FINANCE AND TRADE.

By Telegraph to the Pittsburgh Gazette. 1 New York, October 11, 1869. Judge Cardozo this morning appointed N. Jordan, Cashier of Third National Bank, Receiver of the Gold Exchange Bank, to the place of Augustus L. nia, January 24, 1867. For the safe-keeping | Brown, resigned. Power was given to of Bonds and other Securities, Gold and Silver, the new Receiver to adjust all claims Silver Plate. Books. Records, Diamonds and upon or in favor of the Bank, including, Valuables of all descriptions, under guarantee, of course, the gold business of Friday, and for the renting of Safes in its burgiar-proof September 24th. It is believed the affairs of the bank will be satisfactorily adjusted during the present week. The monetary of Wall street was slightly relieved this afternoon by a rumor on stock exchange that there was a panic in Chicago with a fall in wheat to 90c, and subsequent recovery to 95c. As the public and private telegrams did not mention anything about the panic, it was discredited. The stock exchange is being unfavorably affected by the depression in the grain trade at the West, and the decreased earnings of the western roads was responded to today by a marked decline in leading shares. At the one o'clock Board the suspension of the stock firm of Fitzhugh and Jenkins was announced. The house was not a large one but had a high reputation.

PITTSBURGH MARKETS. OFFICE OF PITTSBURGH GAZETTE,

Monday, October 11, 1869. The advices from Chicago to-day, were not palatable to parties carrying large stocks of grain, and who bought largely some time ago, for future delivery. No. 2 Wheat is quoted down to 9614; last month it sold at \$1,35 and even \$1,40 for eller October; the seller, according to present indications, will realize a very handsome margin; while, on the other hand, the buyer, will have a very ugly difference to settle, one that will make some of them feel very uncomfortable. Some of the parties who engage in this particular branch of business, "selling short" and "going long," adopt as their snort" and "going long," adopt as their policy, "heads I win and tails you lose;" if the markets turn out out in their favor it is all right—but if it goes against them, they fail, or in other worde, go up, and this will no doubt be the result in many instances, in the case we have just alluded to. Sixty days ago, the impression was created, nearly all over the country, that the excessive and continued rains had round the and continued rains had ruined the crops, that the yield would be below an average and that prices were destined to rule higher. How much truth there was in these reports, has been already fully developed, and those who invested their

money and credit on the basis of short crops, have ere this discovered their mis-ASHES—Steady but unchanged—4@
