CTATTLE. The market was pretty well glutted to-day, about 950 head on sale, which is the largest supply that has been on sale in this market for some time, and, as a consequence, the drovers had a pretty hardtime of it, and many of them, it is probable, lost money. As has been the case for some time past, the great proportion of the stock was of an inferior grade consisting mainly of thin cows and heifers, and rough steers and stags, not the kind usually sought after by good butchers, and as a consequence, while the better grades brought about last week's prices, common and inferior ruled from 1/2 to 1/2 cent lower, and even at the decline the demand was very lightend quite a number were left over un-

and quite a number were left over un-Quite a number of drovers pronounced this the hardest market they had experienced for several months, and even go cattle did not move as quickly as usual.
The butchers had very bad meat ma kets last week, owing to the extremely, hot weather, and as a consequence they did not, as a general thing, buy as freely as usual. Another thing to be taken into consideration, is the fact that meat is relatively higher than anything else, and people are using less of it and buy-ing more vegetables fruit, etc. etc., which is abundant and cheap, and better for them, particularly in this hot weather. The idea of paying 20@25 cents per pound for choice cuts of beef when a half bushel potatoes, tonatoes or apples can be bought for the same money, does

not sound well, and it looks now as if cattle must go lower, and this is the impression of drovers and dealers gener-Of the cattle on sale to day, 17 cars from Chicego; 3 from Cincinnati; 2 from Indianapolis; 2 from Newark: 1 from Upper Sandusky; 1 from La Rue; 1 from Ashley; 1 from Orrville and 1 from Co-
