AT THE DEPOT. At twelve o'clock, the gentlemen composing the Escort and Reception Committees met at the Mayor's office, where open carriages were in waiting to convey them to the Union depot, and on arriving there the crowd of people anxious to see the President had swollen to thous ands, blocking up the streets in every direction for two or three squares. With considerable difficulty the Committee made their way to the depot, where they awaited the arrival of the special train which was to bring the President and his family. family.

FLANK MOVEMENT. Soon after the arrival of the committee soon after the arrival of the committee at the Depot, and some ten minutes before the train was due, a telegram was received and handed to the chairman, stating that the train was thirty minutes behind time and consequently would not arrive until half past three o'clock. This fact was announced to the thousands who had assembled in and arrived the depart. had assembled in and around the depot, and crested general dissatisfaction, as a large number of those present, had been waiting for over an hour. His brief remarks were received with prolonged applause and the immense concourse of people assembled there were wild with enthusiasm.

ANOTHER FLANK MOVEMENT. It became evident to the committee having the President in charge that some out to the letter, and the arrangements were admirably made, so that nothing occurred to mar the pleasure of the ocwhich he was standing by thousands. A part of the programme was to visit the residence of Dr. Gross, but unless the crowd could be avoided this was impossible. The President was at length conducted to his carriage, which was driven off alone in an opposite direction from the Doctor's house, and after getting clear of the immense throng of people, the house was reached by a circuitous route of four or five miles.

THE ENTERTAINMENT.

When the President arrived at Doctor Gross' residence, the party that had accompanied him to the Volksfest were there, and spread upout the beautiful lawn in front of the house was an excellent colation, of which the party partook, and after a rest of half an hour they returned to the city, passing through the Allegheny Commons were another half hour was spent. THE HUMBOLDT CENTENNIAL YESTERDAY.

Procession, Music, Grations, Festivities.

When, some weeks ago, a few gentlemen met together to consider the propriety of calebrating the centennial anniversary of the birth of Baron Alexander Von Humboldt, they hoped to be able to make a demonstration which would be equal to anything of the kind ever before attempted here, but their imagination, in its wildest flights, did not approach anything equal to what those few notes of preparation culminated in. The demonstration of yesterday, taking it in all its parts, has never been equalled in Allegheny county. The concert, the procession, the Masonic demonstration, the Volksfest, the visit of the Chief Mag. istrate, all were excellent, just as Humboldt in all the departments of science attained excellence. New York, Chicago and Philadelphia had their Humboldt celebrations yesterday, but none of them surpassed or even equalled our own. Even without taking into account the eclat which the festival received from the presence of the party of distinguished guests, it was pronounced a success, and we congratulate the committees upon the result of their efforts.

The opening omens.

The sun rose beautifully yesterday morning, and dispelled with its favoring smiles aff anxiety for the weather. Throughout the day a cool and pleasant breeze played gently through the streets, which mitigated the heat, which otherwise might have been oppressive. In response to request, flags and streamers were floating from many of the public and private buildings, which gave to the cities a brilliant appearance, and added to the attractions and splendor of the occasion. The people began at an early hour to manifest their interest by crowding the nain theoroughfares with happy THE OPENING OMENS. throngs of the old and the young, clad in holiday attire, and all bent in doing honor to the memory of departed genius.

The scene was inspiring and beautiful in the extreme. In anticipation of the procession and crowd, large numbers had washed themselves of the first opportunity to secure good positions for witnessing the ceremonies, and the space about the foundation of the monnmuent, was crowded to such an extent that with great difficulty the police opened a passage, for the approach of the members of the Masonic Order. A throng of ladies, numbering fully eight hundred occupied the Ladies Tri. bune, and presented a spectacle surbandary brilliant and beautiful. Fortunately the Tribune was solidly constructed, clse it must have given way under the great, weight to which it was subjected. Others who were unable to obtain seats, crowded around the space between the structure and the stand, which though but affew feet in width, was made to contain a surprisingly large number of people. The vast crowd who gathered with the procession, for the most part found, their places occupied and were content to look on at a distance, or walk around the what it contains.
