PITTSBURGH IRON MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, } FRIDAY, July 1, 1870 {

The Iron market is devoid of anything specially new or important. There is a fair business in metal for the season, but prices are very low and it said, and we have no doubt it is true, that the furnace men are making no money; already some of them have been stopped and unless there is an improvement in prices soon, of which there is not much prospect now, it is highly probable, that, the great majority of the furnaces will go out of blast within the next few weeks. And it is probable that the majority of the mills will suspend operations between now and the 1st August, as is usually the case, to take stock and make repairs. Upon the whole, however, business is about as good as it usually is at this season of the year, though nothing to brag of.

PETROLEUM MARKET.

OFFICE OF PITTSBURGH GAZETTE, } FRIDAY, July 1, 1870.

The oil market was very quiet to-day, the excitement which prevailed yesterday in consequence of an apprehended corner having subsided, and there is now, seemingly nothing to disturb the monotony which has prevailed in the oil business for several months. There is some little inquiry for both crude and refined, and mainly for early months, but the figures offered are not big enough to please our refiners, and consequently, we have but few sales to report.

CRUDE.

Sale of 1,000 bbls Parker, seller 30 days, at 11¾; and 1,000 bbls (40 to 46 gravity) 11¾. This last sale, it is but proper to remark, was made under peculiar circumstances, and, therefore, 11¾ cannot fairly be regarded as the market price for spot oil—11¼ would probably be nearer the market.

REFINED.

July is quoted at 27 for first, and 27¼ for last half—sale 500 bbls, first half, at 27. August and September, 27¼. There were sales of some 8,000 bbls spot oil in Philadelphia last night at 28c.

RECEIPTS CRUDE OIL.

Bly & Co 80, on account S Adams; Excelsor Oil Co 172, on account Thos Chess; Brilliant Oil Works 236, on account Lockhart, F. & Co; A. B. Mills 80, on account W. T. Bertle.

Total ..... 2,217 bbls.

OIL SHIPPED EAST FROM TIDEWATER DEPOT: Hutchinson Oil Refining Co. 250 bbls refined to Warden, Frew & Co., Philadelphia.

WOOL ITEMS.

The wool market in Harrison county continues extremely dull. Probably about 75,000 pounds have been sold, and 825,000 pounds remain unsold. Buyers are still offering 50c. We have heard of a few clips selling at 41¾@42c.—*Cadiz (O.) Republican.*

The local trade in wool is quiet, with light receipts. Prices are unchanged at 29@30c for unwashed, and 32@40c for fleece-washed wool per pound. Woolens are dull, with the exception of yarns, in which there is some activity.—*Springfield (O.) Republic.*

Col. Asa Manchester, of Independence township, one of the extensive wool growers of this county, sold the clip of wool recently to Samuel George, Esq., of Wellsburg, West Va., at 45 cents per pound. The Steubenville Herald says that Wm. Leggitt and a Mr. Dinsmore, of this county, have likewise disposed of their clips at 50 cents per pound, on a yield of twelve months without interest.—*Washington (Pa.) Reporter.*

Live Stock Markets.

NEW YORK, July 1.—Beeves count 850 today, making 5,400 for the week. A fair demand for good cattle at full rates, but most of the stock was too poor to sell well; prices unchanged at 8¾@9¾c; 82 mean 4 cwt. Texas sold at 8½@9c; 50 good 5¾ cwt Illinois steers at 10¾@10¾c, with a car of 6 cwt Ohio at 11c, 57 lbs per cwt. Sheep 2,500 to-day, making 15,900 for the week. Trade very slow and many are unsold. Fat sheep unchanged, with sales at 6¾@7c. Lambs much lower, western 8@11c, and State and extra Jersey 10@13c. A car of 80 lbs Ohio sheep sold at 9½c; some Indiana 90 lbs poor at 4½c, a few 103 lbs State at 11c. Hogs have fallen to 10¼@10¾c for dressed, with only 5 cars to-day and 12,500 for the week. The high price of ice makes a cheapness for hogs.

PITTSBURGH MARKET.

OFFICE OF PITTSBURGH GAZETTE, } FRIDAY, July 1, 1870. {

For several years past Chicago has been regarded as the leading grain market in this country, with the exception only of New York; and now she is endeavoring to control New York instead of being subject to that place, as heretofore, in other words, she is making an effort to take the lead, and is very desirous of leaving New York behind. Chicago led in the recent upward and also downward movement in grain, and the eyes of operators in every commercial city were turned to that place, and every market followed the Chicago market up or down. The New York *World* acknowledges the supremacy and influence of Chicago in this particular case when it says:

"The export of grain has been checked by the rapidity with which speculators here and in the West have run up prices beyond the limits which Europe can afford to buy in competition with the other grain markets of the world. The Chicago bankers have determined so far as they are concerned, to check this speculative evil of forestalling the market, by refusing to make discount grain paper maturing beyond July. 1. If the speculators can obtain facilities to carry the grain they hold at present prices, then the chances are that Europe will buy in other markets, and the United States will lose the sales of a large amount of grain. The country will be injured thereby. These grain speculators must bear in mind that Europe always exaggerates in the calculations of expected short crops in order to attract speculative shipments, so as to have large stocks of grain in its ports. The result generally is that the highest prices are realized before the harvest is half in; and afterwards come a breakdown, which ruins speculators. It is estimated that this action of the Chicago bankers will enforce sales of about 1,000,000 bushels. In the end the speculators will realize more than if they were enabled to carry out their own views. In other word, this action of the Chicago banks will add to the wealth of the country in increasing the quantity of grain, and also by saving speculators from heavy losses and perhaps ruin."
