Food for Crops.

This is the "grand question" among farmers at the present day. In new countries, where the land has not been cultivated much, little is thought about giving the erop any food, in order to make it food for ourselves, but after the best soil valuable importance. I take it for granted has become exhausted by constant cropping-after the "new" is off or rather out, every person will endeavor to promote their dian Queen Hotel, Stroudsburg, Pa. every the farmer finds, that to make food for bimself, he must give food to the plants according to the opinion of the most celehe wishes to raise.

Well, what must it be? To answer it with perfect accuracy, you should first an appetite continually chargeable from one know what the soil is made of-or, in other words, both should be analysed, and the ingredients ascertained, both as to Slow Fever, Pulse Irregular-remember at 7 o'clock A. M. via Bushkill, Dingman's lectures, given in the interiors of their their quantity and quality. But this requires a greater knowledge of practical chemistry than the majority of the people as yet possess, and also more expense than most farmers are able to meet.

What is the next best thing to be done Fortunately the remains of organic bod- and debilitated, the Tonic properties of my ies, (by which we mean those bodies both Worm Syrup are such, that it stands with, of animal and vegetable origin, that have had life and a set of origans forming which makes it an Infallible remedy for cars for the west. their bodies,) possess most of the ingredi- those afflicted with Despepsia, the astonents required for this purpose. SOTERIC ANTHROPOLOGY

BY T. L. NICHOLS, M. D. RINCIPAL of the American Dydropath ic Institute, Educational and Thera peutical, at Portchester, N. Y., one hour's idstance from New York city on the New York and New Haven Railroad. A comprehensive and confidential Treatise on the Structure, Functions, Passional Attractions and Perversions, True and False Physical nd Social Conditions, and the most intimate Relations of Men*and Women,

seem strange to many, but it is thoroughly appropriate. Anthropology is from Anthropos, a man, and Logos, a description. Eso-Monday, Wednesday and Friday, returning teric, from Eso, within, signifies private, se A line to Port Jervis, leaving philosophers to distinguish their private his, her, or their deposit, will have a science and philosophy, to their chosen dismorning train of cars to New York, at about ciples, from their Exoteric discourses, which illustration, and written with all the frankness of a private letter, under the seal of professional confidence. It contains the highest and deepest truths in every department of Human Physiology, with their indi vidual and social application; the true nature and hidden cause of Disease; the conditions of Health, physical and passional all that information which every human be ing needs, which few dare ask for, or know Having provided themselves with excel how to obtain, but which, amid the discordcellent coaches, good horses, and careful ances and depravities of civilization, is of enabled to give entire satisfaction to all who

There are many subjects connected with the broad science of Human Life, of the deepest and most vital interest to man and the race, in regard to which a terrible ignorance every where prevails; an ignorance which is destroying the healths, shortening the lives, and sacrificing the happiness of millions-which threatens the power of naions, and the perpetuity of races.

Professional works on Physiology are dry. nechanical, or chemical, astonishingly ignorant, as well as technically incomprehensible. The popular works are superficial, meager, and necessarily wanting in the most important matters. The quack books are full of errors, false in science, absurd in philosophy, mischeivous in morals, and basely meccenary in their motives. In most cases these books are the advertising medim of some specious charlatan, who wants rum to palm off upon the credulous.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rec est security against loss or damage by ers in weakness and affections of the digesfire, on the most advantageous and rea- live organs, they are withal, safe, certain and pleasant.

Read and be Convinced.

From the Boston Bee. The editor said, Dec. 22nd-Dr Hoofland's celebrated German Bitters for the cure of Liver complaint, jaundice, dyspepsia, chronic or nervous debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor -- a fact worthy of great consideration. They are pleasant in taste and smell and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use. 'SCOTT'S WEEKLY,' one of the best Liter-

ary papers published, said, Aug. 25-Dr. Hoofland's German Bitters, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain THE great discovery contained in this lit. a bottle, and thus save themselves much sicktle work procured Sir James his Baron- ness. More Evidence.

The Hon. C. D. Hineline, Mayor of the City of Camden, N. J., says:

' Hoofland's German Bitters .- We have seen many flattering notices of this medicine, and the source from which they came induced From inquiry we were persuaded to use it,

"If this medidine was more generally used we are satisfied there would be less sickness, as from the stomach, liver, and nervous system the great majority of real and imaginary diseases emanate. Have them in a healthy condition, and you can bid defiance to epidemics generally. This extraordinary medicine we would advise our friends who are at all indisposed, to give a trial-it will recommend itself. It should, in fact, be in-

duce such evidences of merit." Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strong-American Agent for James Lyndenton's est testimony in its favor, is, that there is more of it used in the practice of the regular Physicians of Philadelphia, than all other nostrums conbined, a fact that can eaisily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form. That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt after law exclusively in the supreme court, and using it as directed. It acts specifically up-
