Gold was more steady to-day, recovering from the lowest quotation of Saturday, 111¾, to 111¾@111⅞, but there is no decided tendency of the market yet The announcement of the Treasury sale of only two millions gold during April, and the purchase of same amount in bonds, checked the downward tendency and a slight reaction to a point between 112 and 113 may follow, but before May next it can hardly be expected that the market will assume a stronger tone.

Government bonds were likewise steadier on the improved gold quotations but closed quiet.

Stocks show remarkable weakness in New York Central and its dependencies, but the miscellaneous shares and Reading were stronger on account of the large short interest created lately.—The tendency of the whole stock market is for lower quotations.

Money easy at 7 to 8 per cent. Business dull.

NEW YORK, March 28, 1870.

The money market retains the late features of extreme ease. Some moderate amounts of currency are going to cities of adjoining States in preparation for the April settlements, but remittances have no effect upon this market. Brokers are freely supplied at 4@5 per cent. The following is the programme of the Treasury for April: Sales of gold for April 6th, one million sinking fund; April 20th, one million sinking fund; April 30th, one million sinking fund. Bond purchases: April 7th, one million; April 13th, one million, sinking fund; April 21st, one million; April 27th, one million, sinking fund. The announcement of the above had no perceptible effect on the different markets. Short interest in gold appears to have been covered to some extent, and the lending rate has advanced from flat at close on Saturday to 2@4 per cent.

A gentleman was robbed in the gallery of the gold room to-day of $4,500 in Government bonds, and a broker's boy has disappeared with $1,000 belonging to his employer.

NEW YORK, March 28—A total of 6,703 cattle more than supplies; past deficiencies existing high; prices are not reduced, but the 82 cars at One Hundred and Forty-second street, and 78 cars at Communipaw, with 57 at Weehawken, or 4,600 cattle all told, prove more than luncheon want at the old rate, and concessions must be made before they are closed out. PITTSBURGH MARKET.

OFFICE OF PITTSBURGH GAZETTE, } MONDAY, March 28, 1870.

The markets, in a general way, present nothing really new or important. Some few articles in consequence of a temporary scarcity, are firmer and higher, but as a general thing, our markets are well supplied with all of the leading commodities, and buyers, especially cash buyers, have no difficulty in getting anything they want, and that, too, at low prices. There seems to be an almost entire absence of anything like a speculative feeling and the demand for almost everything is restricted to supplying immediate wants, as buyers, generally, manifest a disposition to carry just as little stock as possible, being apprehensive of a still further shrinkage in values.

APPLES—The market is quiet and unchanged; sales at $2,50@2,50.

APPLE BUTTER—Sales at 6@6½c.

ASHES—Quiet and unchanged. Common Pearls 6@6½; Pots 7½.

BUTTER—Prime to choice roll is in fair demand, with sales at 30@35, while common truck is very abundant and very dull.

BEANS—May be quoted at $1,35@2,25, the outside figures for choice navy—but few sales above $2.

BUCKWHEAT FLOUR—Nominal, 3c.

CARBON OIL—Is quiet and unchanged; 23@25c in jobbing lots, and 27@30c in retail way.

CRANBERRIES—Market almost bare. Sackett's Red Berries quoted at $20, while prime cooper clam can be laid down here under $23@24.

CHEESE—Is in better supply and easier. New York factories 12½@13c do, 13@13½; Reserve, 13½; Hamburg, 10½; Western Reserve, 10.

DRIED FRUIT—Continues very sluggish and the market is completely glutted. We continue to quote apples at 3½@3¾c. Peaches at 7¾@8¾c for quarters; 9@10c for halves, and 16@20c for pared. Blackberries at 12@13c, and pitted cherries at 22@24c.

EGGS—Dull, under a flavors of increased arrivals and prices are tending downward. We now give 25c as the market.

FLOUR—Market steady but unchanged. We continue to quote western flour, in store, at $5@5¼ for spring; $5¼ @5½ for winter, and $7,50@8 for fancy brands. Rye Flour at $5.

