Life insurance is something that is fast gaining confidence in the minds of the people. it is no more imaginary. There has been so many families benefit. ed by its provisions in the past that it has caused considerable inquiry in the minds of some what plan they will select to be most profitable, to insure on. To such we would say, go to the office of the Iron City Mutual Life Insurance Company of Pennsylvania—office 75 Federal street, Allegheny City—and you can eral street, Allegneny City—and you can receive all the information you require. It is a home Company, and invest or loan all their money at, home—being purely mutual, each policy holder receives his portion of the profits. The Comyany is conducted with economy. Its directors are men of experience and well known to the community at large.

A New Enterprise.—We presume the fact is not generally known that we have a large electro-plating establishment in our midst. Hitherto we have depended solely upon the East in this matter. If we wanted a pitcher, a set of spoons, or a door plate replated, we were compelled to send them to the East, a proceeding that prevented many from entertaining the idea of ordering the replating of old ware. The idea prevailed that it was almost as cheap to buy new ware. Now, however, old ware of every description can be made to look as beautiful by having, it replated at No. 1 Sixth street, as though it was fresh from the hands of the to send them to the East, a proceeding though it was fresh from the hands of the manufacturers. Some of the specimens of work we examined in the establish ment, and which we fancied were new, were made before we were born. They

THE PARK QUESTION.

Deleat of the Project by an Overwhelming Majority.

The Park election proceeded quietly throughout the city yesterday, but little interest being manifested in any direction save to defeat the measure. A comparatively small vote was out but the manner of its distribution on the tally papers shows conclusively that the people are dead set against the little luxury proposed, at least for the present. Herewith we present the returns so far as we have received them. The other wards to hear from cannot possibly change the result. We estimate that the Park has been postponed indefinitely by about forty-five hundred majority:

The matter of establishing an instiution in this city, for young ladies, says that excellent religious paper the attention of the public for some time. A meeting of the friends of the enterprise was held in July and among other things an Executive Committee was appointed, consisting of Revs. Messrs. Scovel, Reid, Noble Swift; and Gillespie, charged with the duty of originating measures to perfect an organization, and to have a general oversight of the work. This Committee has had subject under consideration, has submitted to the public the a plan for forming a joint steek company with a capital of \$200,000, divided into shares of \$500 each. Subscriptions may be taken for a less sum, representing

half and quarter shares. At least two thirds of the members of the Board shall be members in full com-munion of some branch of the Presbyte-3. The location, as decided upon by the Committee, (the Pitcairn property, fronting the Pennsylvania Railroad, at the Shadyside Station,) is understood s binding all the shares subscribed, sub-

ect, nevertheless, to the revision of the Committee, in case this should be necescommittee, in case this should be necessary or desirable; and when one hundred shares are taken (\$50,000,) the same is to decide the issue, and the work is to go forward. The Rev. Samuel S. Shriver has been appointed Financial Secretary, and the Committee sak for him, and the cause he represents, the respectful and

or education.

A location is decided upon—at the Shadyside Station, East Pittsburgh—and an agent has been appointed. We are advised by Mr. Shriver that he is now advised by Mr. Shriver that he is now receiving subscriptions in the community favored with the location, and where \$20,000 are pledged to the interest. This sum is nearly realized, and will be exceeded provided other parties interested do their duty. Having this as a beginning, it is proposed to visit the churches in the city and subscription, and by a proposed to visit the churches in the city and suburbs in rotation, and by a careful canyassing of the whole field, to carried catylassing the whole the sum secure in the least possible time, the sum of \$50,000, necessary to warrant the Com-mittee to go forward in taking steps to procure a charter and to organize.

When it was ascertained by the friends of the deceased that a post mortem examination would have to be made they strongly objected, and refused to allow the physicians, Drs. Daly and Hamilton, to proceed with the examination. The Coroner endoavored to linpress upon their minds the necessity of making the examination, but to no purpose. A brother of the deceased, who most strongly opposed it, would not listen to reason, but swore that the Doctors should not touch the body. Father Garland, who was with Tlernan when he died, also endeavored to persuade the brother to submit to the examination, but his efforts were without successively and sold in the control of the purpose. flicting the wounds which caused Tiernan's death, as has been been previously stated, was arrested Saturday night shortly after the affray occurred and retained in the lock-up until next morn-ing, when information was made charging him with felonious assault and battery, upon which charge he was committed to jail for a hearing. Yesterday morning information was made before the Mayor charging him with mur-der. He was brought out of jail, but as the Coroner's investigation had not been concluded, he was again committed for a concluded, he was again: sommitted for a hearing. We have heard rumors of the amount of evidence against Gill, but as the matter will have to undergo a legal investigation, we do not think it proper o give those rumors to the public.

