

Jealousy and Revenge.

Andrew J. Morrison shot his wife Fanny and a dry goods clerk named W. H. Hester, in Washington, on Wednesday afternoon the 15th inst., under peculiar circumstances. There are various conflicting accounts; the more reliable are that Morrison—who had been married about six months to a very young and handsome woman—suspecting improper familiarity, told her that he should leave town that afternoon. She immediately notified Hester of her husband's supposed absence, and Hester subsequently called on her at her lodgings on Pennsylvania avenue; Morrison meanwhile having watched their movements, sprang suddenly upon them, and finding them in his chamber, both en *habille*, instantly drew a revolver and fired three or four shots, one of which passed thro' Hester's body, endangering his life, and another passed through the arm and side of his wife, wounding her seriously, but not dangerously. Morrison immediately gave himself up to the authorities, and was committed. Hester being informed by his physician that he might not survive but a few minutes, made a statement to Capt. Goddard to the effect that he had had no criminal intercourse—but failed fully to account for being caught in such a predicament.

Next day the ball was extracted from Hester's body, and there was, at the last information from Washington, a probability of his recovery.

Later accounts say that Hester was struck at the first fire, the second missed him, and the third took effect on Mrs. Morrison, the pistol being aimed directly at her. It was then snapped at him when he grappled with Mr. Morrison, and turned the direction of the weapon. He does not know whether Mr. Morrison, fired through the window or not. With regard to being discovered without his pants, he thinks he requested the first person who came into his room immediately after the shooting, to loose them, or take them off, as they were too tight, feeling as if he were dying.

The Bath, Me., *Mirror* says that the fields round about the said city are drying up and suffering sadly for rain, and that the crops will be stunted unless rain comes soon.

During the last twelve months, the population of Hoboken has increased 1,366, and that of Jersey City about 2,500.

DR. J. LANTZ, DENTIST.

Has permanently located himself in Stroudsburg, and moved his office next door to Dr. S. Walton, and nearly opposite S. Melick's Jewelry store, where he is fully prepared to treat the natural teeth, and also to insert incorruptible artificial teeth on pivot and plate, in the latest and most improved manner. Most persons know the danger and folly of trusting their work to the ignorant as well as the traveling dentist. It matters not how much experience a dentist may have, he is liable to have some failures out of a number of cases, and if the dentist lives at a distance, it is frequently put off until it is too late to save the tooth or teeth as it may be, otherwise the inconvenience and trouble of going so far.—Hence the necessity of obtaining the services of a dentist near home. All work warranted.

\$500 CHALLENGE.

Whatever concerns the happiness and health of a people is at all times of the most valuable importance. I take it for granted that every person will do all in their power, to save the lives of their children, and that every person will endeavor to promote their own health at all sacrifices. I feel it to be my duty to solemnly assure you that worms according to the opinion of the most celebrated Physicians, are the primary causes of a large majority of diseases to which children and adults are liable; if you have an appetite continually chargeable from one kind of food to another, Bad Breath, Pain in the Stomach, Pickling at the Nose, Hardness and Fullness of the Belly, Dry Cough, Slow Fever, Pulse Irregular—remember that all these denote worms, and you should at once apply the remedy!

Hobensack's Worm Syrup.

An article founded upon Scientific Principles, and compounded with purely vegetable substances, being perfectly safe, when taken, &c. can be given to the most tender Infant with decided beneficial effect, where Bowel Complaints and Diarrhea have made them weak and debilitated, the Tonic properties of my Worm Syrup are such, that it stands with, out an equal in the catalogue of medicines, in giving tone and strength to the Stomach which makes it an infallible remedy for those afflicted with Dyspepsia, the astonishing cures performed by this Syrup after Physicians have failed, is the best evidence of its superior efficacy over all others.

The Tape Worm!

