Temperance and Reform Meeting. The friends of Temperance and Reform held a Mass Meeting in City Hall last evening. The audience was quite re. spectable, and was called to order about eight o'clock by Mr. J. A. Carothers. Mr.T. H. Nevln was elected Chairman, with a large number of respectable gen-tiemen as Vice Presidents and Sec-

retaries.

Mr. T. H. Nevin, on taking the chair, returned thanks for the honor conferred. He referred to the progress of the temperauce cause and the great Republican party. He was a Republican and would vote the ticket of that party with one expense. vote the ticket of that party with one exception. He had nothing personally against the Republican nomines for Commissioner, but he thought he was not the man for the position. A man of firmness and determination was needed. Such a

man was Isalah Dickey.

Rev. Dr. H. Miller was then intro-Rev. Dr. H. Miller was then introduced and addressed the meeting. He was not the engineer of the train, but by education and his profession he was identified with the Reform movement. He would assist in contributing fuel to keep up the steam. In 1867 alcoholic liquors cost one hundred and fifty millions. Alcoholic liquors then cost each year at the rate of fifty dollars for every man, woman and child in the State. feated.

David Kirk, Esq., then addressed the meeting. The office of Commissioner was an important one, as the Commissioners were entrusted with a large amount of public money. Then they were intrusted with the power to grant licenses—a power superior to the Judges on the bench—and from their decision there was no appeal. One hundred and twenty licenses had been granted in one district in twenty squares—one for every twenty licenses nad peen granted in one district in twenty squares—one for every twenty voters in the district. No one pretended that these were necessary for the accommodation of strangers or travelers. No attention is paid to remon-strances. People are discouraged by the power of the Court from presenting re-monstrances. No license has ever been rescinded, which could be done for many

causes, which are daily found to exist.
Mr. Dickey did not want the office, as he told him a few days since, and did not attend the meetings lest he might be pressed to give pledges to some men to grant licenses or listen to remonstrances. Taen it is a great privilege to be permitted once in one's lifetime to yote for a man that did not want office (considerable merriment.) The prospects of success he thought were glorions. He asked for six thousand majority for Isaiah Digker.

Rev. S. Y. Kennedy was the next speaker. He desired to glance at a few things omitted by the speakers who precoeded him. The Temperance Reform movement was no fink movement, as it had been charged, in favor of the Democratic party. They would not allow themselves ta be decived this time, for by the strength of their strong atms, their determined wills and the great God they would elect Mr. Dickey over all other candidates. We have selected at random a few of the telegrams and letters, of the many that were in evidence before the Referee, which exhibit the animus of Mr. O'Connor in following the prosecution-or persecution, perhaps, would be the better word:

Be Beautiful.

If you desire beauty you should use Hagan's Magnolia Balm.
It gives a soft, refined, satin-like texture to the Complexion, removes Roughness, Redness, Blotches, Sunburn, Tander, and adds a tinge of Pearly Bloom to the plainest features. It brings the Bloom of Youth to the fading cheek and changes the rustic Country Girl into a Bloom of Youth to the fading cheek and changes the rustic Country Girl into a Fashionable City Belle.

In the use of the Magnolia Balm lies the true secret of Beauty. No Lady need complan of her Complexion who will invest 75 cents in this delightful article.
