A COMMITTEE was appointed by our reamtatives at Harrisburg to investi that corrupt means were employed to de feat the Philadelphia police police-hill.

This committee has done a very wise thing. Approaching the subject, memhear handling,—that the more it was stirred, the mere rank would be its offense. That ended the investigation!

in the Philadelphia Press of the 11th, that Missouri has only just ratified the two later amendments. It would have been as well to have added that these relate only to her State Constitution. She rati-fied the Federal Articles from one to two years since. Yet the Press finds comfort, even in its error as follows:

The appropriation bill, as passed by the House, may be—should be—cut down in many items, not only to the public advantage, but in obedience to an impera tive necessity. The citizens of Allegheny county will not fail to appreciate a vigi-last determination to economics that the policy which saves at the spigot while the barrel is fast emplying itself the bung hole, does not promise unusual benefits to the public. But, then every little helps, and it is barely possible th we may yet continue to make both end provided those who have remove the bung do not go farther and stave in

I regret very much the condition of affairs in the State of Tennessee, and will do my best to check these outrages Tennessee is a State in the Union, and will do my set to date in the Union, and I have no right to take presented of her tearliery with troops. I will take the whole matter into consideration, however. We have troops to spars, and I will see if we cannot send them throughout the State, so as to have a moral effect, at least, and also to aid the United States Marshal and his deputies in carrying out the laws of the General Government and the decrees of the United States Court. As to the XVth amendment, I am sure its provisions will be carried out in every State, as Congress is now engaged in preparing a law for that purpose. I will certainly give this matter due attention, and will consuit with the Secretary of War, and see what can be done.
