RELIGIOUS INTELLIGENCE.

The great revival of religion in the Congregational church at Somers, Ct., commenced some weeks ago, is still going on, nearly two hundred persons having publicly requested prayers in the

The Episcopalian, editorially, demands of the Protestant Episcopal Church, that the Baptismal Office, the Communion Office, the Catechism, which are persistently claimed to teach the Sacramentarian theory, must be revised, and the Apostolic Succession, in short, the whole tissue of priestly character and sacramental grace theory, must be expunged and swept from the liturgy and standards of the Church, as the mediceval rubbish and "old wives' table" of dark and corrupt ages. It asserts that if these demands are not complied with, then, it says: "We can go forth to the land of promise and

freedom." The Catholic Bishops visiting Rome to attend the grand Ecumenical Council, are severally the bearers of large sums to His Holiness, Bishop McFarland, of Hartford, Conn., left last week for Rome, bearing an offering of ten thousand dollars. Some of the Bishops carry much larger sums. The churches in the New York Diocese made their gifts some time ago, and amounted to, on the part of the laity, thirty five thousand three hundred and eighty eight dollars; on the part of the clergy, six thousand two hundred and sixty-one dollars, or a total in a single Sabbath of forty-one thousand six hundred and forty-nine dollars.

Dr. Heacock, of Buffalo, is supplying Dr. Scudder's church, in San Francisco, for which he receives one thousand dollars in gold for his service of three months. The opening of the Pacific Railroad will afford a fine opportunity to supply California pulpits with Eastern preachers during the heated term.

From the experience of the owners of several well managed cheese factories, which have eschewed Sunday work and found no pecuniary loss in it, the fact is fully established that there is no need of setting aside the Fourth Commandment of in such cases. The Advance well argues, suppose it did involve some loss to shut up the factory on Sunday. Is not the Lord's day an institution worth it? And shall Christian people barter it off in this greedy way for a trifle of money-that they might save from their luxuries every

week and never feel the loss. This week's issue of the Religious Telescope begins the thirty-sixth volume. Besides being an official organ of the United Brethern Church, and faithful representative of that body of excellent Christians, it has a good record on moral questions like Slavery and Temperance. It is also decidedly opposed to secret societies. We wish the Telescope much pros-

The Unitarian Society in Teledo, Ohio, has assumed the name of the "First Independent Society," because the National Unitarian Conference, "professes faith in Jesus of Nazareth as King, Lord and Christ, thus making a ritual creed its

It is always a sad duty to chronicle the fall of a minister, especially of one who has occupied a high position in the church, fifteen reapers and employing one hunand in the affection of his friends. It is surmised that the recent work "Credo," published by Lee & Shepard, Boston, noticed not long since, and which caused quite a stir in religious circles, is by the youngest professor in the Boston Theological Seminary, under the auspices of the Methodist Episcopal Church.

A project is on foot, by the ladies of the Metropolitan Methodist Episcopal church, at Washington City, with Mrs. U. S. Grant as President of the organization, to raise fifty thousand dollars, and to obtain this sum they appeal to five thousand ladies to give ten dollars each. Four ruling elders, all the trustees, and thirty-two members of the Reformed Presbyterian church, in Washington, Ilinois, have withdrawn and organized an Old School Presbyterian church, because of the Synod's rigid rules on the subject of Church Psalmody.

The American Churchman is represented as favoring such a modification of the ordination service, that ministers of other denominations may be received into the Episcopal Church without a positive reordination.

His product this year, it is stated, will be over 80,000 pounds, which he wholesales at sixteen cents per pound, and ships to all parts of the country. The process of manufac-ture is similar to that of American cheese except that the Limberg undergoes a fermenting process, and requires about six weeks to mature. It is put up in cakes of about two pounds weight, and covered with tin foil instead of cloth.

THE Indiana Supreme Court has reversed the judgment in the case of Morgan, convicted at Terre Haute of the nurder of Peters, and granted him a new trial. Morgan was sentenced to be hung September 1st, but in order to give the Supreme Court time to act a reprieve was granted until October 1st. The ground of reversal is the admission in evidence of statements made by the murdered man an hour or two after he was shot, and some twenty hours before his death, the defense claiming that it was not known at the time whether the wound would

prove fatal or not.
