On next Tuesday, Pennsylvania will have to decide, so far as any one State can, whether the National Debt shall be honestly paid. True, the Democrats are for all such and have them brought in. ALL IS AT STAKE. The Republicans of Pennsylvania have laid on them the duty of electing a Governor, a Supreme Judge, and majorities in the two branches of the General Assembly. To the performance of this duty they are prompted by party considerations as well as inducements of a higher and more general character. We have already dwelt upon the latter. Let us point to the former. The Republicans must carry the State this year, or run serious risks of remaining out of power for several years to come. Thrown into the minority they will find imposing and repudiation. obstacles across the path back to a maiority.

It is well that these lower reasons conspire with the higher ones, in requiring the Republicans to stand by their flag in the contest soon to be decided.

THE BENCH AND THE PEOPLE. Upon the choice of a Supreme Judge, at the coming election, will depend the political complexion of the highest judicial tribunal. As a matter of necessity, political questions, as well as other questions, go up the Supreme Court for decision. The people are the ultimate source heard on the bench through the ballot-box. The election of Judge Williams, who is confessedly of the purest personal character, of uncommon natural endowments, of the most accurate professional training. wide experience, and commands the confidence both of the members of the bar and of the people, will secure the Judiciary in the interests of those elementary principles of order, stability, promonwealth.

Unable, with all the disingenuous statements, and all the distorted figures of which we have referred, to make out which we have referred, to make out anything which might even tend to deceive intelligent voters, and apparently not much relying upon them, the amiable and accomplished spokesman of the Democracy, taking up the old and well-worn weapons of his party, unweildy and unhandy though they be for him, has cheap to execut the private and perhas chosen to assail the private and personal character of Governor Geary in terms and language which, while indi-cating in the manner of their use the novice in that peculiar style of phraseol ogy usually denominated billingsgate, yet strongly point to a high and suc ful graduation in that school of the fine arts, if the study and the practice are but continued.

The Republican party cannot afford either to reply to such a style of argument, or to retort on its opponents in a similar vein. It has nothing particular to say of Asa Packer, except that he has no record but that of his great accumulated wealth and an absence of a corresponding income tax. In the Legislature of the Strete and a member of the Conof the State, and a member of the Con-gress of the United States for two terms, a few scattering answers to roll-call, a few uncertain votes, are all that make up his public record and attest the fact that his public record and attest the fact that he has ever been in public life. The contest this year is one of special

moment to the people of Pennsylvania.

Apart from the usual importance of the Apart from the usual importance of the Republicens retaining the Governorship, there is at this time a special importance in the position in this, that the Legislature of 1871 will have the duty of apportioning and dividing the State into Congressional and Legislative districts. This duty occurs once every ten years, and the Governor to be elected will have either to yet or approve such apportion. either to veto or approve such apportion-ment. A majority of the counties of this State are Democratic, and it is only by extreme exertion on the part of the Republican party that they can hope to maintain the supremacy in the State Leg-islature. Should we fail in this this fall and a Democratic Governor also be elected, an unfair apportionment might be made, which would give to the Democratic party two thirds of the Congress-men of the State for years to come, as well as such a majority of the Legislawell as such a highly of the Legisland ture as would insure to that party both United States Senators within four years. And the Supreme Judge to be elected will determine whatever of political aspect the Supreme Bench shall have for

fifteen years to come.

Allegheny county has made for herself a record in past contests as the Banner Republican county of the land. Since the formation of the grand Republican party she has cast no uncertain vote. The election of Tuesday next will go far to determine the question of whether this country shall again pass under Democratic rule.
