WE PRINT on the inside pages of this morning's Gazette.

PETROLEUM at Antwerp, 57 1/2.

U. S. BONDS at Frankfurt, 87 1/2.

GOLD closed yesterday in New York at 136 1/2.

The Republican victory in Colorado is confirmed by telegraphic advices this morning.

The attention of our readers is directed to very interesting reading matter which appears on our second and seventh pages this morning.

IT WILL be a piece of gratifying news to his many friends hereabout to learn that R. STOKERT MATTHEWS, the gifted

THE RECENT terrible calamity at the Avondale coal mines, will doubtless be made the theme for many pulpit sermons throughout the country.

WATER-SUPPLY FOR PITTSBURGH. The question of furnishing an adequate supply of tolerably pure water for the inhabitants of this city will come up for decision at a special meeting of Councils to be held on Monday next.

While the tax-payers want an abundant supply of good water, and are willing to pay any reasonable sum for it, they are sure to be restive if experiments shall be undertaken that are not sanctioned by men who have had ample experience in the matter of water-supply.

Nor is it of so much consequence to have this question disposed of at once or soon, as to have it fully considered under all the aspects in which it is presented, so that the decision, when made, shall prove to be thoroughly sound.

The responsibility is with the Councils, and we doubt not they will act with such discretion and promptness as will meet the popular approval.

THE CUBAN SITUATION.

The telegraph reports that the sympathies of Admiral Hoff, commanding our Gulf Squadron, are with the Cuban insurgents. It would be safe to assume that the feelings of the men who are at the head of national affairs at Washington are in the same direction.

Some thinkers maintain that this marked and universal sympathy with rebellion, is only a vague and unconscious protest against the evils which necessarily inhere in all Governments devised and conducted by fallible human beings.

But the United States, during the late rebellion within its own borders, set up some principles of international law, and claimed damages from Great Britain under them, which stand in the way of its action in behalf of the Cuban insurgents.

The fact can neither be denied nor concealed that the wages of labor almost uniformly bear a definite and just proportion to the hazards entailed by different employments.

Some powder-makers pay a certain rate of wages, stipulating to maintain the work-wives and children of such of the work-men as may be disabled or killed by explosions.

If it shall turn out upon a careful scrutiny, that miners are not now paid larger wages than most other classes of workmen, it may be taken for granted that on the general introduction, either through the force of law or of public opinion, or the demand of the miners themselves, of new and costly means of additional security in the mines, the consumers of coal will have to submit to a permanent average increase in price.

The responsibility is with the Councils, and we doubt not they will act with such discretion and promptness as will meet the popular approval.

THE AVONDALE Relief Fund in the hands of Mr. George E. Stewart, the treasurer, at Philadelphia, amounted on Thursday at \$24,142.16.

MINOR TOPICS.

THERE is probably no author now living who has so deserved success as those of Dion Boucicault. His has been almost the only pen, save Bulwer's, which has added what may be looked upon as permanent contributions to English dramatic literature.

THE OLDEST MASON in the world should be sought for by Mr. Micawber, who was waiting for him a week now or equal to the oldest Mason for turning up.

THE STORM which Mrs. Stowe has raised by her recent article on Lord Byron, in the Atlantic, is probably altogether without a precedent in literary history.

IN LOOKING over the daily press of the period one constantly encounters gems of humor or wit which would do credit to the reputation of a Hood or a Jerrold.

THE PHILADELPHIA North American said, a few days ago, that the season for gunning accidents had not yet commenced.

A NOBIS insurance agent has been visiting farmers in Crawford county, N. H. His plan was this: He insured one man's farm at a low rate and took his note for the amount; a discount, another, sold him the note at a receiving cash therefor; he then went to a third farmer, insured his property, took his note, and then disappeared from the neighborhood.

THE AVONDALE Relief Fund in the hands of Mr. George E. Stewart, the treasurer, at Philadelphia, amounted on Thursday at \$24,142.16.

STUDENTS OF ETYMOLOGY.

STUDENTS OF ETYMOLOGY will be pleased to learn that Mrs. Augusta J. Wilson has written another text book for their use. Although this novel is not yet out of the hands of the printers, and we have not yet seen it, we have no doubt it will be quite as admirably suited to their purposes, and as thoroughly Greek to the rest of the public as were Beulah, St. Elmo, Maecia and Inez.

ASSEMBLED in a Democratic meeting in Wayneburg on the 21st inst. ASA PACKER is said to be the champion eucyre player of Mauch Chunk.

REPUBLICANISM has become the synonym for economy and that of Democracy for extravagance.

GEN. R. C. COX, of Liberty, is an independent candidate for Treasurer of the county.

EDWARD HERNDON, a colored man, died on the 15th, in the vicinity of St. Louis, from the bite of a mad dog received twelve days previous.

A LADY from Connecticut went to an eating house in Columbus, Ohio, leaving her baby on a seat in the Cincinnati train.

THE residence of Dr. J. T. Ray, in Meadville, was entered by burglars on the night of the 15th, and robbed of the silverware, the thieves escaping without alarming the family.

AN ATTEMPT was made to murder Mr. C. Clutter, of Rich Hill township, Greene county, on the night of the 10th.

THE STORM at Cleveland Thursday night, the Herald says, was one of the most terrific within the memory of the oldest inhabitant.

THOU BRINGEST ME, LIFE-LUNG-WORT.

One of the most and most suggestive ideas can be obtained from the extracts at the head of this article: for of all diseases which impair human health and shorten human life, none are more prevalent than those which affect the lungs and pulmonary tissues.

EVERY Republican will appreciate the importance of the present campaign, in the view of the fact that the election of the President will give the Democracy the control of the Supreme Court of the United States.

DR. KEYSER'S LUNG CURE is a medicine of the greatest value in all these conditions. An alterative, a tonic, a nutrient and revivator, succoring nature and sustaining the recuperative powers of the system.

DR. KEYSER'S LUNG CURE is a medicine of the greatest value in all these conditions. An alterative, a tonic, a nutrient and revivator, succoring nature and sustaining the recuperative powers of the system.

A DEFENSIVE MEDICINE. "In time of peace prepare for war," is a sound military maxim.
