but they are none of them so bad as violent and ungoverned passions. Men and women have survived all these, and at last reached an extreme old age; but it may be safely doubted whether a single instance can be found of a man of a violent and irascible temper, habitually subject to storms of ungovernable passion, who has arrived at a very advanced period of life. It is therefore a matter of the highest importance to every one desirous to preserve sound mind in a sound body, so that the brittle vessel of life may glide smoothly

and securely instead of being continually tossed about amidst rocks and shoals which endanger its existence, to have a special care, amidat all the vicisaliudes and trials of life, to maintain a quiet possession of his own spirit. - Bailey.