GRAIN—There is no change in Wheat, and the clearings continue light $1,10@ 1,14 as to quality. Oats firmer but no change of dealers, buying at 43@44c, and selling at 45@48c; sale 1 car to 40 to Philadelphia, at 46c. Rye is in fair demand, at 80@83 in bran, and 83 in second —offerings in this market light and the stock is pretty well reduced. Corn also, is stronger, and with a light supply and limited arrivals, prices are looking up; we now quote at 70@72c buying and 75@78 selling—sale 2 car load last week at 73. Barley is in rather better demand with sales of prime to choice spring, at 85@87c.

HAY—Baled hay is being sold on wharf at $16@18.

HUSKS—24@27.

HOMINY—$3,75@6 per bbl.

PROVISIONS—Market is steadier but not quotably higher as yet Pain Shoulders, 12; Sugar Cured do, 12; Ribbed Sides, 12½@13½; Clear do, 16@ 16½; Sugar Cured Hams, 17½@18½. Lard, 14½ in tierces and 15½ in buckets. Dried Beef, 19.

The number of cattle on sale to-day, was again light this week, unusually so, only 620 head, and, notwithstanding the number was much smaller than usual there were fewer good cattle on sale than last week As already intimated, all kinds of stock were scarce, but No. 1 butchers stock was unusually so, and we doubt whether there was enough of the grade on sale to supply demand. This being the case, the best people of cattle brought the highest prices, but the market was sluggish, and apparently unsatisfactory, butchers generally buying from compulsion merely, rather than choice, being obliged to keep up their trade whether it pays or not Drovers, as was the case last week, and in fact for several weeks, complained that the market, notwithstanding prices were higher, was a hard one, that they made little or no money, and that they took the luxuries kept pushing on because they were obliged to do so, barring to keep their customers supplied, and if they did not make anything by it.

The fact is, operators generally are "shearish," and the feeling seems to be pretty good that prices are too high. It is urged that the present prices cannot long be sustained, that stock is much higher relatively than anything else, and will have to shrink. It is only a question of time. It is this that makes the markets so slow and sluggish, a want of confidence on the part of operators, and until confidence has, to some extent at least, been restored, it is not likely that there will be any material improvement. There were two or three western buyers in attendance to day, but they did not buy, being unable to pay the prices, and besides, there was scarcely enough to supply the local trade.

Sales, such as are usually bought by the best butchers, sold at 8@8½, and even 8½, and some few fancy steers and up to 9 cents; fair to good 7@7½; Butchers paying the outside figure for a very fine bullock. Medium steers may be quoted at 7@7½, and stock steers at 5@6, as to quality and condition.

S. Trauenstine 40 head fat cattle, at 6½ @7 80; stockers at 6.

Trauman & Lobman 61, fat cattle at 7@8, stockers at 5½.

P. Hartman 17 head good to prime steers, at 7½@8.

Rothchilds & Zeigler 38 head, sold 37 at 7@8; 1 extra fine bullock, weighing 1,800 to J. F. Robinson, at 8½.

M. Varner sold 35 head of good to prime fat steers, 7½@8.

Jacob Naedy 82 head of good to fancy steers, at 7@8½.

Sol Shamberg 17 good to extra Western steers, at 7½@8.

Katz & Keefer sold 23 head Chicago steers, at 7½@8.

Hazlewood & Blackstock Illinois and Missouri stock, at 6@8.

S. Marks & Bro. 88 head, all from Chicago, at 6½@8½.

Emerick & Co. sold 8 head for Coldren, from Stark Co. Ohio.

Jas. Mullheer 35 head of commonish stock, at 6@7½.

Holmes, Lafferty & Co. 17 head commonish steers, at 5½@7.50.

Nicholas Carr sold common to fairish Western steers, at 5½@7½.

Trauman & Lobman 52 from Chicago and Ohio at 7.7@9 cts

L. & J. Shamberg 53 head, all from Chicago, and all good, sold at 6@8¾.

Greenwald & Kahn 75 head of fat cattle, at 7@8.10 Stockers 5½.

SHEEP.

The supply of sheep, although a little larger than that of last week, was again small and scarcely equal to the demand, about 600 head. Of this number the largest proportion, were of the better grades, there being but few scalawags, and, as might be expected, all kinds brought very full prices, good 80 to 91 pound averages sold at 6½@7c, and low to 115 averages, at 7½@7¾c. It is true these are big prices, but some of our buyers must have mutton, no matter what it costs, and holders of the better grades realizing that the supply was small, squeezed all they could out of their victims.

