Emancipation Day.—The anniversary of Lincoln's Proclamation of Emancipation will be honored by citizens of Pittsburgh, Allegheny, and adjoining cities, on Wednesday, 22d, by a procession, addresses, and a banquet, for which due preparations have been made.

The Parepa Troupe.—We take great pleasure in announcing that, on the 18th of October next, the great Parepa Rose English Opera Troupe will commence a season of one week at the Academy of Music. The musical treats offered will be of the richest description.

The driver was backing his team into the yard at the Adams Express Depot, corner Seventh avenue and Grant street, when the king bolt came out, separating the front carriage from the wagon, which freightened the horses and they dashed down Seventh avenue at a frightful pace taking the two front wheels of the wagon with them. At Liberty street they collided with a dray, and were brought to a stand-still.

EDITORS OF GAZETTE: The correspondents of the GAZETTE and *Chronicle* should supplement their enumeration of the attractions of South Common, West of Federal street. All the old nuisances seem to be immovable, and under the kind forbearance of the authorities one cart load of stale manure, and several loads of ashes have just been superadded to the mortar beds and heaps of sand and lime before specified. The Park Commissioners about to visit other parks in the east, may safely defy them all to equal the South Common section of the Allegheny Park either in quantity, variety or nastiness of the surface embellishments. POSTSCRIPT.

The Avondale Sufferers—Adjourned Public Meeting.

Pursuant to call, an adjourned meeting of citizens was held at Wilkins Hall yesterday afternoon, for the purpose of taking action relative to the collection of money for the sufferers by the Avondale disaster. The attendance was small.

Hon. J. K. Moorhead was called to the chair, but vacated it upon the appearance of Bishop Kerfoot, who presided at the previous meeting.

On motion, His Honor, Mayor Brush, was made treasurer of the fund to be raised, and to receive all donations.

A communication addressed to the Mayor from Rodef Scholam Congregation was read, acknowledging the receipt of a printed circular asking their co-operation at the meeting, but stating that by the terms of the call they were excluded, as the "call had been issued and signed for this influential *Christian* community: but that as charity has always been a most prominent feature of all Jewish communities, and to relieve distress a main law in our holy religion, this congregation, or the Jews of Pittsburgh, Allegheny and vicinity, will raise their mite for this laudable object, and when collected will forward such to your Honor;" adding that a meeting of Jewish citizens had already been called for the purpose.

The communication was received.

Mr. Jacob Dressell, delegate from St. Paul's Lutheran Congregation of East Birmingham, reported that a congregational meeting would be held on Wednesday evening and the action taken duly reported.

It was stated the Welsh people had been making collections in the coal mines and manufactories in and about the city, were still collecting, and would pay over the funds to the custodian appointed by the meeting.

Hon. J. K. Moorhead offered the following, which was adopted:

Resolved, That all congregations, corporations, clubs, associations, firms and individuals within the bounds of Allegheny county be requested to collect and make such donations to this object as seems to them proper, and pay the money to the Mayor of this city, Hon. Jared M. Brush, on or before the 6th of October, to be by him forwarded to the proper person.

It was suggested that the donations be acknowledged through the city papers, and the announcement was made that such would be done.

There being no further business, and a motion to adjourn made by Dr. Douglas, the worthy Chairman made a few remarks appropriate to the occasion. He said that in case of failure to respond liberally to the present call for charity, the citizens of Pittsburgh and vicinity would be lacking in an evident duty.

The meeting then adjourned.

CITY COUNCILS.

Special Meeting—The New Water Works—Report of Water Committee.

A special meeting of the Select and Common Councils of the city was held yesterday, Monday, September 20th, at two o'clock P. M., to take action on the report of the Water Committee, laid over at last meeting.

SELECT COUNCIL.

Members present—Messrs. Ahl, Armstrong, Brown, Burgwin, Coffin, Craig, Dickson, Edwards, Gallaher, Gross, Hallman, Hartman, Jones, Kehew, Kirk, Laufman, Little, Lloyd, Morrow, Murray, McClelland, McEwen, McMahon, Phillips, Rafferty, Rees, Schmidt, Scully, Shipton, J. S. Wainwright, Z. Wainwright, Watson, White, Wilson, Zern and McAuley, President.

The President stated the object of the meeting.

The minutes of the preceeding meeting were read and approved.

Mr. Coffin from the Water Committee called up the ordinance relative to a new water works, laid over at a previous meeting and moved its third reading and final passage.

Mr. Morrow called for the reading of the ordinance.

Mr. Laufman asked for information how much land the Committee proposed to buy.

Mr. Coffin, Chairman of the Committee, replied that it was proposed to purchase 102 acres.

Mr. Laufman desired to know further what price was to be paid for the same.

Mr. Shipton in answer to this question replied that the price asked was $400 per acre for the 102 acres, and $1,500 per acre for the fifty acres of coal land, which were now being worked.

