FINANCE AND TRADE.

OFFICE OF PITTSBURGH GAZETTE, WEDNESDAY, December 29, 1869.

The tendency of gold, stocks and bonds was decidedly downward this morning, but the market was well sustained at noon, yielding, however, again at the close.

Gold opened at 119¾, and closed at 119¾. Coupons due January first are coming in very slowly, and disbursements by the Government do not much exceed three millions. What the effect of large disbursements must be can easily be calculated; and it should, surprise no one if gold would touch 117, or a lower point, after next Monday. Any material demand for greenbacks by the banks of New York for the South or West would force a large amount of gold on the market to realize the currency, and what a decline of one or two per cent. in the premium now means, nobody can tell better than the bank managers, who have all their surplus funds now invested on call loans.

Government securities were very weak early this morning, but gradually advanced about ¼ per cent., and closed dull and heavy at the former quotations, with large offers to sell at present prices. Lower gold means lower bonds, and those who need money or have opportunities to invest at high rates gladly avail themselves of present prices, and reinvest in something that will yield a larger percentage.

Stocks are dull, lower and heavy.

Money scarce at high rates. Business dull.

NEW YORK, December 29, 1869.

A rumor of the failure of a prominent iron foundry proves unfounded. A report of another bank defalcation is unauthenticated. Another rumor obtained currency that Treasury sales of gold will be continued during January on the same scale as during the present month, but lacks probability. All the markets are unsettled by rumors, and activity in money. The Treasury disbursed $1,150,000 to-day for January, interest, making $3,650,000 thus far.

The money market worked very stringent this afternoon, and 7 per cent. gold was the general rate for call loans, with exceptional transactions at 1-16 per cent. per diem. The process of calling in money by corporations to disburse in January is still going on, and is the main cause of the present activity in money. Prime discounts dull at 10@12 per cent. Sterling heavy and lower, 8¾ @8¾.

Gold lower; opened at 119¾, touched 120, and closed at 119¾.

Carrying rates 7 per cent. currency to gold, and 1 32 per cent. currency to gold, and 1-32 per cent.

Clearances $27,000,000.

Governments lower and weak. Coupons: 81s, 18¾@18¾; 62s, 12¾@12¾; 64s, 11¾@11¾; 65s, 11¾@12; new, 14¾@14¾; 67s, 14¾@14¾; 68s, 14¾@14¾. Ten-Forties, 8¾@8¾. Pacifics, 8¾@8¾.

The Sub-Treasurer bought $2,000,000 at 110 70-100@110 25-100.

Mining shares dull; Boston prices: Calumet, 60; Heola, 75; Quincy, 20.

Sub-Treasury balance, $8,738,452, including $7,753,850 currency. Rumors of a lock up of greenbacks are current.

The Treasurer of Illinois will be here to-morrow to pay the January interest on the State bonds, and to pay off the stock due at the end of the year.

PETROLEUM MARKET.

OFFICE OF PITTSBURGH GAZETTE, WEDNESDAY Dec 29, 1869.

The oil market was stronger to-day, particularly for crude on spot or seller this month, and refined, also, was a shade higher. As noted from day to day, for some time past, the trade generally is absorbed in making deliveries and settlements, and considerable complaint is being made in regard to the trouble and annoyance experienced therefrom. Two days more and the agony will be over; and it is to be hoped that the close of the year will wind up and close up for all time to come, the manner in which the oil business has been conducted in Pittsburgh during the past three months—this is the earnest desire of nearly every manufacturer and dealer in the business.

CRUDE.

Sales: 1,200 bbls spot at 16; 2,000 December at 16; 3,000 do at 16; 1,000 at 15¾, 1,000 spot at 16¼; and 1,000 each January to March at 13¼. January may be quoted at 12¾ bid and 13 asked—1,000 bbls sold last evening at 12¾. Late in the day 16¼ was bid for spot, and it is said there was an offer out at 16¾ for 5,000 bbls.

REFINED.

Market more active and prices a fraction higher. Sales 2,000 December at 29¾; 500 do at 29¾; 500 do at 29¾; 1,000 each January to March at 30¼; and 1,000 each February to March at 31. At the close 29¾ was bid for December, with but little offering.

