OFFICE OF PITTSBURGH GAZETTE,) MONDAY, August 16, 1869. For the first time for several years the exports have exceeded the imports, in consequence of which a very dull and bearish feeling manifested itself in the gold market. Gold opened at 134,

clined to day. New 1865s sold down to 119%, but rallied to 119%. The decline has brought out but few bonds, but the demand is reduced to the smallest

PITTSBURGH MARKETS. OFFICE OF PITTSBURGH GAZETTE, Monday, August, 16/1869.

The markets, in a general way, present but little that is new or important. The demand for almost everything is confined mainly to supplying immediate wants, and with a light volume of business in the aggregate, prices generally have undergone no quotable change Now that harvesting is over and the crops pretty well secured, there is every indication of an early improvement in business, and judging from present indications, there is nothing in the way of

PETROLEUM MARKET. OFFICE OF PITTSBURGH GAZETTE, Monday, August 16, 1869. The oil market opened this morning a little excited, and considerably firmer, under the influence of the foreign news, but subsequently there was a reaction, Antwerp being reported a franc lower, and at the close the feeling was compartively weak, and prices, compared with the early part of the day, declined fully a quarter of a cent. The volume of business, however, was very light, and so long as the market remains in its present unsatisfactory and unhealthy condition, no improvement can reasonably be expected—so long as the manufreturer has no inducement to sell, so long as has no inducement to sell, so long as crude continues relatively higher than refined, and until there is at least a slight margin for the refiner, just so long will the trade be dull and stagnated and the clog which has so long clogged the business, will continue.