J. S. McMillen retailed 60 averaging 85 to 91 lbs, at an average of 6½.

Stacey Bros. sold 69 head of the best in market, averaging 113 to 114 lbs, at an average of 8¾.

Adam Eckert bought 72 scalawags at $2 per head, and subsequently sold the lot at $2 profit.

M. G. Baighley sold 33 commonish at $3,50 per head

Brown Bros sold 300 head of fair to fairish sheep, at $4,75 per head.

Stouffer sold 50 at $2,25@3 per head; 25 head extra which he held at $3 per pound.

Yohe & Hirst sold 81 head good to fair sheep on Tuesday at 6c per pound.

P. Shoemaker sold 23 head averaging 110 lbs at 7½.

HOGS.

Market quiet with a fair local demand, but unchanged in prices. Sales in a retail way at 8½@8½, gross, for fair to prime averages.

Barrick & Co. bought a single deck from Shoemaker & Co. at 9.65, and a small month from another party at 9.25.

Jacob Naedy wholesaled a car load to J. Rothschilds.

PETROLEUM MARKET.

OFFICE OF PITTSBURGH GAZETTE, } MONDAY, March 28, 1870

The oil market was weak and dull today, and compared with Saturday refined has still further declined. There were plenty of offers to sell to-day at a cheap declines as compared with Friday and Saturday, but there seems to be no buyers even at the reduction. As is nearly always the case, it is almost impossible to sell on a declining market; the fact it takes a turn upward and there are plenty of buyers, and but few sellers. Even now the impression prevails that oil is cheap, and that there is not much risk in "speculating" at present prices. But after last year's experience, operators generally are very timid about going either long or short, and manufacturers are disposed to do a legitimate business.

RIVER NEWS.

The river has been rising steadily during the past twenty four hours and was still swelling last evening, with every appearance of a flood. Both the Allegheny and Monongahela rivers are rising at their headwaters, from which it is evident that the recent rains have been general. Yesterday the weather was cloudy and raw, with mixture of rain and sleet falling nearly all day. Mercury in evening 37 and falling.

A large number of tow boats were getting their tows ready and making preparations to depart as soon as possible. Some of them will get off to-day.

The Phil. Sheridan arrived at Cincinnati, and the Glasgow, from New Orleans, left there for Pittsburgh.

The tow boat Mary Allen sunk three miles of coal below Louisville, on Thursday last. Loss estimated at $10,000.

The Arlington arrived from Cincinnati about 12 o'clock yesterday, with a good trip, and will return again to-day at 12 o'clock. Although not yet two months old she has already attained quite a reputation in the Cincinnati trade, and the fact that she can make the time and transport a heavy way business speaks well for her speed.

The Fair Weather, Capt. Coulson, will positively depart for the Cincinnati and Intermediate ports this afternoon at 4 o'clock. Her commodious cabin and unsurpassed table will make her a favorite with the traveling public. Those contemplating a trip down the river will find it to their interest to call on the clerk, Mr. Schenck, for state rooms, &c. Mr. Schenck's character, which is well known to all, is a guarantee that no pains will be spared to render the passage pleasant.

The Wild Duck, Capt. Anawalt, is announced for St. Louis forthwith, and shippers should bear this in mind.

The Jule No. 2 arrived from Zanesville, and the Bolle departed for Wheeling.

—The steamer Rob Roy in passing through the draw of the railroad bridge at Sydney, Illinois, on Sunday morning, on her way to Keokuk, struck the ice breaker, carrying away her larboard wheel, blacksmith shop, pantry and lower guards. The boat became immediately powerless, and had not the officers at once sent lawyers ashore and secured the loan, she would in a few minutes have been beyond all hope of saving, as she would have floated under the bridge, which would have crushed her to stick immediately, and probably every passenger on board would have been lost. A general stampede occurred as soon as she struck, and it required great exertions on the part of the officers to prevent ladies and gentlemen from jumping overboard. The boat was not otherwise injured and left in the evening for St. Louis to be repaired.

SPECIAL NOTICES.

☞ CONSUMPTION.

DR. SCHENCK'S PULMONIC SYRUP, SEAweed Tonic and Mandrake Pills, are a complete antidote for Consumption, Dyspepsia and all the Pulmonic and Liver Complaints.

