\$150. In Splendid Prizes. \$150.
Volume IX of the SCIENTIFIC AMERICAN commences on the 7th of September. It is chiefly devoted to an advertisement of the interests of Mechanics, Inventors, Artists, and Farmers, by the publication of knowledge upon these important subjects. It is edited by men practically conversant with the arts and sciences, and is widely regarded as a sound and useful journal. Nearly all the VALUABLE PATENTS which issue weekly from the PATENT OFFICE are ILLUSTRATED WITH ENGRAVINGS, and the CLAIMS of all the PATENTS are published in its columns, thus making the paper a perfect SCIENTIFIC and MECHANICAL ENCYCLOPEDIA for future as well as present reference. The SCIENTIFIC AMERICAN is very extensively circulated—its circulation in the last Volume exceeding 18,000 copies per week. It is in form for binding; each volume contains SEVERAL HUNDRED ENGRAVINGS and over FOUR HUNDRED PAGES of Reading Matter, with an Index. The machinery is new and in complete running order; the whole is propelled by a twenty foot overshoot wheel, and the stream on which this Mill is situated is a never failing one. The wheel can be raised to thirty feet if desired. There are also four other water powers on the property, with from twenty to thirty feet fall. The mill is about two miles from the Delaware, Lackawanna, and Western Railroad, now building. There is about 1000 acres of timberland adjoining the above property, which can be bought if desired.—The property is a valuable one and worthy the attention of any one wishing to engage in the lumbering business; and will certainly be sold, high or low, by the first of November, as the subscribers intend going west. A further description is deemed unnecessary, as those wishing to purchase will view it for themselves.

EVERY MAN HIS OWN MILLER.
Clark's Patent combined grinding and bolting mill, is an invention which cannot fail coming into general use, turning out as it does from the wheat extra flour, superfine, middlings, ship stuff and bran, at a single operation, and in the most complete manner.—This truly scientific mill fills a space of but three feet in diameter, and five feet high, is worked by a single shaft, capable of grinding and bolting from three to ten bushels of wheat an hour, and can be propelled by any power from four horse, to any which may be desired. The entire cost of a mill calculated to make one barrel of flour to the hour, does not exceed \$100. Those desiring to purchase a mill, or the patent for counties or townships in Pennsylvania, are requested to address Wm. Heilmann, or call at No. 41 Brown street Philadelphia.

LUMBER TRAIT AND SAW MILL AT PRIVATE SALE.
The subscribers will sell at public sale in Stoddardsville, Monroe County, Pa., **Wednesday, Sept. 21, 1853, next, A Valuable Lumber Tract,** containing nearly five hundred Acres of land. The tract is known as "Reading's," being the same on which George Linton has operated for years, and adjoins lands of Henry W. Drinker, David Thomas, Mixell & Brown, and others, on which there is erected a good **SAW MILL,** Dwelling House, and Out Buildings, and every thing convenient for the manufacture of Lumber. This tract is favorably located, being near the Drinker Turnpike, which secures a retail trade for all the Lumber which can be made, at much better profits than can be realized by selling by the wholesale, and with much less expense and risk. This would be a favorable location for a Leather Manufacturing factory, having a good Water Power, and situated in a heavy Menlock country.—The Lackawanna and Delaware Water Gap Railroad, which is now under contract, passes within four or five miles of it, which, when finished, will make a cheap and quick conveyance to market, being only a few hours' ride from New York. Any persons wishing to examine the property can do so by calling on Joseph McNeel, residing thereon.
The sale will commence at 12 o'clock, A. M., when conditions will be made known, and attendance given by
PHILIP G. READING & CO.

DR. J. LANZ, DENTIST.
Has permanently located himself in Stroudsburg, and moved his office next door to Dr. S. Walton, and nearly opposite S. Melick's Jewelry store, where he is fully prepared to treat the natural teeth, and also to insert incorruptible artificial teeth on pivot and plate, in the latest and most improved manner. Most persons know the danger and folly of trusting their work to the ignorant as well as the traveling dentist. It matters not how much experience a person may have, he is liable to have some failures out of a number of cases, and if the dentist lives at a distance, it is frequently put off until it is too late to save the tooth or teeth as it may be, otherwise the inconvenience and trouble of going so far.—Hence the necessity of obtaining the services of a dentist near home. All work warranted.
