can learn, that there is a Miners' Union League or Society on Broad Top, which undertakes to regulate the price of mining coal and other work in and about the different coal mines; and on account of one or two men, members of this Lesgue not getting the work and wages they wanted, no work was permitted by this Lesgue to be done at the Blair mine for the first ten days of this month. A new set of men, of whom Mackey, the mutdered man, was one, started the mine and were denounced as "black sheep" by the members of the Union. This difficulty no doubt led to the murder of poor Mackey. But as the whole matter will great as that of Oregon. undergo a thorough legal investigation,

Mortality Among Mormons.

As might be expected, the mortality smong Mormon children is frightful. The polygamists are like the old woman who lived in a shoe, and do not know what to do with their many children; at any rate they do not properly care for them. Of sixty deaths in Salt Lake City in a month, forty four were children. Heber Kimball is reported to have buried forty-eight children out of sixty-three in his collection; one blahop had lost twen-ty children; another twenty-eight; an-other seventeen. Joseph Smith had six wives, but left only two sons. The death rate among Mormons of all ages is said to be greater than that of Chicago or New Crieans, and more than twice as THE Lilium Auratum, the golden
