ALTOONA is to have a horse race. YORK COUNTY is suffering dreadfully from drought. A GERMAN named Shuey, was sun struck in Uniontown on Saturday, but is

now recovering. AN ORPHAN white girl, adopted into a

most respectable family in Perrysville, Juniata/county, was attacked, while out berrying, by a negro named Josiah Miller, who committed a terrible outrage upon her. He is now in prison awaiting pun-

A NUMBER of our townsmen, regard less of danger, have declared war upon the rattlesnakes, and the "old den" two miles south of town has been waked several times within the last week. The fun for the boys, we have no doubt, has been intense, and the slaughter of the innocents great.

MR. CHAS. DIEBOLD, of Lebanon, has obtained a patent for what promises to be a useful and profitable invention for utilizing cinder from furnaces. He has been operating with the cinder from Meily's furnace, and has turned out fine blocks for pavements, which he casts in squares of about 17 inches, 3 inches in thickness. -Lebanon Courier.

A LITTLE son of Mr. Eli Bear, of Middlesex Township, was instantly killed by being caught in the shafting connecting a thresher with a horse-power. Mr. B. was engaged in threshing, when the little fellow in attempting to step across the shafting was caught bp the knuckle which connects that of the horse-power with that of the threshing machine, and whirled around with frightful rapidity, striking his head on the ground and dashing out his brains. - Mechanicsburg Dsmocrat.

ADOLPH GORE, SOL Of O. Gore, Esq. of Sheshequin, started to go into the field for his cows the other evening. Discovering a dog a short distance in front of him, he thought he would creep along by the fence until he came near enough to frighten him; but as he was crawling cautiously along upon his hands and feet, a large grey eagle, supposing him to be some quadruped, pounced upon him and flew away with the back of his shirt. The lad was badly scared, but received no injury save a slight scratch on the back.-

A LITTLE child of Mr. A. A. Jacobs, of this place, aged about two years, has been in the habit, for some weeks past, of feeding a large black snake. The curiosity of the parents was first excited by seeing the little fellow repairing regularly to the cellar on receiving his piece of bread and butter, at certain intervals, and on examination it was discovered that his snakeship, immediately upon the approach of the child, glided from his ace of couceaiment and came forward to share his repast, which was partaken of by both of them at the same time, and the most social and friendly manner. All efforts to dispatch the snake have proved, so far, unavailing, and it is said that the child manifested the utmost grief at being excluded from his daily interwith his companion.-Hunting.