This is the most difficult Worm to destroy of all that infest the human system.—It grows to an almost indefinite length, becoming so coiled and fastened in the Intestines and Stomach affecting the health so sadly, as to cause St. Vitus's dance, Fits, &c. that those afflicted seldom if ever suspect that those afflicted seldom if ever suspect that it is Tape Worm hastening them to an early grave. In order to destroy this Worm a very energetic treatment must be pursued, it would therefore be proper to take 6 or 8 of my Liver Pills so as to remove all obstructions, that the Worm Syrup may act directly upon the Worm which must be taken in doses of 2 Table spoon's full 3 times a day, these directions followed, have never been known to fail in curing the most obstinate case of Tape Worm.

Hobensack's Liver Pills.

No part of man is more liable to disease than the Liver, it serving as a filter to purify the blood, or giving the proper secretion to the bile, so that any wrong action of the Liver affects the other important parts of the system, and results variously, in Liver Complaint, Jaundice, Dyspepsia, &c.—We should, therefore, watch every symptom that might indicate a wrong action of the Liver. These Pills being composed of Roots and Plants furnished by nature to heal the sick; namely Ict, An Expectorative, which augments the secretion from the Pulmonary mucous membrane, or promotes the discharge of secreted matter. 2d, An Alterative, which charges in some explicable and insensible manner, the certain morbid action of the system. 3d, A Tonic, which gives tone and strength to the nervous system, removing the debility to all parts of the body. 4th, A Cathartic, which acts in perfect harmony with the other ingredients, and operating on the Bowels, and expelling the whole mass of corrupt and vitiated matter, and purifying the Blood, which destroys disease and restores health.

To Females.

You will find these Pills an invaluable medicine in many complaints to which you are subject. In obstructions either total or partial, they have been found of inestimable benefit, restoring their fractional arrangements to a healthy action, purifying the blood and other fluids so effectually to put to flight all complaints which may arise from female irregularities, as head ache, giddiness, dimness of sight, pain in the side, back, &c.

None genuine unless signed J. N. Hobensack, all others being base imitations.

Grand Literary and Artistic Combination.

Arrangements have been made to furnish the Knickerbocker Magazine, the Home Journal, and the New York Musical World and Times, to new subscribers, for five dollars a year! This is cheap literature, with a vengeance. The Knickerbocker is \$3 per annum; the Home Journal, \$2; and the Musical World and Times, \$3; making \$8 a year at the usual rates. That three such works can be obtained for five dollars a year, is a fact truly worthy the Caloric age, which is just now being ushered in. Of the Knickerbocker Magazine, edited by Lewis Gaylord Clark, it is unnecessary to speak.—For twenty years it has been the most general, humorous, and spicy "monthly" in the world; and the present volume will be better than any which preceded it. The Home Journal, edited by Geo. P. Morris, and N. P. Willis, is well known as the best family newspaper in America; and the Musical World and Times, edited by Richard Storrs Willis, with Lowell Mason, Geo. H. Curtis, Thomas Hastings, Wm. P. Bradbury, Geo. F. Root, and other musical writers contributing; and which gives, among other things, over \$25 worth of music and a full course of instruction in harmony annually, is the very best musical journal ever published. These three publications will post a family up in regard to nearly everything worth knowing—Art, Science, Literature, Music, Painting, Sculpture, Inventions, Discoveries, Wit, Humor, Fancy, Sentiment; the Newest Fashions and other attractions for Ladies; Choice New Music for the Sabbath, the Church, and the Fireside; Reviews and Criticisms of Musical Works, Performed and Performances; in short; the very pick and cream of Novelty, Incident, History, Biography, Art, Literature and Science; including whatever can be given in periodicals to promote Healthy Amusement and Solid Instruction in the family, and help to make it better, wiser, and happier, more than obtained for five dollars.

Address DYER & WILLIS, 257 Broadway.

Editors publishing the above three titles, and sending the papers containing it to Dyer & Willis, will receive the three works named, for one year.
