PETROLEUM at Antwerp, 583f.

U. S. Bonds at Frankfort, 881. REPUBLICANS, who incline to carp at

the Registry law, may profitably remember an old maxim, "Speak well of the bridge which carries you safe over !"

THE full Republican ticket in Allegheny county has been elected with a single exception of Mr. Bostwick, candidate for Commissioner. The party vote out was comparatively small and the majority was whittled down consiserably ia the distractions resulting from local contests over minor ward, borough and township elections.

THE Temperance Reform Party has secured the defeat of the Republican candidste for Commissioner, the overthrow of their own and the triumph of Mr. Mc-Gee, the Democratic nominee, who has been elected by fully five hundred majority. To the Democracy and liquor men he owes his office, and to say the least, can afford to be saucy and independent And so much has the movement accom-

plished! THE vote on the location of the Sol diers' Monument has resulted in favor of Allegheny City by a handsome majority. Inasmuch as Pittsburgh had no proper lite to offer, and our sister city had a splendid place to suggest for the location, there can be no dissatisfaction expressed over the result of the election. The good ladies composing the Monumental Association will heartily acquiesce to the will of the people, and at once set about to secure the early erection of the monument. They have been solicitous to afford satisfaction to those interested in the matter, and congratulate themselves on the final solution of the much vexed question of location.

ARE there two Ex-Presidential Dromios? Have the mistaken types been unjust to a party by the name of Johnson, accrediting his well-known deliverances upon the Constitution to that wellpreserved relic of an antediluvian age who still lives to answer to the name of Fillmore? If it was not the Tennessee politician who advised his hearers, in the Louisville Convention, on Tuesday, to stand by the Constitution, it is due to him to protest against the use of his stolen thunder by the gentleman from Buffalo, One thing is quite clearthat A. J. would be quite too anxious for adhesion to the Fugitive Slave Law.

THE LEGISLATURE.

Of the 21 hold over Senators, ten are Republican and 11 Democratic. Of the 12 now elected, the Republicans have 9 and the Democrats 3. The full Senate thus stands 19 Republicans to 14 Democrats. This concedes the election of one of the two Democrats running in the

Montour district. In the last House, we had a Republican majority of 22. We have now gain. ed two members in Phiadelphia, and have no reason to suppose that we have lost elsewhere. This gives us 24 majority at least in the next House. We have a chance for gaining another member in Franklin and Perry, and also one in

Cumberland. This is the judgment of the people upon the reiterated accusations of an opposing coalition, against the fidelity and integrity of the last Republican Legis.

lature. THE OHIO ELECTION. The Republicans of Ohio have given a alightly increased majority to Governor HAYES and their entire State ticket. The Legislature, which was last year Democratic in both branches, is now in doubt, the better impression being that the Republicans have the Senate with an opposition majority in the House. This body elected for two years, will, on joint ballot, elect a U.S. Senator to succeed Mr. Sherman. It is not yet known which party will have the control of that joint convention. It is claimed on both sides. Our dispatches in another column

may settle the doubt. The State Government of Ohlo is sub. stantially in its Legislature, and, so far, drawn battle. This is in effect a defeat plete control of the State for two years formed judiciary for the auspicious

Taken altogether, these results, achieved in the teeth of the most embarrassing obstacles, reflect a higher credit upon the Republicans of Pennsylvania than they had won in any previous canvass since the organization of their party.

THE NEW SECRETARY OF WAR.

Contrary to general anticipation, the position of Secretary of War, made vacant by the death of General Rawlins, has been filled by the appointment of a citizen not of Pennsylvania but of Iowa -Major General WM. M. BELKNAP The recipient of this honor is not unknown to the country. He sustains high reputation as a soldier, lawyer to his writings and genius. and citizen, and will bring with him to the position a private character unblemished, as well asna large fund of practical business tact and experience. The appointment cannot fail to ecure the heartiest satisfaction, and reflects a large degree of credit to the discrimination and judgment of President GRANT. Gen. BELKNAP will at once enter into the discharge of the duties per-

acceptance of the appointment. A PURE SUFFRAGE.

The Registry law, operating at Tues. day's polls, preserved the Commonwealth from the clutches of a corrupt and vindic. tive party. It is clear now that a late Chairman of the opposition State Committee delivered himself frankly, and by the book, when he informed a Republican friend, two weeks since, that the Democracy polled twenty-two thousand polls, with a destruction, as resistless as that of a tidal wave on a tropical coast. Philadelphia, the anthracite region, and other interior counties which are always Democratic strong holds, would have scored every rascally ticket of Senator Wallace's twenty-two thousand, and perhaps a few thousand more.