The Old Drury Refreshened. The Old Theatre has just emerged as

bright as a new pin from a repairing and renovating period, and will now compare in point of neatness, beauty and comfort cause he represents, the respectful and earnest consideration of all the friends with any of the amusement places in the city. The old place has been so trans formed that its old habitues will hardly have never heard a complaint; from this recognize it. Painting, cleaning, papering and upholstering have been in brisk progress, and now everything is nearly completed, and the result is a charming and beautiful theatre. One begins to see improvement the moment he enters the vestibule, and likes the freshness and cleanness that are apparent. In passing in it is observable that the box office, where we are glad to see our pleas-ant friend, Geore Miller, Esq., is to preside as of old, has been renovated, as well as all the rest. The improvements inside the building are all noticeable. The walls have been handsomely frescoed in light and cheerful panelling, and the fronts of the boxes and the cellings match them nicely. The balus-trades in front of the dress circle and the gallery, are cheerfully and tastefully one gauery, are cheering and tastently panelled in blue and buff, and the general effect is very pretty. The iron columns supporting the gallery have been painted and the capitals touched with gilding. The private boxes have been new Railroad; Mena Dressler, aged ten years ly papered and upholstered, and are now killed by the accidental discharge of a pistol which she was handling, at South thoroughly overhauled, and almost enthoroughly overhauled, and almost enthoroughly overhauled, and almost enthoroughly overhauled. Unlawful Kicking.

A man should never threaten to kick the head off his opponent. It's very discourteous to do so, and besides is contrary to law. Such a threat may lead the threatener into trouble. No man wishes to have his head disposed of in such a summary style, and naturally every one will endeavor to prevent the disfiguration. Various methods are resorted to for protection. Some men knock the threatener down, and use him in a man-ner which unfits him to put the threat into execution; others take a milder ward, Allegheny, held a meeting at the School House on Monday eyening to organize for the campaign, Mr. Wm. Our Puture Water Supply. At the seculon of the Councils, on the 80th the following report was presented

Chairman of the Committee on Retrench-To the Select and Common Councils of the City of Pittsburgh: GENTLEMEN: The Water Committee begs leave to report that since the report made to your bodies in December, 1868, they have been diligently at work in connection with the Surveyors, and with the advice and assistance of the City Engineer have collected valuable information as to the most feasible and communical location for a new water works. Having visited all points suit-able to the purpose above Negley's Run,

Mr Morgan, in, his boast about "my inated by the drainage of East Liberty. Above this at Shade's run, the water is from eight to ten feet deep at the lowest stage. The property fronting this pool contains about one hundred acres, having an admirable water front for the purose, and having locations on the ground or reservoirs at the height of 90, 120, 311 and 562 feet above the river at the present water works. This property also contains about fifty acres of excellent coal to supply the engines for elevating the water to all points above; also, a val-uable stone quarry where suitable stone can be procured for the necessary build-

ngs. After a thorough and careful examination of all the sites proposed, your Committee invited proposals from the respective owners for the sale of the different properties. They were sub-mitted, and upon mature deliberation of all the circumstances connected with the speedy and most economical supply of the enlarged city with water at present, and the prospective advantage both of location and price, your Committee unanimously recommend the purchase of the property of Messrs. Coleman & Rahm, as being not only the most sultable in all respects, but much the cheapest

Signed by the entire Committee. The report was accepted and filed.

Mr. T. B. A. David. This gentleman, who has for the past live years had the superintendence of he Western Union Telegraph Company over a territory extending from Bedford and Altoons over Western Pennsylvanis. tne most of Ohio and a large part of Indiana and Illinois, this day relinquishes his office to engage in other business.

Parts of Mr. David's district will be henceforth attached to other districts and be under other supervision, and the Pittsburgh district, thus somewhat reduced in extent, will from this date be in charge of Mr. Charles O. Rowe, an accomplished telegrapher, hitherto an assistant of Mr. David's, in charge of the company's lines and offices in the Oil regions, where his reputation was that of thorough, energetic and obliging man of business.