After some further interrogations and answers, Mr. Shipton sent for the proposition of the owners of the land, which was read by the Clerk, as follows:

TO THE WATER COMMITTEE.

Gentlemen:

In response to yours of the 13th inst., we agree to sell to the city of Pittsburgh the following property situated on Shades Run, and bounded by lands of Coleman Ireland, Hartman and Ashton, containing about 102 acres and having thereon a stone quarry, one storehouse and dwelling and ninety-two miners' houses, for the sum of $400 per acre; also all the coal under said land, and the land of Thomas Chadwick, dec'd., supposed to be about fifty-three acres, together with the pit, cars, railroad and incline plane, all now in successful working order, for the sum of $1,000 per acre; the number of acres of said coal to be determined by survey.

If the price of the land is not satisfactory, we will agree to submit it to disinterested parties, mutually chosen by the city and the undersigned. We will accept in payment for the above the bonds of the city of Pittsburgh at par, bearing seven per cent. interest.

Respectfully submitted,

W. COLEMAN,
F. RAHM.

The following proposition also accompanied the above:

GENTLEMEN: I will also sell, if desired by the city, fifty-one acres adjoining the above, with the improvements, consisting of one tenement house, dwelling and barn, now occupied by Mr. Doak, for the sum of $600 per acre, and will take the bonds of the city at par, bearing seven per cent. interest.

This proposition is open for your acceptance twelve months.

Yours truly,

W. COLEMAN.

Mr. Gross moved to amend the motion to pass the ordinance as follows: "Provided, however, that the city take none but black merchantable coal."

The amendment was accepted.

Mr. Burgwin thought the matter before Council a very important one, and the Committee having had the matter under consideration for over eighteen months, had given a very meagre report of the matter. He thought the Committee should have given a full and complete report of what they intended to do, and also given an analysis of the water of both the Allegheny and Monongahela rivers. He then offered the following as a substitute for the ordinance offered by the Water Committee.

That the Water Committee be instructed to employ a competent corps of civil engineers, and also some eminent Hydraulic engineer with a view of ascertaining the relative adaptability of the Allegheny and Monongahela rivers to afford a full supply of pure water for the use of the city for the next twenty-five years. That in such examination regard be had to the water capacity of the two rivers, the system for supply and reserve, with the estimated cost. That the said Committee also have the waters of the two rivers thoroughly analyzed by competent chemists, and that they report the result of the whole at as early a day as practicable.

Mr. Littell objected to the substitute in a lengthy speech.

Mr. Kirk favored the amendment to a certain extent.

Mr. Hallman, Mr. Gross and Mr. Gallaher followed, all favoring the Allegheny river.

Mr. Gross moved that the substitute offered by Mr. Burgwin be laid on the table.

Mr. Burgwin called for the yeas and nays. The vote was as follows:

Ayes—Ahl, Armstrong Brown, Coffin, Craig, Dickison, Edwards, Gallaher, Gross, Hallman, Jones, Kehew, Littell, Lloyd, Morrow, McClelland, McMahon, Rafferty, Reese, Schmidt, Shipton, Wainwright, S. J., Wainwright, Z, Watson, White, Wilson, Zern.—27.

Nays—Burgwin, Hartman, Kirk, Laufman, Murray, McEwen, Phillips, Schully, Prest. McAuley—9.

So the substitute was laid on the table.

Mr. Shipton moved the final passage of the ordinance. Adopted.

Mr. Coffin presented the report of the Water Committee for last year, accompanying which, was a resolution authorizing the publication of the report in pamphlet form.

The report was accepted and the resolution adopted.

Mr. White presented a petition for an iron clad building on Boyd's Hill, in the Sixth Ward. Referred to the Committee on Wooden buildings.

Mr. Loyd presented a remonstrance against the construction of a sewer on Third avenue. Accepted.

C. was accepted, in laying over ordinance exempting residents of rural districts of vehicle licenses, which in S. C. was read three times and passed, all of which business was acted upon in Select Council, August 30, 1869, but not reached in C. C.

RECEPTION OF THE PIONEERS.

Mr. Batchelor presented a communication from Mayor Brush enclosing a letter form F. Knowland, of the Pacific Railway, in reference to the reception of an excursion party of two hundred, comprising some of the leading business men and representatives of the press of California, known as the State Pioneers' Association of '49 and '50, who are to pass through Pittsburgh on their way to Philadelphia and New York. Arrangements have been made in the cities named, together with Chicago, and it was suggested that Pittsburgh take action in the matter.

The communication was received and filed.

Mr. Batchelor offered a resolution instructing the Mayor to extend the hospitalities of the city to the "Pioneers."

Mr. McCandless wished to know if the resolution contemplated the entertaining of the excursion at the expense of the city.