On the contrary, this wise safe-guard around the ballot-boxes has pruned down tage of that fact. A new overcoat is a the honest vote of Philadelphia by more than ten thousand, has checkmated the cunning scheme to swamp a clear Republican majority with fraudulent ballots in the anthracite counties, has stopped everywhere the old opposition trick of bogus from the traditional roguery of Democratic politicians, that the year 1869, for a post mortem reputation to boast of his the first time in the later history of Pennsylvania, witnesses at last a thoroughly square and upright contest between two

great parties. Never was the need for such wise islation more amply vindicated!

SOMETHING NEW.

We hear of no fraudulent ballots cast, by virtue of ficticious papers of naturalization, last Tuesday. Nowhere, in the Commonwealth, was seen, and to be deplored, on the eve of the election, the speciacle of a court of justice prostituted into an election eering engine, and run as a partizan machine in the interests of a more or less. faction, and in flagrant defiance of all public decency. No seals have been stolen, or borrowed by smart knaves, when conveniently forgotten in some public place by their lawful custodians - their faithful impressions re-appearing in due time to legalize the cloud of certificates with which Demoeratic citizens, not a year on American soil, once thronged the hustings in every quarter of the Commonwealth. No dranken and ignorant tip-stayes have pocketed four shillings per certificate from the lavish funds of Democratic committees, for the sale of a judicial prerogative, which their superiors may have winked at, all for the good of the party. No legally naturalized citizen of foreign birth has been elbowed away from the polls, by the off-scourings of the prisons of the world, or by the graduates of our own penitentiaries, their pockets full of ballots to be stuffed in the boxes, that Democratic institutions might

be patriotically upheld. In short, every citizen has had his vote, who was entitled to it and chose to cast it, and none other appeared at last Tuesthe campaign has perhaps ended in a day's polls. Evidently, this is a welcome novelty in our politics. The people may for an opposition which has held com- thank a Republican Legislature and a re-

THE most ridiculous, yet amusing and gorgeons spectacular piece that elect Governor GEARY by a majority we ever saw was called "Flick and Flock." It was writen by Raeder, by long odds the greatest of German comedians, and displays more genius, fun and opportunities for magnificent display than all of the "Black Crooks" and White Fawns' that have ever been produced in this country. Since the epi-HENRY W. We now see by the New York papers that "Flick and Flock" is to brought out at Woods' Museum. We have heard, recently, several persons speak seriously of sending for a batch of Chinese to be used as servants and waiters. But there is a good deal of room for doubt as to whether there really is a solution to the great domestic problem to be found in China. Without discussing the availability of the new element we still have this one serious drawback. The Chinese immigrants acquire taining to the office, having signified his the English language with difficulty and do not easily understand our language of signs. It is said that in California they go about in gange with one interpreter at their head who does all the talking, and if this be so their power in the house hold could hardly be regarded as an improvement or a blessing.

In Boston they have a prohibitory liquor law. In Iowa there is a party try. ing to get up a prohibitory-tobacco law. The Roman Catholics are credited with a desire to enforce a prohibitary school and Bible law. Hebrews and believe votes for President in '68, which they in the ravages of trichines should unite would have to do without this year. But in attempting to procure a prohibitary for registration, this immense tide of pork law. Democrats would like to partizan rascality would have again over- have a prohibity Republican law. With whelmed a pure suffrage at last Tuesday's all of these demands working successfully throughout the country, there would remain no necessity at all for the Imperialists to advocate a prohibitoryliberty-law, for that would then be a fairly accomplished success.

THE season for robberies is fast coming round. Overcoats are getting to be a essary portion of a man's wardrobe, and the sneak-thieves are taking advangood thing for a sneak-thief to have, because he incurs so little risk in either wearing or selling it. The moral of all this is, look well to your night-latches, and do not leave your doors open.

THE Salt Lake Telegraph, owned by papers of naturalization, and has so the champion marryist of Utah, complains thoroughly purged the hustings, all over that the United States Judges have refus. the Commonwealth, inside and outside, ed naturalization papers to those who from the traditional roguery of Demothey were not polygamists, or not in favor of the system. If the candidate tor naturalization refused to answer questions on this subject, the Telegraph says t was immediately assumed that he was guilty, and naturalization papers were efused him. The assumption that a Mormon practices or encourages polygamy is not a very violent one, and the question is as to the right of the judges to refuse naturalization on this The law requires, in addition to other conditions, that the candidate shall show to the satisfaction of the judges "that he has behaved as a man of goo moral character, attached to the principles of the United States, and well dis posed to the good order and happiness of the same." The 1865 cable, which was picked up in mid ocean, where it had been lost in the attempt to lay it, has continued to work uninterruptedly, while the 1866 has suffered from five mishaps. The reason assigned for this immunity is, that the 1865 cable was laid in a carefully surveyed channel, while the 1866 cable was laid over rough sunken rocks, and during unfavorable weather. Had the lost cable of 1865 not been recovered, the communication between England and America would have been interrupted for a considerable period of time on five occasions. Surplus cables are stored both at Heart's Content and Valentia, so as to repair any fault as soon as possible.

