PETROLEUM MARKET.

OFFICE OF PITTSBURGH GAZETTE, FRIDAY, August 20, 1869.

There is no improvement to note in the tone of oil market either as regards demand or prices, and the trade continues in that unsettled and unsatisfactory condition that has prevailed for several months, or we might say all this year. The fact is, there is no chance for business in the present state of affairs, and the bulk of the sales making from day to day, are "settlements;" refiners cannot entertain fresh negotiations for Refined at present price of Crude, and the crude dealer cannot make concessions, in view of the prices in the producing region. Compared with yesterday, the former has again declined, and the latter is weak but unchanged.

Circulars received to-day report the stock of oil in Philadelphia on Saturday last at 44,226 bbls refined, and 4,345 bbls crude. Exports from New York from January 1st to date, 35,812,184 gallons; same time last year 30,271,228; from Philadelphia, 17,081,560; same time last year, 18,018,374.

CRUDE.

But a single sale reported 1,000 seller all 1869 at 14½, and there were other offers to sell same delivery at same price without finding buyers. Spot or seller this month was not offered below 15 here, although we understand that there were sales above at $5,85 on broad guage cars, which is considered equivalent to 14¾ or 14⅞, delivered here.

REFINED.

Sale 500 bbls spot, at 31½; 500 each September to December, at 32½; 2,000 each same months, at 32½; and 500 same at 32½. While, as will be seen, prices remain without essential change, compared with yesterday, yet the feeling seemed to denote weakness, and, as the saying is, refined oil is now below cost.

PITTSBURGH IRON MARKET.

OFFICE OF PITTSBURGH GAZETTE, FRIDAY, August 20, 1869.

The metal market, compared with last week, has undergone but little change, and is devoid of anything really new or important. Eastern Irons are not arriving very freely which is in consequence of the fact that they are worth relatively more in Philadelphia, and this being the case the great proportion of Anthracite furnaces are shipping all, or nearly so, of their product to that market. There is a fair business in Western Irons with a better feeling reported, but no essential change in prices.

The Bellaire Nail Works were to resume operations Tuesday. Fires were lighted on Monday in a portion of the Belmont Mills. The Wheeling *Intelligencer* says that "next week the La Belle Mills will commence a new year's campaign. We have not heard when Riverside and Top Mills will resume."

RIVER NEWS.

The river remains about stationary at this point with twenty-one inches in channel by the metal mark. Weather continues oppressively hot—mercury 95 in shade.

—Capt. Stockdale expects to start the new steamer Barranquilla for New Orleans to-day.

—The New York left Parkersburg Tuesday for Pomeroy, with the Crescent City Circus troupe.

—The Petrolia arrived from Parkersburg on Thursday, but did not depart again—at least she was still in port last evening.

—One of the fine barges which have been building at the boatyard of Messrs. Wilson & Dunlevy, Wheeling, for the Northern Transportation Company, was successfully launched on Monday last.

—A St. Louis telegram says: The Upper Mississippi has improved and the St. Paul boats will run through again until another decline. The Missouri and Illinois are declining. Weather clear and very warm. Mercury at 3 P. M. 96 deg.

—The Evansville *Journal* says that Evansville does not charge towboats wharfage when they land for supplies, but the bargo line boats, doing a regular freighting business, are required to pay, like other freight and passengers; "and," the *Journal* asks, "why shouldn't they?"

—A Cairo dispatch under date of Wednesday says: The Great Republic is still here, being delayed repairing machinery, having unshipped her plumer block while aground above Cairo. She clears to-night after taking 750 barrels of flour, 450 sacks corn and oats, 32 hhds tobacco, 130 bales hay and 50 tuns sundries.

—The New Orleans *Bulletin* of the 12th says: The colors of the steamboats in port were displayed at half-mast yesterday in token of respect to the memory of Patrick Murphy, late mate of the steamer Celeste, who was killed in an altercation about landing the boat, near Greenville, the night previous. The deceased leaves a wife and four children.

—The inspectors of the Fifth District have instituted measures for the investigation of the circumstances under which the boilers of the steamer Cumberland were exploded last Saturday morning, near Shawneetown, a statement of which has already been made in these columns. Summonses have been issued for witnesses, and the matter will undergo a rigid examination.

—The Louisville *Courier-Journal* says: The Charleston is having a gorgeous time. Herself and barge were both hard aground on Portland bar last evening. Monday she was attached at the suit of her pilot, Captain B. J. Caffery, for wages due. She gave the necessary bond and was released. Captain Lee Crane went down to her last evening to try and get her off the bar.

—A Gallipolis dispatch to the Cincinnati *Gazette* says: The Dexter was on the rocks at Buffalo, Kanawha, night before last, knocking a hole in her bottom. She went for the Middleport docks. The Active, owned at Brownsville, Pa., sold to day to Captain H. N. Bailey, Superintendent, for the Kanawha and Gallipolis Packet Company. She takes the Mountain Boy's run during low water. The Bellevernon is still aground on Buffington, trying to get off. The pilot of the Lawrence reports three feet of water on Guyan. Twelve pole and eight mile, and thirty inches on Buffington.

SECURITY AND COMFORT for the traveling community.

J. B. HARRIS

Safety Fire Jacket, Car Heater and

MODERATOR.

For Smoke and Hot Air Flues, dispensing with the use of stoves and fire in or about the Passenger or Baggage Cars, with the attachments to graduate the heat to any temperature that may be desired without the possibility of firing the car or cars to which the Jacket may be attached. Having obtained of the United States Letters Patent for a Safety Jacket, which is warranted to resist the most intense heat that may be applied to it in the position and purpose for which it is intended.

It is a sure protection from accidents by fire, originating from defective flues or where iron pipes are used as conductors for smoke or heat. It is applicable to all piping that may become overheated, and is warranted to give perfect satisfaction where wood or other combustible material may be placed in close proximity thereto, I am now ready to apply my invention to stores, dwellings, factories, ships, steamboats, railroad cars, &c. Wherever pipes as conductors are made dangerous by being overheated and security desired, I will sell on application right to manufacture or use the above invention. Also Territorial rights to such as may wish to engage in selling privileges either by State or county.

WESTERN UNIVERSITY,

Ross and Diamond Streets,

Fall Term Opens September 2d.

There are Seven Departments—Collegiate, Scientific, Civil and Mechanical Engineering, Military Science, Commercial and Preparatory. In each, instruction is thorough and systematic. The Departments of Civil and Mechanical Engineering were organized last year, and have succeeded beyond all expectation. While the higher departments of the University are well provided for, special care is taken that Preparatory Students are supplied with the best instruction that can be employed. Past success warrants the assertion that students are afforded as good opportunities as can be had at home or abroad.

Call, for the present, from 9½ to 12 A. M., or send for a catalogue.
