FINANCE AND TRADE

[By Telegraph to the Pittaburgh Gazette.] NEW YORK, September, 25. Great crowds of people were attracted this morning to the scene of yesterday's great conflict. Hundreds of strangers view the locality with intense curiosity. The brokers themselves are sore and weary with excitement and exhaustive labors. At the opening of the Board this morning the room was crowded. The following resolution was offered and

consequently there is no session to-day. The street quotations are from thirty to thirty-three, but no reliance can be placed on them. The brokers who participated in yesterday's transac-tions cannot tell thir own standing until who participated in yesterday's transactions cannot tell their own standing until the Clearing House deliveries are made, which will not be until Monday.

The Clearing House holds fifteen million deliver in order about a soft.

The Clearing mouse noise inteen million dollars in gold and about eighty millions in currency. The business of the institution is three days behindhand so that it will be impossible to give any correct estimate of the extent of the losses sustained yesterday.

are open, but their transactions are chief-ity local. The merchants, who must have gold to pay custom house duties, are be-ing charged 133 to 135. The brokers are paying 130 for cash gold. Smith, Gould & Martin, who were yesterday reported as "busted," say they are sound, and only awaiting Clearing House deliveries to meet all their obliga-House deliveries to meet all their obliga-tions. Several others say that all will be well in the end, but whether this be true, or only for the purpose of allaying the fears of creditors, is a question.

Regardless of the wishes of the gold brokers the Government has determined to sell gold and purchase bonds to day.
Assistant Treasurer Butterfield is now

Assistant Treasurer Butterneid is now engaged in making sales and purchassa. The prices paid for bonds do not yary from the quotations of the past-few days. Gold is bringing 133.

Albert Spyers, the gold broker, has been sent to an insane asylum.

Goldman Mahler, a heavy loser, shot himself through the head, to-day, and died in a few bours.

himself through the head, to-day, and died in a few hours.

SECOND DISPATCH.

The day closed quietly in Wall and Broad streets, and everything now wears a calmer aspect. The run upon the Tenih National Bank ended about 3:15 r. M. the bank having met all demands upon it. It is presumed the bank on Monday will cease to decline acceptance of its checks. The ability of the bank to seatisfy all claims has materially checked satisfy all claims has materially checked the growing panic and there is a marked recovery of confidence in the several de-

morning \$1,100,000, and paid out during the day about one million.

Mr. Collinder, bank examiner, inspected the condition of the bank to day and probounced it satisfactory. Many banks were this evening throwing out checks on the Gold Exchange Bank, and some banks were served with injunctions and legal notifications against paying checks paid into the Gold Exchange Bank yesterday. These checks, however, were certified and came regularly through the Custom House this mornieyer, were certified and came regularly through the Custom House this morning, and of course had to be recognized.

The blds to the Assistant Treasurer for gold to-day, amounted to \$3,87,500, ranging from 125 to 1344. The Secretary of the Treasury instructed General Burtefield, by telegraph, to limit the purchase of gold, to-day, to \$2,000,000, unless the blds should be over 134; to reject all bids under 132. The total amount sold

the bids should be over 134; to reject all bids under 132. The total amount sold was \$2,000,000 at 132 % [184]; The bids for Governments to the Sub-Treasury, to-day, amounted to \$7,461,000, at 116 17.100@1219. The award made was \$3,000,000 at 116 17.100@118 8-100.

Cable dispatches report that large of the college of th amounts of gold have been withdrawn from the Bank of England and the Bank of France, for shipment to New York. The general opinion on the street is that beyond those of Albert Speyer and W. H. Belden, failures will be contined principally to small firms, whose engagements are not large enough to cause several troubles.

rious trouble.

The position of the "bull" operators is not regarded as much in doubt. It is reported on good authority that they effected a settlement before noon yester-day on twenty millions gold at 148 to 150, the profit on which should go far toward offsetting the loss they have made on

the Gold Exchange Bank. Call loans were made at 7 per cent. gold, with one commission paid for carrying stocks to commission paid for carrying stocks to Monday ranging from ½ to 1½ per cent. The bank statement is unfavorable, and reflects the general disarrangement of affairs in Wall street: Loans \$263,441,828—decrease, \$3.054,196; specie, \$13,968,481—decrease, \$56,628: circulation, \$33,969,693—increase, \$56,232; deposits, \$180,250,693—decrease, \$5,159,337; Tegal tenders, \$50,250,681—decrease, \$1,234,116.

Foreign exchange quiet and firm at 8 @8½.

PETROLEUM MARKET, OFFICE OF PITTSBURGH GAZETTE, ?

SATURDAY, Sept. 25, 1869. REVIEW FOR THE WEEK. The oil market has been considerably excited, and very feverish during the week which has just closed, in sympathy with the fluctuation in gold and general disruption in financial circles in New York, though compared with last week prices are lower, and the feeling, generally, decidedly "bearlsh." Hereadopted amid intense excitement:

Resolved, That the transactions of today will not be recognized; and further
that a committee of three be appointed
to solicit Mr. Butterfield, the Assistant
Treasurer, to postpone the sale of gold
until some further day.

Consequently, there is no cossion to tofore, an advance in gold was almost some of the New York oil operators were unable to meet their drafts, and this, as might naturally be expected, together with the stringency in the money mar-ket, had a very depressing effect on the market. Yesterday and to-day, however, a little better feeling seemed to prevail, and while the sales were unu-

prevail, and white the sales were unusually light, yet the feverishness and uncertainty which prevailed during Wednesday and Thursday subsided, to some extent at least.
The shipments of Refinedh ave again been comparatively large this week, and it is probable that they would have been larger still had all the cars been furnished that were called for and desired. From this it is fair to infer that the majority of the refineries have again resumed operations, and the indications at this writing are that the snipments during the remainder of the season will

be large, running probably from 2,500 to 3,000 per day, or from 15,000 to 18,000 bbls per week.
The shipments, from Pittsburgh during
the week anding September 23, 1868,
were 18,900 bbls, and the week preceding, 18,236; the same week crude sold at 12, spot, and October to December sold at the same figure. Refined sold at 31% @31%, and October to December at 30. Thus while the former was 2½@2%. cts.

Thua while the former was 2½ @2½ cts. lower than it is now, there is very little difference in refined for September, but the last three months are worth 2@2½ cents more now than then.

Receipts crude this week, 19,502 hbls; last week, 10,996; January 1st to date e27,440 same time last year, 624,506; Exports refined this week, 16,328; last week, 15,221; January 1s; to date, 393,451; same time last year, 494;833. Sales this week, 7,000; last week, 104,000. week, 7,000; last week, 104,000.

But a single sale reported, 1,000 bbls, seller September, at 14%; it is but proper to remark, however, that holders generally are asking 14%, though there are no buyers above 14%, and not many even at that. Last three months, that is for lines, may be quoted at 14%@ 14%; buyers option all 1869, at 14%@15, and seller, 14@14%. But a single sale reported, 1,000 bbls this month, at 32-there were but very few buyers above 81%. October was quoted at 32% @32%, and the last three months at 32%; buyer all 1869, sold yesterday at 32%.