FATAL FALL. THE GAINS AND LOSSES, OCT., '69. Distressing Accident in Allegheny—A We append a table embodying a comparative statement of the county majorities given at the October elections in

Yesterday afternoon, about five o'clock a very distressing affair occurred in Allegheny, resulting in the almost instant death of John Fermorz, a carpenter. Fermorz had been employed to shingle the roof of the Diamond House, a three story brick structure located east of Fedstory brick structure located east of Federal street, lower side of the Diamond, and commenced the work a day or two ago, but left it for another job. Yesterday afternoon he came back with an assistant and received from the proprietor of the house some money to buy materials. After taking a drink of beer he started out apparently in a perfectly sober condition. A few minutes afterwards the saloon keeper heard a shriek, and upon running to the rear of the house, from whence the sound came, discovered Fermorz lying on the pavement in Pine alley running alongside the building. When picked up he exclaimed, "Oh my God!" and closed his eyes. He was taken into the house and Dr. J. C. Sloan summoned, but before the physician arrived the unfortunate man had expired. He only unfortunate man had expired. He only lived about ten minutes after the fall, and was unable to speak after the first exclamation. It seems from the statement of his companion that Fermorz lost his balance as soon as he had set foot on the roof, which was quite slippery, and was precipitated backwards, striking the was precipitated backwards, striking the ground with his back and shoulders. The physician thought death was caused by the concussion. The only evidence of injury was found in his right arm,

which was broken in three places be-tween the elbow and the shoulder. tween the clow and the shoulder.
Fermorz was about forty-six years of age and leaves a wife and four small children. He is said to have been a man of temperate, industrious habits, and an excellent workman. About half an hour after the accident the body was removed to the late residence of the deeased, near Goettman's brewery, foot of Trtry Hill, Allegheny.

About Furs.—The Prevailing Styles This Season.—What the Ladies Will Wear the Coming Winter.

Though it is somewhat early to wear furs or even to talk about them, yet the season is close at hand when they will be indispensible as a protection from the chilling blasts of old winter, as well as a necessary article in the completion of the ladies or misses dress. The Mink Sable takes the lead of all other furs in durability and fineness, the finer grades far excelling the Hudson Bay and Russian Sables which it has almost entirely driven out of the market. One of the truest and most suggestive ideas can be obtained from the caption at the head of this article; for of all diseases which impair human health and shorten human life, none are more prevalent than those which affect the lungs and pulmonary tissues. Whether we regard lang diseases in the light of a merely slight cough, which is but the fore-runner of a more serious malady, or as a deep lesion corroding and dissolving the pulmonary structure, it is always pregnant with evil and foreboding of disaster. In no class of maladies should the physician or the friends and family of the patient be more seriously forewarned than in those of the lungs, for it is in them that early and efficient treatment is most desirable, and it is then that danger can be warded off and a cure effected. In DR. KEYSER'S LUNG CURE you have a medicine of the greatest value in all these conditions. An siterative, a tonic, a nutrient and resolvent, succoring nature and sustaining the recuperative powers of the system. Its beautiful workings, in harmony with the regular functions, can be readily observed by the use of one or two bottles: it will soon break up the chain of morbid sympathies that disturb the harmonious workings of the animal economy. The harrassing cough, the painful respiration, the sputum streaked with blood, will soon give place to the normal and proper workings of health and vigor. An aggregated experience of over thirty years has enabled Dr. Keyser, in the compounding of his LUNG CURE, to give new hope to the consumptive invalid and at the same time speedy relief in those now prevalent, catarrial and throat affections, so distressing in their effects and so almost certainly fatal in their tendencies, unless cured by some appropriate remedy. DB. KEYSER'S LUNG CURE is so thorough and efficient, that any one who has ever used it, will never be without it in the house. It will often cure when everything else falls, and in simple cases will cure oftentimes in a few days. The attention of patients, as well as medical

men, is respectfully invited to this new and valuable addition to the pharmacy of the coun-
