THE GAZEPTE surrenders, this morning, very largely of its space to copious reports of the interesting proceedings of yesterday.

THANKS to Blon. E. MoPHERSON, for a copy of his Political Manual, for 1869,being the fourth annual number of a very useful compend of political information.

THE FOURTEE NTH of September was a tory. A visit from the Fresident of the United States, and the centerary exercises in memory of Hencepuny coming on the same day, al sorbed the unfivided interest of our people.

On less than a two-thirds vote, the Republicans of Maine have profitably employed one day in overthrewing the Temperance-De mocratic coalition, with a majority of about 8,000. Gov. Chanc-BERLAIN is Te-elected, with all other State officers, with all the Senators but three or four, and a large majority in the House.

FOR a first rate opinion of two Democratic candidates, as expressed by a third, we refer the admirers of Messes. Packer and Pendleton, to the following extract from the letter of Gen. Rosecrans to the Ohio Legislature in 1863:

I am amazed that any one could think of peace on say terms." He who entertains the sentiment is at only to be a slave; he who utters it at this time is, moreover, a traitor to his country, who deserves the scorn, and contempt of all honorable men.

THE Republican Convention which has been called in Virginia for November, is to be made up of delegates from "all the voters who favor an honest enforcement and faithful carrying out of all the provisions of the State Constitution recently adopted, and who propose to act in and with the Republican perty for that object" -adopting that constitution as the platform of the reorganized party. The Richmond State Journal anticipates the cordial reunion of all the supporters of the Administration in Virginia. Late dissensions will be healed and a Republican majority will speedily resume its proper control of State affairs.

THE ceremonies of laying the cornerstone of a monument, in the Allegheny Park, to the memory of HUMPOLDT, were participated in and witnessed by an extraordinary concourse of people. It is estimated that twenty thousand persons were present. As usual in these communities, good order and decorum ruled the day, which closed with a rustic fete in the suburban woods. Taken altogether, it was a commemoration most faithful and spirited, and therefore most

honorable to our citizens. The site for the monument has been well chosen, in a conspicuous quarter of the new City Park. The structure is to be suitably imposing in its style, and, when complete, the tout ensemble will afford simple proofs that the memory of one of the greatest of modern philosophers and scientists is filly preserved, assong people who devote themselves eminently to all the profitable applications of ma-

THE PRESIDENTIAL OVATION. General GRANT has enjoyed the largest facilities for acquiring a correct knowledge of this "State of Allegheny." When, at a late hour last night, he was released from hospitalities to repose, we rasy be quite sure that the President retired, thoroughly disposed to assent to the largely generous estimate which one of his most illustrious predecessors in office has historically placed upon the people of

these cities and county. We may speak of yesterday's ovation to the President with unaffected pride. We have, all of us, good reason to felicitate purselves upon as well the just respect we have entertained for the high office and for the individual incumbent, as neon the spontaneous and universal expression in which that sentiment yester-

day chrystalized itself. Arrangements, of a nature perhaps as people more than supplied all the shortconzings is this regard. The visit of President GRANT to these cities has been made the occasion for a purely popular overion, a fresh, vigorous, and unrestricted explosion of the public enthueiasm for the hero of an extinguished rebellion, the choice of the nation for its lowiest civil trust. In effect, the people, going outside the formal outlines of municipal courtesy, and the meagre-errangements of committees, took matters much into their own hands yesterday, and saw for themselves, and welcomed as they should, a deserving Chief

Magistrate. The President's reception was as gratifying to him, as it was an eloquent expression of the popular regard. He leaves us to-day with even a more flattering estimate of our loyal spirit, of the enterprise and wealth of our communities, of the magnitude of our material interests, of the justice with which, in this seat of nancifacturing industry, confidence is National consideration. President GRANT conducted yesterday the personal investigations which convinced him that Allegheny county, giving to him eleven thousand majority, knew exactly what it was for. He leaves our midst with a higher respect, even than before, mutual-

ly shared between President and people. We understand that the President and his family are going to Washington county to day for a short visit to relatives Wheeling and Central Ohio, to Covington, Ky., the residence of his father, before returning to Washington.