DR. SCHENCK'S MANDRAKE PILLS, to be taken with the Pulmonic Syrup and Seaweed Tonic, to clear the way for the action of the Pulmonic Medicines, are often required to prepare the system for a perfect cure. Many of these three Medicines are often required to effect a cure of Consumption. Though the Pulmonic Syrup is the great remedy for the cure of Consumption, yet the Seaweed Tonic and Mandrake Pills, assist in the cure, and are necessary in many cases to be first taken to purify the blood, liver and stomach, previous to using the Pulmonic Syrup, or in other words, to prepare the system for the Pulmonic Syrup.

Medicines are constantly offered to the Public as the only correct and reliable cure for Consumption, when they do not contain one of the ingredients necessary for the cure of the disease, and which invariably establishes the fact in the mind of the sick that the remedy is deficient in the principal element necessary for the cure of Consumption.

Dr. Schenck's Medicines are often required to effect a cure of Consumption. Though the Pulmonic Syrup has never failed in the thousand cases in which it has been used, and many of these cases had been given up by the doctors as incurable, yet it requires the aid of the Seaweed Tonic and Mandrake Pills, to act in connection with the Pulmonic Syrup, to make a perfect cure in all cases which submit to the use of medicine.

Dr. Schenck does not say that all cases of Pulmonic Consumption can be cured, for he has frequently said that they are considered by him as incurable after the lungs are half consumed away, and the system has become reduced so low as to be unable to rally. Decline, cold, night sweats, hectic fever, &c., indicate to the patient that they are oblig d to lie in bed, and when they have reached this point, they generally have to die. No medicine known can create new lungs for the sick, but nevertheless many are restored and to some extent strengthened, and a cure may be effected, even after the lungs are half consumed away.

Also, in Scrofula or Kings Evil, or any cutaneous eruption, Dr. Schenck has been the means in the hands of the Great Physician, of curing thousands of persons who have been afflicted with terrible sores and running ulcers, for many years, which in many properties, have become so deep seated that they are considered to be in bed, and when the patient has become reduced so low as to be unable to rally sufficiently. The articles must be taken with the Pulmonic Syrup, and in many cases, a thorough course of Dr. Schenck's Alterative, which is a powerful purifier of the blood, and the most powerful mercurial medicine known to the profession, and the Mandrake Pills are to be prescribed, as the alterative requires regular and in order to make either Seaweed or Mandrake Pills act in connection with the Pulmonic Syrup, and Alterative, as the case may require, and for this purpose it was discovered.

When the digestive powers are put in good order, and the liver is properly set to work by the use of the above medicines, the patient is fortified against the inclemencies of the weather, and can breathe a pure atmosphere without danger. Then the healing powers of nature can throw off the disease.

Pulmonic Consumption is almost always considered incurable by the doctors, and Dr. Schenck's Mandrake Pills are intended to remove the obstructions that prevent the liver from healthy action. They have all the efficacy which is ascribed to calomel or blue mass, and are entirely free from the former's mercurial poison. These Pills cure the most obstinate cases of dyspepsia, sick headache, piles, bilious colic, and all other diseases which arise from a torpid or confined liver. Full directions, how to use these pills will prove the efficacy of the medicines.

In Consumption on the Sea Weed Tonic and Mandrake Pills, and the Pulmonic Syrup, and they relieve the cough. If the cough or any other symptom should not disappear, it is because the liver has not been made to act sufficiently freely by the Mandrake Pills, and when this is the case, the Seaweed Tonic and Alterative must be used in connection with the Mandrake Pills, and the Pulmonic Syrup. Full directions for the use of these medicines are given with each package.

Dr. Schenck's Almanac contains a full treatise on the various forms of disease to which we are subject, and general directions how to take the medicines. Price of the Almanac 25 cents. Addressing his Principal Office, No. 18, North Sixth street, Philadelphia.

Price of the Pulmonic Syrup, $1,50 per bottle or $7,50 a half dozen. Seaweed Tonic, $1,50 per package. Mandrake Pills 25 cents a box. For sale by all Druggists.

Dr. Schenck is professionally at his principal office, No. 18, North Sixth street, Philadelphia, every Saturday. No charge for advice.
