southern and southwestern Minnesots to this point, in order to get to the seaboard by water, and thus save to the producer the immense per centage the water and rail freights. It may not be so well known, but it is nevertheless a fact, that and rail freights. It may not be so weil known, but it is nevertheless a fact, that Duluth will be the eastern terminus of the great Northern Pacific Railroad, and will thus be the point of transhipment of the products of western and northwestern Minnesota, Dakota, Montans; Idahoo, and even Oregon and Washington Territories. When it is remembered that the area of country which, by these two roads alone is made tributary to Duluth, is to times greater in extent that is now

MOER than 4,990,000 evergreens are to be shipped this spring from Sturgeon Bay, Wisconsin. eastern and a se favored localities, it will, I not be sarprising if within the next twenty-I five years, Doluth should attain a position second to none of our large Lake Cities. It may look a "little previous" to proclaim so fair a deatlny, but those who ajoracquainted with the facts will endorse all I have written. Never has a city started under brighter auspices, or been "backed" by so much capital. One hundred millions of dollars say Duluth will be a large city, for more than that is interested in building the two railroads that will make this their "head centre." I and among the subscribers are to be found the heaviest capitalists in the country. A year ago this was a forest, now it is a city year ago this was a forest, now it is a city that will make this their "head centre," and among the subscribers are to be found the heaviest capitalists in the country. A year ago this was a forest, now it is a city of 2,500 this was a forest, now it is a city of 2,500 this busins, and scores arriving by every vessel, and the cry is, "still they come." To all who are thinking of locating here, I would say "come now; properly will never be cheaper, and labor of all kinds is in very great demand. We want carpenters, builders, business, haborers, menof every employed, and business, haborers, menof every employed, and profession, to make this their. The Science of the control machinists, laborers, meaning the market this them ment and profession, to make this them home, and grow and prosper with the place. To those who wish to invest, I would say "invest now;" real estate is advancing-every week rapidly, and men who one year ago would not have given one dollar, are now scrambling for the chance of investing one hundred and forty-one thousand dollars per foot front in lots near the dollars per foot front in lots near the dollars per foot front in lots near the fight were at first the noses, but as the market of the eyes began to protry

from that city to St. Louis.

IN California they are erecting an eventhquake-proof church, the roof so arranged on pillars that a disturbance of the earth will tilt the whole atructure clear of the foundations, assuring the safety of the congregation.

THE average annual production of beer in England is 25,000,000 barrels, of which four-fifths are consumed at home. In Batvaria a workman's daily ration of beer is seven quarts. In Vienna the consumption, per capita, is two and a half barrels yearly.
