

CITY AND SUBURBAN.

THE GAZETTE is furnished in the city for six days of the week for 15 cents per week; by mail, \$3 per annum: 3 mos., \$2.

The law in regard to the arrangement of ward tickets, published in Thursday's GAZETTE, does not apply to Allegheny City.

Election tickets for the wards of Pittsburgh and Allegheny, and adjacent districts can now be obtained at the headquarters of the Republican County Committee. The persons into whose hands the tickets may be placed should not fail to have them at the place of voting between six and seven o'clock, A. M., the time fixed for the opening of the polls.

Our Readers in Allegheny, on the west side of Federal street, who do not get their paper before seven o'clock in the morning, will do us a favor by leaving word to that effect in our counting room. The tardiness on the part of the carrier is wholly inexcusable as we print and deliver the papers to him in ample time to enable all to be circulated before seven o'clock.

Break Down.—Yesterday afternoon a couple of wagons loaded with gas pipe broke down on Fulton street, Sixth ward.

Will be Here.—Hon. H. B. Swope telegraphs us that he will be in the city for the fifth and sixth ward meeting to night.

A good turn is done our readers when we commend to them the American House, Boston. The same management is continued which has made it so popular in the past.

Republican Primary Meeting in the Twenty-third ward will be held on Saturday evening, at the Allegheny School House, for placing in nomination a ticket for ward officers. By order of the Executive Committee.

Fifth Avenue Fight.—Wm. H. Green and Peter Mackey met on Fifth avenue night before last, and came together and fought a fight. As a result, William Mackey was arrested by Alderman McAdams for the arrest of Mackey for assault and battery.

Room for Rent.—A furnished room, fronting on Wylie street, will be let to one or two gentlemen with or without board. The location is the most desirable on this street. Reference required. Call at No. 91 Wylie street for particulars.

Interesting services may be expected at the First Methodist Church, Fifth avenue, (Rev. A. Clark's) to-morrow. The church has been closed some weeks for repairs, and will be opened to-morrow. It is now one of the most comfortable places of worship in the city.

Blocked.—During the paving of Seventeenth street, which has commenced, travel will have to be suspended on that thoroughfare. Drivers of vehicles will be inconvenienced, but the bridge while the blockade remains, which will be about two weeks.

A Troublesome Toss.—John Smith, colored, threw a brickbat in Wide Alley, Sixth ward, yesterday afternoon. Fortunately the missile came in contact with a colored brother's head, George Smith, and as a result, John was arrested, taken before Alderman McAdams and finally committed to jail for a hearing on a charge of assault and battery.

Building Unlawfully.—Yesterday afternoon Street Commissioner McFadden caused the arrest of Geo. H. Lemmitt for building a frame stable on his property on Berry street, Sixth ward, contrary to city ordinance. The case was investigated before Alderman Nepper, when Lemmitt was compelled to pay a fine of fifty dollars and the costs of suit.

Alleged False Pretence.—Samuel Meagher made information before Alderman McAdams, yesterday, charging Mrs. Mary McKinnon with obtaining fifteen dollars worth of groceries from him by falsely representing herself as the owner of two hundred acres of land in Butler county and three thousand dollars in the Third National Bank, this city. Warrant issued.

Mercantile Library Lectures.—The public will be pleased to hear that the first Lecture of the course, under the auspices of the Young Men's Association, will be delivered by the prince of humorous lecturers, Mark Twain, on the 16th of November. The buying season tickets should call at the Library Rooms, Penn and Sixth streets, as we learn they are being disposed of very rapidly.

At a Democratic Meeting held at the Eleventh Ward School House, the following candidates were unanimously elected: Select Council—Henry Abel, Sr., Common Council—B. A. McKinley, Michael Kirk, Henry Herr, School Director—Samuel Irwin, Sam. Ross, Alderman—Samuel Irwin, Constable—John Maloney, Judge of Elections—August Bleaseth, Inspector of Elections—Bernard Kane, Return Inspector—Jacob Byerly.

The Western Union Telegraph Company, with a view of affording better accommodations to that portion of the business community having their stores and warehouses in the neighborhood of the Union Depot and the outer wards, have just established a receiving, or branch office, at No. 323 Liberty street, near Wayne. This office will have direct communication with all leading points, and our business friends, for whom the great accommodation is intended, cannot too highly appreciate the consideration thus paid to their interest and convenience by the Western Union Company. The branch office goes into operation to-day, and will be in the immediate vicinity of receiving of courteous and reliable operators.

