

CITY AND SUBURBAN.

WANTED. FEED BOY.

Apply to-day at COUNTING ROOM, THIS OFFICE.

Avondale Relief Meeting.

Let none of our charitable and philanthropic readers fail to be present at the public meeting of citizens called for this afternoon at the Mayor's office, to take some action looking towards the substantial relief of the widows and orphans left penniless by the recent terrible accident in the Avondale coal mines.

Mayor Drem yesterday morning disposed of ten common cases.

Desertion.—Alderman Donaldson on Saturday committed to jail Andrew Leary, for abandonment, on oath of his wife, Annie.

Committed.—Peter Tatro, arrested, Friday, on a capias, an account of which was published, was committed yesterday in default of bail.

The Public Night Schools of the city will re-open to-night for the fall and winter term. Application for permits of entry must be made to the local Boards of Directors.

Recruits.—Mary Casey and Annie O'Hare were enlisted for the work houses on a charge of the ransy and sent up for thirty days each.

There is a scarcity of small bank notes in business circles. Uncle Samuel should at once supply another invoice, as change making without them and two-dollar bills is a difficult matter.

Fatal Accident.—A man, whose name we did not learn, was instantly killed by falling over the lip of S. C. Risher's coal works, McKeesport, Saturday. The coroner will hold an inquest this morning.

Mr. G. W. Lyons of the First ward, Allegheny, will be found at his office, 327 Rebecca street, Allegheny, from six to eight o'clock every evening, to register voters, until ten days before the election.

Committed.—On Saturday Jas. Smith was committed to jail on a charge of perjury, preferred against him before Alderman Butler, by John Boland, the particulars of which have been published.

Family Quarrel.—Margaret Hinkle and her husband Joseph, had a little set, Saturday morning, Joseph was later in the day committed to jail by Alderman Butler on a charge of battery on oath of his wife.

Fined.—John Chestnut, of the eighth ward, yesterday afternoon was fined ten dollars by Mayor Drem for indulging first in liquor, and next in disorderly conduct, which he knocked down one of his neighbors.

Burglary.—Kirkor & Co's. grocery store, on Main street, Allegheny, was entered early Saturday morning and a quantity of goods, valued at \$100, were stolen. The thieves pried open a door in the rear to get in. No clue.

Agitated.—The boat race between Sharpe and Scott, announced in Saturday's GAZETTE, came off at the appointed time. Sharpe declared the winner and the stakes, one hundred dollars aside, were handed over to him.

In Agitation.—The notorious Wm. Deany, who within the last two months has invested about one hundred dollars at the tomb, was again brought before the Mayor Saturday evening for whipping his wife. He will be sent over this morning.

It is very rarely that property so eligible and desirable as that advertised by Thomas E. Uppelke, can be obtained at public or private sale. It comprises the house and grounds of the late Mrs. Stockton, on Stockton avenue, Allegheny.

Councils will meet this afternoon. It is highly probable that the new market house project will be brought up after the water question is disposed of. No member should be out of the ground that day, as the meeting will be of the utmost importance.

Mayor's Court.—At the morning court, yesterday, Mayor Brush presiding, thirty-nine cases were disposed of as follows: Seventeen paid fines, nineteen were committed and three were discharged. The charges were: disorderly conduct, 2; drunkenness, 12; vagrancy, 6.

To the House of Refuge.—Bridget Kane, a young girl about fourteen years of age, was arrested Saturday evening, at the instance of her mother, for incorrigibility, and confined in the lockup, where she remained until this morning, when she was taken to the House of Refuge.

Mountain House.—This popular summer resort at Crosson, top of the Allegheny Mountains, is admirably kept by George W. Mullin, Esq., will close for the season on Thursday, September 22. Few places were so extensively patronized as this one; frequently rooms could not be secured, such was the throng of visitors.

Sixteenth Ward.—In the Sheriff's and Mayor's election proclamations to the voters of the Sixteenth Ward were called to meet at the old Wigwam instead of the feed store of James Degan, on Greensburg pike, near the Allen street bridge. The proclamations have been corrected in this regard.

Leg Amputated.—Mr. Henry C. Whaley, a brakeman on the Conneville Railroad, while assisting to make up a train at the depot in the city Thursday last week had his left leg severely crushed by being caught between the dead blocks of two freight cars. He was removed to his residence at Conneville, where on Saturday the injured limb was amputated by Drs. Rodgers and Phillips of that place.

The Lecture of Dr. Rodgers, of Memphis, Tenn., last night in St. Paul's cathedral was largely attended, a fair proportion of the audience being Protestants. His subject, "The Tendency of Ritualism," was handled in a controversial manner and developed the genius and talent of the learned gentleman. From High Church ideas drifted into the Catholic faith. He is a pleasing lecturer, having choice and elegant language, throughout aims to reason with, rather than to offend those who widely differ with him in his opinions.

EXCURSION.

Master Mechanics Take a Railroad Ride.

In Coal Mines—At Cambria, Pa.—Works—Altoona, Pa.—New Car Works—Courtesies Acknowledged.

The meeting of the Association in the city, were treated by the Pennsylvania Railroad Company to an excursion to Altoona. For this occasion the regular Walla Accommodation was appropriated, a special train for the excursion, consisting of the engine and one passenger and one baggage (or refreshment) car, with engine 360, Richard Clay engineer, and Henry Meloyre fireman. The conductor for the day was James Dinwiddie.

At six o'clock and thirty minutes, the train departed, there were assembled the entire delegation of the Association, and were accompanied by ladies, a few of whom were accompanied by their husbands, and a fair representation of the city Press, the guests, numbering one hundred and fifty, were on board the train, and were accompanied by the party were Robert Pitcairn, Superintendent, J. McC. Creighton, General Agent, D. O. Slater, master mechanic, and the Pittsburgh division, D. M. Garrett, master mechanic, W. F. Haines, foreman, and L. W. Vanhouten, general overseer of car department.

A necessary and very agreeable Western brass band, which discoursed good music, but not very much of it.

The train got off in due time, and after a short stop at East Liberty, to complete the patent brake appliances, went speeding on the majority of the excursionists for the first time without brakemen, the engineer alone controlling, checking up much quicker than usual, and the present braking appliances in general use. This was so manifestly the case, that the excursionists were not without their own invention with great interest.

Reaching Larimer's, it was announced as part of the excursion, that the mines would now be visited, and accordingly the grade to the mouth of the Allegheny, the train of pit cars, divided into sections of four, each headed by a mule.

The party, who were embarked under the guidance of miners made the trip through the mountain with interest and pleasure, and were not without their own invention with great interest.

Reaching Larimer's, it was announced as part of the excursion, that the mines would now be visited, and accordingly the grade to the mouth of the Allegheny, the train of pit cars, divided into sections of four, each headed by a mule.