RELIEF MEETING.

The meeting of citizens called by the Mayor to be held at Wilkins Hall at day to be remem bered in our local his 2.P. M. this day, should be fully attended by all who feel a hearty sympathy for the bereaved and destitute women and orphans of Avondale. The movement here is somewhat tardy, but we are quite confident that its fruits will substantially vindicate the Christian charity of our people.

there appears to be a wide spread feeling of dissatisfaction among the members of our party, and, while I do not wish to advise my associates on the ticket, I feel well assured that that feeling can only be reconciled by the formation of an entire new ticket. I remain, very respectfully yours, S. Gross Fay.

THE Harrisburg Telegraph says: The split on the Senatorial question still continues in the XVth district, and the dispute between the rival factions is not only warm, but bitter. The Democratic organ in Montour county flies the Chalfant flag, and denounces Buckalew. Chalfant claims the nomination in an article under his own signature, and he is backed by the Montour conterees and by McNinch, one of the Columbia county conferees. Most of the Democratic papers in the district—Northumberland Columbia, Montour and Sullivan countles—have hoisted the Buckalew flag but there is evidently wide spread dis atiafaction in the ranks.

SPAIN. London, September 14.—The Madrid correspondent of the Times writes as follows: Hitherto the Spanish Government and press have unwisely adopted the plan of concealing unfavorable Cuban news; but the Epoca has now broken silence, and startled the Spaniards by making a statement of the actual facts, and by venemently urging the dispatch of troops and the union of men of all parties so the Government may be left free to save Cuba. The news of Gen. Sickles' prosatisfactory as the Emited time at the posal to recognize the Cuban insurgents command of the local committees would as beligerents has caused as much excommand of the local committees would allow, were somewhat impersectly carried out. But the hearty hospitality of the dispatch of Gen. Sickles has not yet been published. Whatever its moral effect may be, the remonstrance of the United States has unquestionably terrified the

Spaniards amazingly.
The Times in an editorial on the Cu-ban question says if American negotia-tions for the accession of Cuba have failed, it must be because the sum tendered was deemed insufficient or Washington Government dreads the opposition of those who feel confident hat Cuba must fall into the hands of the United States, and deem it folly to incur United States, and deem it folly to incur
the liability. The Spanish Government has been admonished to
put an end to insurrection or give
up the island on any terms. If those circumstances have prompted the Madrid
Government to play its last card for the Antilles and stake all on it, it cannot be Antilies and stake all on it, it cannot be congratulated on its resolution. With the exception of a few traders, Spain has no friends in the island. Prim and Serrano have often told the Cortes that the loss of Cuba is manufacturing industry, confidence is merely a question of time. For four repeased in our clear title to the months they have been devising the most advantageous terms. It is to be hoped that wisdom and consistency will enable them to see that it is good to be rid of the Island on any terms, and cause them to consider before wasting men and money, which they cannot spare, in the furtherance of an enterprise which will never yield a hundredth part

of what it has already irrepairably cost. FRANCE.

By law the Empres is regent during minority of her son. It is generally believed the Emperer desires to promote good understanding between the Empress and Prince Napoleon. The idea of intrusting a share of the regency to the Prince is discountenanced by some, while hints are current that the Prince's absence on board his yacht is connected with the plans of others in his behalf, if not directly with

his own.
The Journal Des Soba, referring to the recent meeting of Americans in London, held for the purpose of congratulating Prince Napoleon on his Liberal speech in the Senate, says a little more and it would be considered there was some danger in speaking. New York, September 14, 1869. The centennial anniversary of the birth of Humboldt, was enthusiastically celebrated by Germans and others. The public buildings, hotels and shipping were handsomely decorated with bunting. The headquarters of the various German societies being elaborately decorated. The procession to Central Park numbered about 3,000 persons. The unveiling of Humboldt's monument there was an interesting event. The ceremo nles opened by an overture from Oberon, after which U. E. Ditmald, President of the Humboldt Monument Associapresented the monument to Central Park Commissioners. It was then unveiled and Andrew H. Green, Comptroller of the park, spoke in acceptance of the gift. The various societies then sung the choras; "O Isis and Osiris." Prof. Lieber delivered an

