OFFICE OF PITTSBURGH GAZETTE, THURSDAY, August 27, 1869. Gold, which declined yesterday from 134 down to 132%, last evening opened at 13214, advanced suddenly on rumors the death of Napoleon and a riot in Paris, fluctuated between 1331/2@1341/4, and closed at 4 P. M. at 133%. A strong bull party was formed a few days ago, for the purpose of carrying gold higher, but failing in their first attempt, they turned bears themselves, thereby increasing the short interest still more and making it easy for them to put their own figures on the gold which they control. The principal argument of the bear party, was the necessity for the Government to sell gold, in order to continue the purchase of gold, and the prospect

of a tight money market. Government bonds declining with gold but advanced immediately when gold advanced, especially was this the case with the old issues of 1867 and 1862. Few bonds are now offering, and should the Government continue to

buy largely for September a further rise will be inevitable. Stocks are stronger with gold, but some of the Western shares are dull at the advance. Express shares are weak. the advance. Express shares are weak. Money easy at about 9 to 10 per cent.

PITTSBURGH MARKETS.

OFFICE OF PINTSBURGH GAZETTE. FRIDAY, August 27, 1869. The total amount of grain in store in Chicago on Monday was 1,196,510 bushels, against 860,143 bushels the corresponding period last week; 953,454 bushels two weeks ago; and 2,105,212 bushels one year ago. The receipts there exceeded the shipments of wheat 130,113 bushels; corn, 127,307 bushels; oats, 60,-815 bushels; and rye, 20,482 bushels; while the shipments exceeded the receipts of barley 2,650 bushels. Total increase of the amount of store during the week, 336,067 bushels.

The Chicago Republican of Thursday says: There were a large number of settle ments made, and the line of "shorts" out for this month has been very largeout for this month has been very large-ly reduced since Saturday, though there were indications of a "corner" two days ago, it is quite probable the project has been abandoned, the "shorts" spoiling the game by settling up their contracts. They may succeed in forcing prices up on the last day of the month, but it is loubtful if this combination make any further attempt to force the market, as they are large losers now, circumstances having been against them, and they have had to pay high prices for wheat that was purchased at a comparatively low figure. The receipts continue liberal, while Eastern and Liverpool advices would indicate that the markets there have a downward look.

PETROLEUM MARKET.

OFFICE OF PITTSBURGH GAZETTE, FRIDAY, August 27, 1869. The oil market was exceedingly quiet to-day, but a single sale reported, while compared with yesterday prices have undergone no quotable change. There is not that unanimity of feeling in regard to suspending business, on the part of refiners, until such time as a margin would be offered, as it was supposed there would be when the matter was first broached. All concede that it would be a moye that the right direction, and that concede that it would be a move in the right direction, and that it would result in just what is desired, provided it could be made general—not only here, but at Cleveland and other oil refining points, but it is thought by some that this cannot be attained. It is argued that as soon as one point would suspend, others would take advantage of it, and do all the business. Be this as it may, however, it is asserted that a large number of the most promithat a large number of the most prominent concerns, both here and at Cleve-land, will close up at the end of this month, and will continue closed until such time as business gets into shape to offer some inducement for a resumption. As repeatedly noted, recently, the refining business has been very unsatisfactory thus far this year, and manufacturers are anxiously looking about for some means of relief.
