

THE DAILY GAZETTE

OFFICIAL PAPER OF Pittsburgh, Allegheny City and Allegheny County.

GAZETTE BUILDING: Corner of Fifth Avenue and North Second Street.

TUESDAY, JULY 26, 1870.

PETROLEUM at Antwerp 60.

Boxes at Franklin 24000.

Costs closed in New York yesterday at 100@105.

It is again announced that French procreants will be withdrawn from Rome.

If the Commercial Tribune is to be dignified in its conduct in the character of a newspaper in this country, it should be allowed to be a large and a very valuable one.

The Pittsburgh Gazette, in its frantic efforts to hold the truth, has been a regular (and) Republican ticket, has actually had in its columns the colors of the Fifteenth Amendment.

Does the Editor of the Post still believe in the truth of the story which he has published of anything equal to the above, and he did the next day with the black marks.

The people on this side of the water are growing impatient of the attitude of the British. Inasmuch as the first treaty meeting of the grand armies may possibly delay the contest, the opposing forces will not wait for the British.

The Press Association of Texas, anxious to correct such erroneous impressions as may be given, regarding the State and her people, and recognizing the fact that the most serious and dangerous error has been committed, has determined to issue a circular.

The Press Association of Texas, anxious to correct such erroneous impressions as may be given, regarding the State and her people, and recognizing the fact that the most serious and dangerous error has been committed, has determined to issue a circular.

CITY TREASURER CHAS. YESTERDAY complied with the Court's mandate requiring him to place at designated depositories at interest the city funds in his possession. He has deposited at each of the three banks elected to receive them the sum of \$97,000.20, making a total of \$291,000.87.

INTERNATIONAL LAW. It is the duty of the governments of the world to establish principles of international law which can be made universal in their application.

NAVIGATOR was interviewed. That notable fellow, the inventor, has found his way into the august presence of the Emperor and presented him with a statement on the progress of his work.

ECONOMY in fuel has for some time been an interesting study and problem to the scientific. About the many coal mines of Pennsylvania there are scattered millions and millions of tons of coal dust and screenings, and it is baffled the material.

DEFUNCT. We are sure that our readers do not require any corroboration from us of the statement which we have frequently made in these columns, that the "new party," if ever it had life, is now defunct.

It is gratifying to observe that this movement is not proceeding in our own country for the people of Illinois have recently adopted the organic law of that State, and that the representatives of that State in the Congress are not only in the majority, but also in the majority of the House of Representatives.

It is gratifying to observe that this movement is not proceeding in our own country for the people of Illinois have recently adopted the organic law of that State, and that the representatives of that State in the Congress are not only in the majority, but also in the majority of the House of Representatives.