Mr. Batchelor said the resolution gave no details, but left it discretionary with the Mayor, who was authorized by it, if necessary, to spend money. He thought Pittsburgh, as the first manufacturing city visited by the excursion, should certainly show some respect to them. The money if needed, could either be drawn from the Treasury or the Mayor might appoint a committee to secure the funds from manufacturers, who would doubtless be willing to contribute.

After some further discussion the resolution was passed,

Mr. McMasters offered a resolution authorizing the Street Committee to report an ordinance for paving Diamond Square with Nicolson pavement. Referred to Street Committee.

Mr. Weldon presented a petition accompanied by an ordinance for grading and paving Railroad street, which were laid over.

Also, petition for changing the width of Webster avenue. Laid on table.

The President now announced the desk clear for new business.

C. C. reconvened and not having any business before them, adjourned.

Female Diseases.

At the present day it is extremely rare to find a female who is entirely free from some one or the other of the diseases peculiar to her sex. Go where you will, on the mountain top or in the valley, in the hamlet or in the city, among the rich or the lowly, there will be found very few females who are not laboring under physical affliction peculiar to womanhood.

The cause of this we will not undertake to explain here. The numerous applications made to us for relief during our twenty years' practice, has long since induced us to make especial study and investigation of these diseases, and their best method of cure. They are maladies of a peculiar character, and as a general thing they require a method of treatment entirely unlike that adopted for those common to both sexes. In fact, the very frequency and extent of female diseases in our midst, is good evidence that the "common treatment" has not met with success, and shows that some more efficent course *should* be adopted.

We were long since convinced that local remedies and external appliances, bandages, &c., were mere palliatives for the time, and of no permanent value whatever, but oftimes injurious; and that an efficient course of medication was the only hope of cure.

For the benefit of those who may be afflicted with any disease peculiar to the sex, whether from a slight cold, followed by a *derangement* and *irregularity* of the general system, which many times produces cough, expectoration, tightness of chest, difficult breathing, palpitation, &c., with all the symptoms of "going into a decline," or from any of the very many other causes which produce such terrible suffering among women, as to make life a burden to them, we would say that our remedies are selected and prepared with a special view towards these ends, and will give relief in all these kinds of cases, without needless exposure to indelicate examinations, or the wearing of disagreeable instruments or cumbrous appliances.

We have *cured* hundreds—yes, thousands—of cases by medical treatment alone, hundreds of whom we have never seen, but who only obtained their medicines after having *sent* to us their cases for examination.

Our remedies in these diseases are *mild* but *effectual*, and are such as we have found out to act in conformity with the laws of nature in regulating health; and from the success which has almost invariably crowned our efforts in these cases, we can promise, and do promise, a speedy *cure* in every case where a reasonable hope can be entertained.

Especial attention is directed to the above.

Amusements.

OPERA HOUSE.—The regular season at the Opera House opened last evening, on which occasion Guy Mannering was presented with Miss Emma Waller in the role of Meg Merriles. The audience was a large and appreciative one, and the new company came fully up to the highest expectation. Mr. Chester, the leading man, in the role of Dandie Dinmont, was a success, and the same might be said of each individual member of the company. Miss Georgie Dickson, as Julia Mannering, and Mrs. S. K. Chester as Lucy Bertram, deserve especial notice. Miss Dickson made a decided hit, and received a full share of the applause. Her singing is superior to anything we have had in her line of business, and she is a most charming actress. Mrs. Chester is a fine reader and dresses with excellent taste. To-night, "Elizabeth, Queen of England" will be presented with Emma Waller in the title role.

PITTSBURGH THEATRE.—A large audience greeted Mr. James Taylor at the old Theatre last evening, and of course everybody was pleased with the entertainment. This afternoon a Matinee will be given, the entire proceeds of which will be appropriated to the relief of the widows and orphans of the men who perished in the Avondale coal mine during the recent disaster. An opportunity is thus offered to all who sympathize with these unfortunate persons, to render them assistance, and we hope to see the house crowded to its utmost capacity. The regular entertainment will be given this evening.

THE GREGRY'S.—The Academy of Music was crowded from pit to dome last night by the admirers of the Gregroy tronpe. The entertainment was anticipated, was excellent, and we have no doubt they will continue to draw large houses.

An Irish Dinner.

"Will ye dine with me to-morrow?" said a Hibernian to his friend. "Faith an' I will, with all my heart." "Remimber, it's only a family dinner I'm asking ye to." "And what for not? A family dinner is a mighty plisant thing. What have ye got?" "Ochl nothing *by* common; jist an illegant piece of corned bafe and potatoes." "By the powers! that bates the world. Jist my own dinner to a hair—*barrin the beef!*" The joke was told in T. Tobias' mammoth clothing establishment, last Saturday, and took well with the large crowd of purchasers who were in waiting, inspecting and purchasing in the store. The stock of piece good and ready made clothing now offered at T. Tobias', 25 Sixth street, is superior in quality and quantity, and sold at more reasonable prices than the goods in any other clothing house in the city.