PITTSBURGH MARKETS.

OFFICE OF PITTSBURGH GAZETTE, WEDNESDAY, Dec. 29, 1869.

The markets continue dull with no prospect of any immediate improvement within the next two weeks. The arrivals of flour, grain, and country produce generally, continue light, though the supply is fully up to the demand, while in regard to values there are no important changes. It is proper to remark, however, that hopes are entertained that business will improve after the holidays have passed, and the annual settlements effected, and it is earnestly hoped that these expectations will be fully realized.

RIVER NEWS.

The river has commenced to recede again, the Monongahela marks indicating 10 feet 10 inches last evening. Weather continues cloudy and cold; wind from the north-west, and mercury at 5 P. M., down to 35.

Business continues dull at the landing and it is not likely that there will be any immediate improvement.

Capt. Stockdale has received later advices from the boats he built here for South America. The Australia had made one trip from Barranquilla up the Magdalene river and brought down the largest cargo that ever reached this port. Her name has been changed to Bismark. The Barranquilla arrived at Barranquilla on the 9th of November in as good a condition as when she left here. It may, therefore, be set down as a fact that building boats here for South America is a success.

The Glasgow, from Nashville, arrived about noon yesterday, with an excellent trip, her guards almost dragging the water. She made the round trip in twenty-five days, and would have made it in much less time, had it not been for the strong current in the Ohio, and foggy weather. She will probably reload for Nashville.

The Nellie Rogers arrived from St. Louis on Tuesday night with a fair trip, including a considerable quantity of metal. As will be seen by card, she is announced for a return trip—Ghriest & Porter are her agents.

The Carrie V. Kountz will leave for New Orleans to-day, and shippers should bear this in mind. Capt. I. C. Vanhook is in command, with W. D. Rogers in the office.

The Belle arrived and departed, as usual, for Parkersburg.

The Glendale, Capt. Hare, is announced for St. Louis, forthwith. Messrs. Flack and Collingwood are her agents.

The Argosy, from Cincinnati, and Maggie Hays, from St Louis, were due last night and will probably be found in port this morning.

The Mary Davage departed for St. Louis this morning. She had a good trip, including some 300 barrels of refined oil, shipped by Livingston Bros.

Work is progressing rapidly on all the new boats in process of construction.

—The Vicksburg *Times* of the 23rd, says: We do not remember the time that so much freight has been at our levee as now. The Forsythe had to lay at the wharf some time before room could be made for her to unload, notwithstanding there were three wharf boats and piles of freight on the banks.

—A New Orleans dispatch of Monday, says: The Argosy left here Thursday for Cincinnati, but burst her steam pipe near Morganza, and seriously wounding two deck hand. The engineer came here for a new pipe. The boat will be delayed some days.

—Capt. R. D. Neal, of the Indiana, has received a dispatch from Capt. J. S. Neal, of the Richmond, dated New Orleans, December 27, saying he had saved Wild Wagoner, 1,600 bales of cotton, and would claim salvage. No particulars.

—The employees of the St. Louis & Peoria Packet Company on Friday evening, presented Captain E. A. Sheble with a magnificent solid silver coffee urn, sugar bowl and cream pitcher.

—The R. C. Gray arrived at Cairo on Monday from St. Louis, having fought her way through the ice. She reports having met the Kate Putnam at Grand Tower.

—The St. Charles broke her rudder on her recent down trip and was detained eight hours at Rome.

—The Camelia and St. Charles were advertised to leave Cincinnati for Pittsburgh on Tuesday.

—The Cumberland river was falling on Monday, with 18 feet on Harpeth Shoals.

—The Great Republic left Cairo for New Orleans on Monday with 1 500 tons.

SPECIAL NOTICES.

☞ CONSUMPTION.

DR. SCHENCK'S PULMONIC SYRUP for the cure of Coughs, Colds and Consumption.

DR. SCHENCK'S SEAWEED TONIC for the cure of Dyspepsia and all the Debilitated Conditions of the Stomach.

DR. SCHENCK'S MANDRAKE PILLS, for Diseases of the Liver or to act as a Gentle Purgative.