Whisky Seized.—Assistant Assessor Robert McCready, yesterday seized forty barrels of whisky in this city, manufactured and shipped here by Mr. South, of Greene county, Pa. It appears that the barrels were stamped, and the tax paid on thirty-five to thirty-eight gallons each, when according to the gauge marks on the barrels, they contained from forty-two to a half to forty-five gallons each, and the Government was consequently defrauded out of the tax on seven gallons per barrel on the forty barrels, making a total of two hundred and eighty gallons, which at fifty cents per gallon would make \$140.

A Newly Invented and First Class Family Cook Stove.

At the Burgettstown fair yesterday we noticed a novel, newly invented patent coal stove, from the well known and extensive foundry of Messrs. Joseph H. Greer & Bro., Bridgewater, (Rochester), Pa., excited much comment among the visitors.

It is circular in shape, occupying but little room, and is supplied with seven plates. The heat is regulated by a damper, so that it can in an instant be transferred either to the plates or thrown to the oven in any desired intensity—advantages which housekeepers will appreciate.

The stove is supplied with a movable rack which can be readily changed into any desired position. The stove is supplied with registers, and throughout is a pretty piece of workmanship as we have ever seen, all parts being smoothly finished and put together in a neat fitting manner.

For from twenty-five to twenty-nine dollars including outfit. There are many special merits in this stove which make it an influence on Mary and Michael, if Thomas' statement be true. He alleges that he is in the highest of the festivities, he was approached by these two and his enjoyment suddenly brought to an end by a combined attack upon him, during which his head and other parts of his body suffered severely.

To have the matter fully investigated he caused warrants to be issued yesterday for the arrest of the assailants for assault and battery. The hearing will come off before Alderman Strain.

The Fall Extension. The new addition to the County Jail is being rapidly finished, and will probably be ready for occupancy about the 15th inst., when one hundred prisoners, who are now lodged in rather close quarters in the old building, will be transferred to it. The new cells are very strongly built, lined with iron and other wise made secure, while at the same time the ventilation is good, rendering them very comfortable residences for persons of retiring dispositions.

The extension is being pushed forward as rapidly as possible, but will not be completed for some time yet.

MISSIONARY.

American Board of Commissioners for Foreign Missions.—Closing Services. The closing services of the American Board of Commissioners for Foreign Missions, were held in the Third Church, yesterday morning.

The meeting was called to order and opened with prayer by the Rev. Geo. Andrews, at half-past eight o'clock.

The minutes of the preceding meeting were read and approved.

Rev. Mr. Johnson presented a paper requesting that a re-examination of his relations with the board be made.

Dr. Adams, of the Executive Committee reported upon the paper referred to them from Rev. Mr. Johnson, that the paper be referred to a special committee of five for investigation.

The recommendation was adopted and the Chairman appointed W. A. Bond, Esq., Rev. J. E. Stevens, Dr. Blodgett, Dr. Lafferty and H. P. Haver, Esq.

The congregation then united in singing the hymn commencing: "All Hail the Power of Jesus Name."

Gov. Hale from the Business Committee submitted the following Resolved: That on the sixteenth anniversary of our society we feel constrained to recognize with devout and humble thanksgiving the good benefactions upon us from the beginning hitherto.

Let—We praise him for including so many of our fellow-laborers—some of them far advanced in life to see this day, and we thank him as well for those who have labored the course and have passed with divine trust and radiant hope to their reward.

3d.—We praise him for the changes he has wrought as marvelous as they were unexpected, whereby the scriptures of ten leaved gates have been torn open so that hundreds of persons have been made acceptable to the God of Creation.

Resolved: That we cannot refrain from expressing our deliberate and profound conviction that the churches uniting in the operation of the Board are summoned to more earnest and prayerful endeavors for the enlightenment of Christ in all parts of the world.

The Duty of the Press.

There have been few greater benefactors of mankind than the man who built the first light house. What a source of comfort it has been to the toilers of the sea—like a good conscience forever giving warning of the rocks and breakers, and pointing always to the smooth waters and the safe harbor.

The press should never cease to warn of errors, but should constantly point the way which is for the public advantage.

To a certain extent it does—that in all matters of trade and commerce—where men's pockets are concerned. No trouble is too great, no pains are spared, that the merchant may have the latest information that may enable him to make a good bargain.

To this end the land is covered with the telegraph wires, and all our papers bristle with long strings of figures, the product of long and patient toil.

But how is it in the more important concern of the physical well-being of society? From the reticence of the press on this subject one would suppose it was a minor matter.

No word of warning is uttered while Quacks make money, or where the afflicted may safely go that they may be healed. Now is the time when the press should discharge its duty faithfully to the public and keep silent; we therefore mean from time to time to caution the public against the stand-ard Quacks—for they are numerous, and far from being harmless. Go to none of them under any circumstances.

Such affairs are too important to incur any risk. Take a practice mark to Dr. Hines, of 254 Penn street, and you can trust him implicitly; he is master of his profession.

