EVERYTHING UPSIDE DOWN.

an amusing sketch of the contrast be-tween the social customs of the Flowery landing place, beheld! all the ferry boats Land and the Land of Liberty. He says:

During our stay at Foochow I visited,

Sage boat just arrived, I saw the females

Whot accompanied by our missionaries long get out of the cabin at the bow. resident there, a number of the Chinese, and had an opportunity of observing their social habits and customs. How totally different they are from us in their habits, ways, mode of education, morals, with a saw whose blade was set nearly at habits, ways, mode of education, morals, everything! No wonder that we are "outside barbarians" to them and they "knights of the umbrella, fan, petticoats and pig tail" to us. To show how strange-ly the way they "live, move and have ly the way they "live, move and have their being" appears to foreigners I shall other lands." "Just so," said my friend, quote from a recent traveller: On inquiring from the boatman in which direction Macoa lay, I was answered west-north, and the wind, he said, east-south. "You of his toilet which answers to the gyves do not say so in Europe," thought I.

But imagine my surprise when, in explaning the utility of the compass, he added that the needle pointed south!

In the alleys called streets the signs stood on their ends, and the pigs were

On landing the first object that attracted my attention was a military officer, who wore an embroidered petiticoat with a string of beads round his neck and a fan in his hand. His insignla of rank was a peacock feather pointing downwards, instead of a plume turning upward, and a ing and sleeping in every imaginable way. button on the spex of his sugar loaf cap. A loud voice led us to look in at an open instead of a star on his breast or epaudoor to see what was going on, when we lettes on his shoulders, and it was with saw it was a school and the boys were some dismay I observed him mount on learning their lessons, all crying like aucthe right side of his horse. Several scab-bards hung from his belt, which of course I thought must contain dress swords or dirks, but on venturing near, through the embroidered petiticoat a foot longer than crowd, I was surprised to see a pair of her gown, and smallest at the bottom, chopsticks and a knife handle sticking and her waist quite concealed. Then out of one, and soon his fan was folded up and put in the other, whereupon I mouths, and, lest some straggling hairs should diverge cheekways, the owners were busily employed pulling them down. We arrange our toilets differently, thought I, but I acknowledged the happy device of chopsticks, which enabled these gentlemen to put their food into the month enduric. of their heads and let it grow long behind.

On my way back to the hotel I saw a affection. group of old people, some of whom wore gray beards; a few were chirruping and chuckling to singing birds, which they cerried perched on sticks or in cages, "for I am getting dizzy and shall soon "for I am getting dizzy and shall soon." others were catching flies to feed them, and the remainder of the party seemed to be delightfully employed in fluid and the remainder of the party seemed to be delightfully employed in fluid and the remainder of the party seemed to be delightfully employed in fluid and the remainder of the party seemed to be delightfully employed in fluid and the remainder of the party seemed to be delightfully employed in fluid and the remainder of the party seemed to be delightfully employed in fluid and the remainder of the party seemed to be delightfully employed in fluid and the remainder of the party seemed to be delightfully employed in fluid and the remainder of the party seemed to be delightfully employed in fluid and the remainder of the party seemed to be delightfully employed in fluid and the remainder of the party seemed to be delightfully employed in fluid and the remainder of the party seemed to be delightfully employed in fluid and the remainder of the party seemed to be delightfully employed in fluid and the remainder of the party seemed to be delightfully employed in fluid and the remainder of the party seemed to be delightfully employed in fluid and the remainder of the party seemed to be delightfully employed in fluid and the remainder of the party seemed to be delightfully employed in fluid and the remainder of the party seemed to be delightfully employed in fluid and the remainder of the party seemed to be delightfully employed in fluid and the remainder of the party seemed to be delightfully employed in fluid and the remainder of the party seemed to be delightfully employed in fluid and the remainder of the party seemed to be delightfully employed in fluid and the remainder of the party seemed to be delightfully employed in fluid and the remainder of the party seemed to be delightfully employed in fluid and the remainder of the party seemed to be delightfully employed in fluid and the remainder of the party seemed to be a seemed to