All of these three Medicines are often required in curing Consumption, though the Pulmonic Syrup alone has cured many desperate cases. The Seaweed Tonic and Mandrake Pills, assist in regulating the Stomach and Liver, and help the Pulmonic Syrup to digest and search through the blood vessels, by which means a cure is soon effected.

These Medicines are conscientiously offered to the Public as the only safe, certain and reliable remedy for Pulmonary Consumption, and for all those morbid conditions of the body which lead to that fatal disease. Liver Complaint and Dyspepsia are often forerunners of Consumption, and when they manifest themselves they require the most prompt attention.

The Pulmonic Syrup is a medicine which has had a long probation before the public. Its value has been proved by the thousand cures it has made through a period of more than thirty-five years, in all of which time its reputation has increased, and the most obstinate skepticism can no longer doubt that it is a remedy which may be used with confidence in all cases which admit of a cure.

If the patient will perseveringly follow the directions which accompany each bottle, he will certainly be cured, if his lungs are not too much wasted to make a cure possible. Even in cases supposed to be incurable, when friends and physicians have despaired, the use of this Medicine has saved the life of the patient, and restored him to perfect health.

Dr. Schenck does not say that all cases of Pulmonary Consumption are within the reach of medicine, but he emphatically asserts that often when patients have the most alarming symptoms, such as a violent cough, creeping chills, night sweats, general debility, even to such a degree that they are obliged to lie in bed, and when they are given up by their physician they may still be cured. No medical treatment can create new lungs, but when the lungs are very bad y diseased and to some extent destroyed, a cure may be effected by Dr. Schenck's medicines.

Also, in Scrofulous Diseases, these medicines are equally efficient. Dr. Schenck has photographs of a number of persons who have been nearly covered with running sores and now all healed up. This shows its purifying properties, which must be done to heal cavities in the lungs.

In the treatment of Consumption it is of the utmost importance to give vigor and a healthy tone to the system. Hence it is necessary to strengthen the appetite of the patient and improve the digestion. Proper nourishment is required together with such means as will make the food easily digestible. The articles most suitable for the diet of Consumptive patients are designated in Dr. Schenck's Almanacs, which are distributed gratuitously. In general, the most highly nutritious articles are to be preferred, but the digestive organs must be strengthened in order to make either food or medicine serviceable. This requirement is met by the Seaweed Tonic, and for this purpose it was designed.

When the digestive powers are put in good order, the food has its proper effect, the system of the patient is invigorated and the lungs begin to exercise their functions in a normal and healthy manner. Then the healing powers of Pulmonic Syrup will effect the cure.

Pulmonary Consumption is almost always complicated with Dyspepsia and Liver Complaint. Schenck's Mandrake Pills are intended to remove obstructions from the Liver and restore its healthy action. They have all the efficacy which is ascribed to calomel or "blue mass," and are warranted not to contain a particle of any mineral poison. These Pills cure the most obstinate costiveness, sick headache, piles, bilious affections, and all other diseases which arise from a torpid or obstructed condition of the Liver. One box of these pills will prove the efficacy of the medicine.

In Consumption the Sea Weed Tonic and Mandrake Pills are invaluable auxiliary medicines. They relieve the sufferings of the patient and assist the Pulmonic Syrup in effecting a cure. They have been found useful in advanced stages of Consumption, where the lungs are almost entirely destroyed and all symptoms according to the judgment of the physicians indicated speedy death. The lives of patients who were actually in a dying condition have been preserved for months by the use of Schenck's three great remedies.

Dr. Schenck's Almanac contains a full treatise on the various forms of disease, his mode of treatment, and general directions how to use his medicine, can be had gratis, or sent by mail by addressing his Principal Office, No. 15, North Sixth street, Philadelphia, Pa.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1,50 per bottle, or $7,50 a half dozen. Mandrake Pills 25 cents a box. For sale by all druggists. de27:d&f

HARVEY FISK. A. S. HATCH.

OFFICE OF FISK & HATCH, Bankers and Dealers in Government SECURITIES. No. 5 Nassau Street, N. Y. NOVEMBER 8, 1869.

To our Customers and Correspondents:

The surprising development of our national resources and the rapidity with which the Government is now enabled to reduce the national debt, by weekly purchases, render it apparent that the time is approaching when the Five-Twenty bonds may be funded at not over four or four and a half per cent. interest.