Of Mr. David, the retiring city as a focal point, he has during all the years of his incumbency, managed the operations of the company over a district of unwonted extent, so efficient ly, that there has scarcely been an hour when communications were not prompt-ly transmitted over all the lines. His duties, all the time pressing and responsi ties, all the time pressing and responsi-ble, have at times been exceedingly ar-duous, taxing severely his physical and mental energies. He has never faitered, never failed. With a quiet, persistent energy he has grappled with and sur-mounted all difficulties, commending himself not only to the company for deliting of seal in all circumstances, but fidelity and zeal in all circumstances, but also to our entire business community for his success in accomplishing for it a prompt and satisfactory transmission of every commercial message. If men of business will reflect on the great value of such a man in such a place, they will join us in this public and grateful acknowledgment of them, and also in cordial wishes for his prosperity in the en-terprise which withdraws him from the office in which he has so well earned the public confidence and respect.

the raising of it, have not the members of Councils created a tribunal, of their own number, for their own condemnaton, or justification? Thus far the Water Committee has been arraigned, if not for collusion, at least for gross neglect in the matter of water pipe extension, allowing on the part of the Contract or irregularities which, if substantiated, may well excite the indigation of a trusting people. And just here, does it not also seem that Councils, in creating the Committee, had quite as little conception of what was likely to follow, as the Chairman seems to have of his proper

His "performance" was, in his peculiar line of "sound and fury," a complete success, eliciting somewhat marked applause from the looby. It will be quite time for the expression of virtuous indignation, when the Committee have presented the facts in such shape as to warrant it; but that time is snape as to warrant it; but that the time that of the not yet. And I fear, enough having been shown, perhaps, to justify thorough investigation, the "champion" has exhausted his strength in a mere reconnoissance, and that his further demonstraions will be barren of good to himself or those he would serve. The Chairman's assertion that he is not

actuated by malice or personal feeling is well refuted by his supplemental report on the eligibility of certain members of Common Councils. The fact that the gentiemen referred to were connected with printing establishments, doing work that the country was within the knowledge of with printing establishments, doing work for the city, was within the knowledge of every member at the organization in January. An honest desire to test the question of eligibility would, I am sure, any time since then have been met in a proper spirit, and a decision secured from the proper source. Mr. M. evidently had some grudge to satisfy, and hence his attempt of Monday, in which he stood alone, none of his fellow members of the Committee joining him in the effort to "expel" obnoxious members.

We are ment and Reform at the meeting of Common Councils on Monday afternoon.

First, however, of the Committee. By the relation of the transfer of t patronage, especially from parties doing business in the section of the city in which located. The President of the Bank, Edward Dithridge, Esq., a gentleman recognized for an ordinary life time among our most prominent and successful manufacturers, together with the excellent Board of Directors, manage and control its affairs in such manne as to win the confidence of the general community. The appointments of Mr. F. E. Schenck as Cashier, and Mr. Harry Abel as Teller, were excellent ones, as no more clever, courteous and accommodating gentlemen could have been selected to preside over the counting room. The bank office is lo-cated at No. 195 Fifth avenue, and is elegantly fitted up for business. Interest is allowed on time deposits while discounts are made and collections attended to, on the most reasonable terms. As a safe, reliable and accommodating bank, we can recommend the Fifth avenue, and we bespeak for it a still greater prosperity and popularity.

> Pretty Women.—A comparatively few Ladies monopolize the Beauty as well as the attention of Society. This ought not to be so, but it is; and will be white men to be so, but it is; and will be white men are foolish, and single out pretty faces for companions.
>
> This can all be changed by using Hagan's Magnolia Balm, which gives the

> Bloom of Youth and a Refined sparkling Beauty to the Complexion, pleasing, powerful, and natural,
> No Lady need complain of a red, tanned, freckeled or rustic Complexion who will invest 75 cents in Hagan's Magnolia-Balm. Its effects are truly wonderful.

To preserve and dress the Hair use Lyon's Katharion.

The language of nature and experince demonstrates that whoever won enjoy the pleasures of food, the beauties of landscape, the joys of companionship, the riches of literature, or the honors of station and renown, must preserve their health. The effect of foul, injurious food, entering the stomach, is to derange the digestive organs and produce headache, loss of appetite, unrefreshing sleep, low spirits, feverish burnings, etc., which are the symptoms of that horrid disease, the symptoms of that horrid disease, Dyspepsia, which assumes a thousand shapes, and points toward a miserable life and premature decay. PLANTATION BITTERS will prevent, overcome and counteract all of these effects. They act with unerring power, and are taken with the pleasure of a beverage.

MAGNOLIA WATER.—Superior to the hest imported German Cologne, and sold at half the price.