I knew I was to study a language without an alphabet, but was somewhat astonished to see him begin at what I considered the end of the work. fifth year, tenth month and first day. " We arrange our dates differently," I bserved, and begged him to read, which he did, from top to bottom and from right "You have an odd book here," I remarked, taking it up; "what is the price?" "A dollar and eight-thirds," said he, upon which I counted out three dollars and went on looking at it. The paper was printed only on one side, the running title was on the edge of the leaves instead of the top of the page, the paging was near the bottom, the number and contents of chapters at their ends, the marginal notes on the top, where the blank was double the size of that at the foot, and a broad black line across each page separated the two words composing the volume, instead of one being prin ed after the other. The back was open and sewed outside, and the name of the work written on the upper edge. "You have given me too much," said he, handing me two dollars and onethird, and then explained that eight-thirds was eight divided by three. or only threeeights. A small vocabulary he carried with him had the sounds arranged according to their termination-ming, king, sing, being all in a row, and the first word in it was sein. "Ah, my friend," said I, "English won't help you to find a word in that book. Please give me your address." He accordingly took out was Mr. Wer. Why do you write your name wrong end first?" I inquired. "Look in your own directory, where alone you write names as they should be, placing the honored family name first."

This was a severe blow to my established notions; but when he reopened the volume and read. "The most learned men are decidedly of the opinion that the seat of human understanding is

yond location." "Indeed," said I, they are so; I shall expect shortly to see a man walking on his head. Look! Kansas, that threshed out sixty six bushels of the best wheat grown in that secor gentlemen in petticoats; she is smoking a cigar and they are fanning them yield, it the seed did come from Kansas. selves." But I was faught not to trust to appearance too much, as on passing I saw the latter wore light under garments. the "City of Mary" by the Pope, in a We soon after met the steward dressed in document signed with his hands, and white, and I asked him what merrymaking he was invited to; with the look of the deepest concern he told me he was a statue of the Virgin, blessed and inreturning from his father's functal. Soon | dulgenced by the holy father.

after we passed where we heard sobbing and crying, and I asked who was ill; the man suppressing a smile said, "It is a girl about leaving home to be married, who is lamenting with her fellows."

I thought after these unlucky essays I would ask no more questions, but use my A letter from Foochow, China, gives eyes instead. Looking into a shop I saw right angles with the frame. Before the door sat a man busily engaged in whiten-ing the thick soles of a pair of shoes. "That's a shoe white, I suppose," said I, "and beyond him is a poor wretch with a board around his neck for a shirt collar, for he has got into chokey, an article

stood on their ends, and the pigs were packed in baskets, which coolies were carrying, to the infinite satisfaction of their inmates; and the shops seemed to have lost their fronts and ejected their tioneers. We next passed a fashionable lady stepping out of her chair, her feet only three inches long, her plaited and came an acquaintance of my friend, ac

companying a splendidly carved coffin.
"Who's dead?" asked he.
"No man hab
die," replied the Celestial; "this one piece concluded he was going to a dinner in-stead of a review. The natives around me had all shaved their hair on the front of coffin I presented to my old fader; he likee too much, count my number one

> How Paper and Cloth may be Rendered Water-proof.

Mr. N. C. Szerlmey, of Pimlico, Eng. land, has recently invented a mode of rendering paper and other like materials water-proof, which is thus described: He melts, in ten pints of hot water, thirty ounces of glue, gelatine, or size, and three ounces of gum arabic In another thirty pints of hot water, he melts twenty ounces of soap and four pounds of alum, afterward mixing together the whole liquid in one pot. This is composition No. 1. In another pot he heats half a gallon of benzole and one gallon of paraffine oil, and melts init twenty-four ounces of resin. To these materials, resin, oil and copal or mastic varnish may in some cases he added, and he lets it boil until it attains a moderate degree of consistency. This is composition No. 2. He first dips the article to be water proofed into composition No. 1, in a heated state, and afterwards dries it; then ne applies the second composition, in a cold state, with a brush.

or in other convenient manner. This recipe is very easily tested, and if it should prove reliable, it will prove of great value for many purposes. Applied to wall paper in damp houses, it could hardly fail to be of service if it fulfills the inventor's description .- Manufacturer and Builder.

