New York, September 13, 1869. The chief feature of Wall street was the meeting of the Governing Committee of the Stock Exchange to take action on the re-admission of Erie to the call of the Board. After much discussion the Committee finally decided to readmit the stock, the registry being in accordance with the rules of the Stock Exchange and registered certificates only are to be ood delivery.

Jay Gould sent in a letter giving full
Company's bonded particulars of the Company's bonded debt. The stock was actively dealt in at the National Exchange, and rose to 39%. It will be put on the regular Board call to morrow morning.

Stocks heavy till noon but were subsequently strong at 1/0/4 per per cent, higher until three o'clock, the features being Vanderbilt stocks, Michigan Southern, North Western and Rock Island. Owing to the oversold condition of the North Western and Lake Shore stocks both are scarce for borrowing, and the apprehensions of a twist in them induced an advance: market was subsequently an advance; market was subsequently weak, particularly on New York Central,
