County Commissioner. Mr. T. J. Hoskinson nominated Isaiah Dickey, Esq., of the Thirteenth ward In making the nomination the gentle man paid a high tribute to the worth of Mr. Dickey as a citizen widely known and honored, and as an upright Chris-

As for my qualifications for the office, you will have to be cations for the omes, you will have to be the judges of that yourselves. I don't intend to make any lengthy speech at this time, but one point I wish to speak on plainly now, is this: I don't propose to go down into the dirty puddle and mire of politics, so-called, to secure an elec-tion, as some politicians in such cases are and to by idea of this affair is that said to do. The other day I heard of an occur-rence which illustrates this point. I

heard in the morning about nine o'clock that two applications for license would be presented to the Commissioner that day from my own ward. I went to the office as soon as I could and found that one had been no remonstrance sent in against them. Itslied with the Commissioner than the c in against them. Italked with the Com-missioners and asked them if the matter had to be pushed forward so fast. They said it could be delayed a little while. I went round the ward and tried to get the feeling of the people manifested in the matter. I also thought I'd try to get the woman who had secured one licer to give it up but failed in every argument, although I used a pecuniary one at that. Just as I miary one at that. Just as I was turning away from her she said: "I suppose you think I am a very bad woman in trying to get my license." I said I didn't know how she thought, but

it certainly appeared that way to me. She said, "No; I am not a bad woman, and it's not wrong for me to get my license. Itm a good woman. I pray every day. Go to church regular. Never eat a meal without asking God's blessing upon it, and have prayed especially about this license, and I think my prayers are to be answered, for f am to get my license. Mr.—told me so. THE CONVENTION REJOICETH. Several delegates here became unable to repress their gushing enthusiasm, and were allowed a few moments, by common consent, to relieve themselves in mutual congratulations on the prospects of the cause, and everything connected therewith, and in touching allusions to their last defeats and discouragements which now seemed almost lost in the great success which by the eye of faith [the only medium through which they looked] they perceived in the future. The general joy was becoming infectious, and several sedate delogates who had modestly retired to remote who had industry, resided to temper corners of the room were about to come forward, when an irrepressible suddenly jumped up and announced that no satis-Jumped up and announced that no satisfactory pledge had been given. THE CAMPAIGN-HOW TO CONDUCT IT. The Convention was again entertained. with congratulatory remarks, by Prof. L. H. Eaton and others who were cheered and encouraged by the signs of progress on every side, and hoped that the old and young would unite in helping forward the good cause. A general discussion then ensued on the conduct of

the campaign during which.

Mr. Travelli gave some interesting reminiscences of the manner in which the last one was carried on. He thought there was little use in meeting, nomi-nating candidates and passing resolutions unless something was arranged for the proper carrying out of the plan. At the last campaign a great fuss had been occasioned for want of tickets. On the day they should have been distributed, after diligent inquiry he discovered them in a store in Allegheny where they had been left—to take care of themselves. He hoped some better organization would be had in the future, and that the whole ounty would be properly canvassed.

Mr. Westfall moved that the Executive Committee be instructed to prepare circulars, glying the statistics of interes