THE SALE OF SPIRITUOUS LIQUORS IN Gothenburg, Sweden, after a variety of experiments by the authorities, is carried on according to the following method: a red card as big as a sheet of paper, instead of a neat white strip, and wrote of the raffic in spirits in the city, under the control of the traffic in spirits in the city, under the control of the city an agreement to apply the whole of the profits above expenses for the benefit of the poor. The society, it is reported, has reduced the number of licensed houses to less than forty, one-third of the former number, and has bound the proprietors to sell only at fixed prices, giving a profit I could only say, "Customs differ," to sell only at fixed prices, giving a profit and giving back the book begged him to of only one and a half per cent., with observed the book begged him to be set of the profit of all harmless ligations to keep a supply of all harmless drinks, including beer, at whatever speak of ceremony. He commenced: When you receive a distinguished guest do not fail to give him a place on your profits they could command, thus making left, for that is the seat of honor, and be it the interest of the venders to sell these cautious not to uncover the head, as that drinks instead of liquors. The effect, it would be an unbecoming act of ismiliar. is asserted, has been an almost entire cessation of drunkenness.

The Des Moines, Iowa, State Register says: "Contrary to most expectations wheat is turning out a much better crop in the belly," I exclaimed, "better say than was expected. A gentleman who in the feet," and immediately shut up has been threshing ever since grain has the book, dismissing him until another been fit, states that not a field has been threshing that the state of the property of the sheeked all manifelds of day, for this shocked all my principles of threshed by him that did not average fif-correct philosophy, even if Solomon was teen bushels to the acre, while some other ers turned out eighteen and twenty bush-On going abroad I met so many things els of good grain. In some localities the contrary to all my preconceived ideas of propriety that I really assented to a friend's observation "that the Chinese ed, and at least as many bushels will be were our antinodes in months of the contract of were our antipodes in many things beyond location?! SPECIAL NOTICES.

SPECIAL NOTICES.

SCHENCK'S PULMONIC

STRUP, SEAWEED TONIC AND
MANDRAKE PILLS will cure Consumption,
Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken
at the sametime. They cleanse the stomach, reiax the livor and put it to work; then the appetite
becomes good; the food digests and makes good
blood; the patient begins to grow in flesh; the
diseased matter ripens into the lunus, and the
patient outgrows the disease and gets welt. This
is the only way to cure consumption.
To these three medicines Dr. J. H. Schenck, of
Philadelphia, owes his unrivaled success in the
treatment of pulmonary Consumption. The Pulmonic Syrup ripens the morble matter in the
iungs, nature throws it off by an ea-y expectoration, for when the phieum or matter is ripe a
slight cough will throw it off, and the patient has
rest and the lungs begin to heal.
T. do this, the Seaweed I onic and Mandrake
Pills must be ir ely used to cleanse the stomach
and liver, so that the Fullmonic Syrup and the
food will make good blood.
Schenck's Bandrake Pills act upon the liver,
removing all obstructions, relax the uncts of the
gail bladder, the blie starts freely, and the liver
is soon relieved; the stools will show what the
Pills can do; nothing has ever been invented except calomel (a deadly po'son w.ich is very dangerous to use unless with great care,) that will
unlock the gall bladder and start the secretions
of the liver like Schenck's Mandrake Pills.
Liver Compiaint is one of the Most prominent
causes of Consumption.
Schenck's Beaweed Tonic is a gentle stimulant
and alterative, and the alkali in the Seaweed,
which this preparation is made of, assists the
stomach to throw out the gastric juice to dissolve
the food with the Pulmonic Syrup, and it is made
into good bood without fermentation or souring
in the stomach.
The great reason why physiciaws do not cure
Consumption is, they try to do 'too much; they
year.

the food with the Puimonle Syrup, and it is made into good bood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and taey will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsis, extarrin Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, or course the ungs in some way are diseased, either tubercles, abcesses, bronchisi irritation, pleurs adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of fo d. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient negins to gain in fiesh, and as soon as the body begins to gain in fiesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets fitshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complisht and Dyspepsis, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in a loillious complaints, as they are perfectly harmless.

the Pulmonic Syrup. Take the Manurake Pillafreely in al billious complaints, as they are perfectly harmless. Our. Schenck, who has enjoyed uninterrupted health for many years past, and now weight 245 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid me tones, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparation with the same remarkable success. Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenck, unless patients which their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every baturday, where all letters for advice must be addressed. He is also profess onally at No. 32 Bond street. New York, every other Tuesday, and at No. 33 Hand surpose free, but for a thorough examination with his Respirometer the price is 35. Once hours at each city from 9 A. N. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Ton. Mandrake Pills 35 cents abox. For sale by all druggists.