Defied Him. Two eminent members of the bar quarreled the other day, and from words came to blows. The stronger of the two, a powerful man—at the first-knocked his adversary down twice, exclaiming with vehemence, "You should have your eye put out."

He was answered, unconquerable and undismayed, as indignantly replied; "You can't do it, my dear sir. My eye is as good as yours, and I'll not let you put it out."

He then took a pocket watch, and said, "I'll give you five minutes to get up, and then I'll see you in court."

Business Suits. Mr. W. Hesperheid, merchant tailor, No. 616 Sixth street, is now making up suits for business men from materials just received from the East, and of new and beautiful patterns.

Every garment manufactured at this establishment is warranted in quality. The finest fabrics are used, and the work is done by the best tailors in the city.

Mr. J. D. Egan, No. 41 Sixth avenue below Smithfield street, has on hand a rare and valuable collection of books issued by American and Foreign publishers.

The stock embraces volumes on Theology, Geology, Mineralogy, Cosmology, together with a large assortment of classical productions, consisting in part of works in the Hebrew, Greek, Latin, Spanish, Italian, German, French and Arabic languages.

He has also the latest issues in relation to Mathematics, Architecture, Navigation, Law, etc., which will be found unusually full and complete. In the news department all descriptions of Stationery, and the best quality may be obtained, together with the late magazines and illustrated weeklies.

For anything in his line Mr. Egan's establishment is the right place for purchasers.

The Continental. Today a superb dinner will be placed on the board of the Continental, next door below the Postoffice, Fifth avenue, who have heretofore tested the ability of Mr. Holzheim as a caterer to the public tables.

Well prepared, served up in clean, neat style, and with attentive and polite waiters, the entertainments at the "Continental" are always of a first class character.

"Allama."—It is not often that we have the time to spare, or the inclination, to notice any of the thousand and one preparations sold throughout the country. Of the above there were males, 17; females, 17; total, 34.

Old age, 2; peritonitis, 1; maramus, 1; diarrhoea, 2; cholera infantum, 2; whooping cough, 2; hydrocephalus, 1; scarlet fever, 1; typhoid fever, 1; pneumonia, 1; still born, 2. Of the above there were males, 17; females, 17; total, 34.

An Excellent Idea. If you wish to ask a favor of a man never do so unless you are certain he is not at the time in a condition of hunger.

To make sure of this a good plan would be to take him to the Continental, Fifth avenue, next door below the Postoffice, and allow him to satiate his appetite on the appetizing fare for which the institution is so famous, and after that, ten dollars to one, you will have no difficulty in getting him to grant the favor asked, if it be in his power. The experiment is well worth a trial by those in need of assistance.

The Burdett Organ.

Our friend, Mr. H. Kieber, has just returned from Chicago, where he has selected at the factory some fifty of the famous Burdett Organs. The rise and progress in public favor of the "Burdett" is something wonderful. The wonder, however, ceases when you have heard the music it makes. Such softness, sweetness and delicacy of tone, and volume power, and variety of sound, have never before been joined in any one instrument. Mr. Burdett, in the proud consciousness of the superiority of his organs, has not spent one dollar in advertising, where others have spent thousands, and yet he is always behind his talk for itself, so go to Kieber's and hear and be convinced.

"If men or women could but find the fabled fountain which is said to restore health and strength, and beauty, with what eagerness they would rush to drink its waters. It is found in the S. T.—1860—X.

The sale of the PLANTATION BITTERS is without a precedent in the history of the world. They are at once the most speedy, strengthening health-restorer ever discovered. It requires but a single trial to understand this.

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price.

The best and Original Tonic of Iron, Phosphorus and Calissaya, known as Caswell, Mack & Co's Ferro Phosphated Elixir of Calissaya Bark. The iron restores color to the blood, the Phosphorus restores energy to the various organs, and the Calissaya gives a natural healthful tone to the digestive organs, thereby curing dyspepsia in its various forms.

Wakeness, General Debility and Depression of Spirits. Manufactured only by Caswell, Hazard & Co., New York. Sold by all druggists.

Clean Yards.—Nothing detracts more from the exterior appearance of a house than the muddy, dirty walks leading to and around it. This annoyance can now be very easily obviated, and the walks made pleasant to look upon and durable, by the Boulevard Pavement, for which Messrs. McCowan & Co., No. 63 Ohio street, Allegheny, are the agents in this vicinity. Owners of property should give the Boulevard a trial.

Among the latest improvements which are now commanding general attention the improvement in the manufacture of crackers, as exhibited in the superior articles turned out from Marvin's establishment, No. 91 Liberty street, is worthy of special notice.

Linon Cambric Handkerchiefs.—Linon Goods of all kinds. Bates & Bell's.
