PROMONTORY POINT.

PROMONTORY POINT. A Queer Town.-Who Lives There and What They Do. (From the Quincy Whig, August 17.) Promontory Point, on the Union Pa-cific Railroad, must be a queer "city;" in fact, must be a lovely village in which to dwell. The following description, taken from a letter written some days agg by a gentleman at the Point, to a triend in this city, induces us to think that the Point must certainly, without doubt, be a healthy locality. It would not suit us; fluids appear to be entirely too scarce: However, we give the description of the place as written by a gentleman who is "thar," and knows all about it: "We have about four hundred inhab-itants, consisting and made; up of men and women who gain a livelhood by close attention to the following branches of busines: Railorad men, Indians, dogs, horse-thieves, confidence men and gamblers. Forty miles east of here is the great Salt Lake Valley, rather a fine country and full of Mormoms, who hate and despise a Gen-tile worse than the poison; but if ever the two companies settle their difficulties, and get the junction permanently established anywhere in the valley, they will

have to come to time. It would not be such a bad place to live anywhere in the valley, but here, O Lord, deliver us! We live in hopes that it won't be long until we will be moved from here.

here to see the gamblers 'go for' the passengers with three-carte monte and other nice little games. Yesterday one fellow lost \$1,300 before he found out it was not a square game he was playing. Oh, its nice out here."

National Debts.

A paper was read at a recent meeting of Common Schools to visit the city schools and make an extensive report to the Board of Controllers. Adopted. Mr. Lockhart offered a resolution the public debt, and the amount per capita in gold dollars, and correcting the fig-ures for the United States to the date of the latest return, in the following toble:

Continental

Mr. Holtzheimer, proprietor of the Continental, next door below the Post Office, Fifth avenue, makes it a cardinal principle in the management of his popular establishment to be always up to the times, whether in the fitting or fur-nishing of the Continental or the bill of debt to the average annual earnings is fare with which his patrons are daily favored. As a result, the success which attends his efforts to please are in the highest degree satisfactory to all, both patrons and proprietor. The incredulous should visit the establishment and form

an opinion from ocular demonstration.

Baggage Smashers.

A gentleman just returned from a trip to Omaha with his family, reports his trunks stripped of coverings, smashed, stove in, and well nigh ruined. Last year he made a tour of eleven thousand miles over the whole of Europe with the same trunks, and on arriving back in New York they showed but little signs of wear and tear. At one point in the west, on his Omaha trip, he saw two of his trunks hurled down to the depot, platform from the top of a pile ten feet high. This genteman's experience is that of

all others who trayel in the United States. It is simply outrageous, the rough and ru-inous handling to which baggage is subjected on nearly all the routes of travel. One might infer that baggage masters were in league with trunk makers, receiving a per centage for all the havoc and ruin they occasioned among luggage. Cuba. They certainly act as if they enjoyed a carte blanche from their employers to treat all baggage allotted to their care as so

much lumber or debris. Massachussetts last ycar passed a law to check this species of outrage, and we call upon our next Legislature to give us a similar enactment, and then when the law is once on the statute books let it be rigidly enforced. We have seen that through the efforts of one man, very much of the cruelty hitherto practiced much of the crueity indicate provide in will now be a complete that in this city. There is this important difference in our favor, that our debt is rapidly diminishing, promising to be extinguished within a generation, while the debts of most other countries are increasing annually. Then, too, exertion either of muscle or brain, and the use of money, are paid for so much more liberally in the United States than in Eu very much less with us than in those countries having a smaller per capita debt. Care must be had not to inhale the fumes of the sulphur, nor should it be done in the house, for it may fade the color of the curtains, paperhangings, or furniture, besides filling the house with unpleasant fumes. THE latest fabrication from Cuba has been about the battle of Los Tunas. The Spaniards reported a great victory there, with thousands engaged. The Cubans, to be even with the Spaniards, reported that *they* gained the victory. It now ap-pears that there was no battle at all, al-

though the forces engaged, the number of killed and wounded and the incidents of the fight were stated with great mi-nuteness. This is another warning to believe very little that may be told about MADAME DETCHELLES is said to have been the chief loser by Eugenle giving up her Eastern trip. She makes that lady's bonnets, and had got up for Her Majesty a real love of a bonnet, which she called "the Oriental bonnet," and

she had ordered thousands of them, for the Parisian ladles, who never feel happy unless they can imitate the costume worn by the Empress. The Oriental bonnet will now be a complete failure, and Madame Deschelles will lose a large amount

rascals who ruin our baggage, and it will soon put a stop to the business. Not only Massachusetts and New York, but all the States in the Union should have egislation against baggage smashing.