eloquent oration in German, and Prof. Doremus delivered an able address in

English, and after further music the

cermonies ended. A grand banquet took place at the Germinia Hall this followed by a torchlight procession of many thousand people.

LUNG-WORT. One of the truest and most suggestive ideas can be obtained from the caption at the head of this art cle; for of all diseases which impair human health and shorten human life, none are nore prevalent than those which affect the lungs and pulmonary tissues. Whether we regard lung diseases in the light of a merely slight cough. which is but the fore-runner of a more terious malady, or as a deep lesion corroding and dissolving the pulmonary structure, it is always pregnant with evil and foreboding of disaster. In no class of maladies should the physician or the friends and family of the patient be more seriously forewarned than in those of the lurgs, for it is in them that early and efficient treatment is most desirable, and it is then that danger can be warded off and a cure effected. In DR. KEYSER'S LUNG CURE you have a medicine of the greatest value in all these conditions. An alterative, a tonic, a nutrient and resolvent, succoring nature and sustaining the recuperative powers of the system, Its beautiful workings, in harmony with the regular functions, can be readily observed by the use of one or two bottles: it will soon break up the chain of morbidsympathies that disturb the harmonious workings of the animal economy. The harrassing cough, the painful respiration, the sputum streaked with blood, will soon give place to the normal and proper workings of health and vigor. An aggregated experience of over thirty years. has enabled Dr. Keyser, in the compounding of his LUNG CURE, to give new hope to the consumptive invalid and at the same time speedy relief in those now prevalent, catarrhal and throat affections, so distressing in their effects

ure when everything else fails, and in simple ases will cure oftentimes in a few days. The attention of patients, as well as medical men, is respectfully invited to this new and valuable addition to the pharmacy of the coun-

THE FEVER AND AGUE SEASON. When the leaves begin to change, remittent and intermittent fevers make their appearance. From the surface of the earth, bathed nightly in heavy dews, from marshes and swamps our-charged with moisture, from the dying foliage of the woods, from festering pools and singgish streams, the sun of September evolves clouds of miasmatic vapor perilous to health and life. The body, deprived by the burning temperature of ticity, is not in a proper plight to resist malaria, and hence all diseases that are produced by a depraved condition of the atmosphere are particuarly prevalent in the Fall.

Interpretation of the Fail.

There is no reason why the health of thousands of people should be thus sardided. A preparatory course of HOSTETTER'S STOMACH RITTER'S are certain protection/against the epidemics and endemics which Autumn brings in its frain. Let all dwellers in unbesithy localities, liable to such visitations, give heed to the warming and advice conveyed in this advertis ment, and they may bid defiance to the fouler balations which are now rising, night and day, from the soil around them. No farmhouse in the land should be without this invaluable exhilerant and invigorant at any neriod of the year, but especially in the Fail. It is not rafe to go forth into the chill, misty atmosphere of a September morning or evening with the stomach waterfilled by an interpretation of all the tosics which medical changes the stomach waterfilled in the sail and the context was the given to the world, HOSTET-ER'S BITT ER'S are admitted to be the purest, the most wholesome and the most beneficial. the most wholesome and the most beneficial.

Let all who derive to escape the billons attacks, bowel complaints and malarious fevers, take the BITLERO at least twice a day throughout the BITLERO at least twice a day throughout the BITLERO. It is as wholesome as it is included the benefit of the trade mark, where Takers BIOMAGH BITLERO, cargaved to the label and embosied on the bottle, and their revenue stamp copering the cork, as comparing and imitations abounds.
