The Quinine Plant,

It appears from the Java papers that distribute them among the people of mountainous districts. The private plantations at Buitenzorg and in the Preanger Regencies will be en-

larged considerably before the next
West Monsoon. The Calisaya, Condaminea and Lancifolia varieties are now Succirubra species, which yields the red bark, deserves particular attention because of its quick and vigorous develop-ment. In the oldest plantations formed in 1865-66, this variety has attained a height of three to five metres, with a circumference of trunk of 0.2 to 0.5. A correspondent of the South African Advertizer states that experimental plantations of Chinchona are being made at the Cape of Good Hope with trees received from St. Helena, where a planta-tion is being made by a gentleman sent out from Kew by the English Government. The species introduced there are as follows: C. Cuccirubra, C. Pahudiana, C. Calissya and C. Officinalis.

There can be but little doubt that some parts of the Malayan Peninsula would suit one or the other of the varieties, and who has now commenced the construction of a railway to Gunong Pulai, might hereafter find it to his advantage to form experimental plantations of Chinchona trees of various sorts on some of the highlands on the line of the works, with a view of selecting for after cultivation those which the climate and situation best suited. He would have a great advantage over any private planter, in so far that he could impose stringent rules keeping a gallant fire upon the troops

SPECIAL NOTICES.

SCHENCK'S PULMONIC

SYRLP, SEAWEED TONIC AND

MANDRAKE PILLS will cure Consumption.

Liver Complaint and Dyspepsis, if taken according to directions. They are all three to be taken at the same time. They cleanse the stoment, relax the livor apd put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in fiesh; the patient outgrows the disease and gets well. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivaled success in the treatment of pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the disease and gets well. This is the only way to cure consumption. The Pulmonic Syrup ripens the morbid matter in the disease and gets well. This is the condition, for when the philesm or matter is ripe a slight cough will shrow it off by an easy expectoration, for when the philesm or matter is ripe a slight cough will shrow it off by an easy expectoration, for when the philesm or matter is ripe a slight cough will shrow it off by an easy expectoration, for when the philesm of matter is ripe a slight cough will shrow it off by an easy expectoration, for when the philesm of matter is ripe a slight cough will shrow it off by an easy expectoration, for when the philesm of the stomach and liver, so that the Pulmonic Syrup and the lood will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calond (a deadly poison which is very dangerous to use unless with great care, this will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Compaint is one of the most prominent causes of Consumption.

Schenck's Reawed Tonic is a gentle stimulant and alterative. and the sikali in the Seaweed, which is preparation is made oi, assists the stomach

stomach to throw unit he gastric juice to dissolve the food with the raimonic syrup, and it is made into good bood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they five do too much; they give medicine to stop the cough, to stop chills, to stop derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, unless the liver and stomach are made healthy.

If a person has consumption, of course the ungs in some way are diseased, either tubercles, abcesses, bronchial irritation, pleura adhesion, or the lungs are a mass of infiniment and fast decaying. In such cases what must be done? It is not only the lungs sins wasting, but it is the whole body. The stomach and liver have lost their power to make blood out to fine stomach, which will bring up a tone of three medicines, which will bring up a tone to the store medicines, which will bring up a tone to the store consumption.

When there is no lung disease and only Liver Complaint and Dyspensia, Schenck's Seaweed Tonic and Mandrake Fills are sufficient, without the Pulmonic Syrup. Take the Mandrake Fills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all billious complaints, as they are berfectly harmless.