Meanwhile their high price, as compared with other classes of securities, paying an equal rate of interest, is leading to general inquiry for more profitable forms of investment in which money may be safely invested.

During the war the necessities and peril of the Government, and the consequent cheapness of its securities, rendered them so attractive that, from this cause, combined with the patriotic faith of the people in their safety, they absorbed almost the entire floating capital of the country, and diverted attention from other classes of securities which had been before deemed sufficiently conservative and sound to meet the wants of the most cautious investors.

The Government is no longer a borrower. It no longer needs the country's capital, but desires gratefully and honorably to repay it.

The rapid accumulation of capital for investment, and the reduction of the national debt and improvement of the national credit—rendering it certain that hereafter but a comparatively low rate of interest can be derived from investment in Government bonds—is compelling the search for other safe and well-guarded channels into which capital not employed in business may wisely flow.

The enterprises of Peace, no less needful in their time and place, for the common welfare, than were the waste and cost of War, now call for the capital which the Government no longer needs, and offer for it a remuneration which the Government need no longer pay, and in some cases a security as stable and enduring as the nation itself.

The desire to capitalize the premium which may now be realized upon Five-Twenty bonds, and which a material decline in Gold toward par, and the ability of the Government to fund them at a lower rate of interest, may at any time extinguish, is held by many holders who desire some satisfactory assurance as to which of the many low priced securities in the market would afford the necessary safety to justify an exchange.

The applications for information and advice which are addressed to us daily, show how universal is the desire for this assurance, as to what forms of investment more profitable than Government securities at present market rates, are entitled to the confidence of the investors.

The pressure of this want has led us to feel the importance of directing our own attention as bankers, our large experience and our facilities for obtaining reliable information—to the work of supplying it in some measure, and to offer the result of our inquiries to those who may be disposed to confide in our good faith and judgment.

We are unwilling to offer to our friends and the public anything which according to our best judgment is not as secure as the national obligations themselves, with which we have hitherto principally identified ourselves.

Since closing the GREAT CENTRAL PACIFIC RAILROAD LOAN, which meets all these requirements, we have carefully examined many others but have found no other which would fully do so, until the following was placed in our hands:

FIRST MORTGAGE Six Per Cent. Gold Bonds OF THE WESTERN PACIFIC R. R. CO. OF CALIFORNIA.

The Western Pacific Railroad connecting Sacramento with San Francisco, furnishes the final link in the extraordinary feat of an unbroken line of rail from the shore of the Atlantic to that of the Pacific.

It is 150 miles in length, including a short branch, and it will be the

METROPOLITAN LINE *Of the Pacific Coast,*

connecting its chief cities, and traversing the garden of the rich and growing State of California, receiving, in addition to an immense and lucrative local traffic, the through business over the Union and Central Pacific Railroads—between the Eastern States and Sacramento.

It is completed, fully equipped, and in successful operation, and its earnings in October, the first full month, amounted to $105,000 in coin. The net earnings will, by a moderate estimate, amount to $600,000 per annum, in coin, while the interest on its Bonds will be but $168,000.

The value of the property and franchises is not less than

Ten Millions of Dollars,

and the amount of the mortgage is

$2,800,000.

The Bonds are $1,000 each, have thirty years to run, and will be sold at

Ninety, and Accrued Interest,

in currency. They are made payable, PRINCIPAL AND INTEREST, IN GOLD COIN, in the city of New York. Coupons due January and July 1st.

The near approach of the time when the United States can probably fund the greater portion of its Six per cent. debt, is naturally causing inquiry for other forms of investment, which will afford satisfactory security with the same rate of interest. THE WESTERN PACIFIC RAILROAD FIRST MORTGAGE BONDS must have an immense advantage over all other securities based upon merely local or uncompleted railroad, and may be held with as much confidence as Government bond, or as first-class mortgages on New York City property.

The loan is small in amount. Its claims to confidence are apparent. It will be rapidly taken. Bonds will be delivered as the orders are received.

Government Bonds received at their full market value in exchange.

FISK & HATCH. BANKERS.

We buy and sell Government Bonds and receive the accounts of Banks, Bankers, Corporations and others, subject to check at sight, and allow interest on daily balances.