DOCTOR WHITTIER CON

TINUES TO TREAT ALL PRIVATE DISEASES. SEWING MACHINES.

UNRIVALLED WHEELER & WILSON

Sewing Machines.

LEADS ALL COMPETITORS.

The distinctive feature of the WHEELER WILSON MACHINE is the use of a BOTARY HOOK to carry the loop of the upper thread around the spool containing the under, making the lock-stitch alike on both sides of the fabric, thereby doing away completely with the vibratory motion of a shuttle, the tersion upon the under thread, and all devices for taking up slack thread; these are necessary on all two-thread Machines. The public have indorsed this principle by purchasing over 380,000 of our Machines-more than 100,00 in excess of those of any other manufacture! It has long been acknowledged by far the most simple Lock-stitch Macnine in existence; having one-third less machinery than any other two thread Sewing Mach.ne.

(From the London Times.)

The WHEELER & WILSON SEWING MA-CHINE, which is the ONE BEST CALCULA-TED FOR HOUSEHOLD WORK, uses no shutile, and makes the LOCK, STITCH slike on both

sides of the goods. "Some of the Sewing Machines are very extravigant in the use of thread; one of the most noted of those making the double leop chain stitch, using six yards of thread to one of sewing. This is a serious matter, looted upon in a manufacturer's point of view, where the great aim is to economize the material."

Thousands of Testimonials could be given from all parts of the world. were it necessary to the reputation of this well-known Family Sewing Machine.

I beg to state that I have used my Wheeler & Wilson Sewing Machine, in family sewing, fourteen years, without even the most trifling repairs; and it is in so good comdition that I would not exchange it for your latest number (now upwards of 300,000). One needle served me more than a year in fine sewing.

MRS. ANNIE WAENER. NEW YORK.

Mrs. Maxley has had her Wheeler & Wilson Sewing Machine in almost daily use for over eleven years without any repairs. the has done, with her own hands, during that period, the larger postion of the sewing for a family of eleven children on the machine, and part of the time for fifteen or twenty farm servants. She would not now change her Wheeler & Wilson for any other she has ever seen. R. MAXLEY. BRANDON, MI.S.

Capt. J. YOUNG, JR., of Robinson township, Allegheny county, says: We have used the Wheeler & Wilson Sewing Muchine in our ramily two years. My daughter received but two lessons, and is able to accomplish every variety of sewing without any difficulty whatever. We had the tillower's and 'throver & Baker," and by the seven we had the tillower's and 'throver & Baker," and the tillower's and 'throver & Baker," and the tillower's and 'throver & Baker," and the tillower's and tillower's and the tillower's and the tillower's and Wheeler & Wilson Sewing Mychine in our family used the "Howe" and "Grover & Baker," and after a fair trial of these three leading machines, we can most confidently assert that no machine is so simple or so well adapted for ladics' and family use, as the "Wheeler & Wilson."

My wife has used her Wheeler & Wilson Ma-

chine ten years without repairs, and has used only one needle for the last three years. CHARLES J. GRAY. NEWBURG, N. Y.

Ten years ago I purchased a Wheeler & Wilson Sewing Machine, and have had it in constant use in my family since. We used it during the war to make clothing for our volunteers in the service, and for the hospitals, and this work was very heavy, being coarse woolen and cotton fabrics. It is still in good working order, nothing having been broken but a few needles. You Fr are welcome to use my na ne in your recommen-MRS. HUGH MCCULLOCH, dations.

GREY NUNNERY, MONTEFAL. We, the undersigned, Sisters of Charity, certhy with pleasure that, after a trial of ten years, we have found Wheeler & Wilton's Sewing Machines superior in every respect to all others used in our establishment. Their mechanism is FLOUR! FLOUR! strong and perfect, and with little care never get out of order. SISTER COULTER, SISTER BAYEUX, General Hospital.

> In order to facilitate the sale of, and place a Wheeler & Wilson Sewing Machine within the reach of every one, we propose to lease them on the following terms: We will farnish one of our elebrated Sewing Machines to any one depositing with us nifteen dollars as security for its safe keeping, and paying us ton dollars per month for the use of the same.
