A Cure for the Bots.

In answer to your correspondent, "A Subscriber," who wishes to know the best treatment for bots in horses; I send the following, which I have known successfully practised for more than thirty years, and have never known to fail it taken in time.

By throwing up the upper lip of a horse that appears to be distressed from bots, if that is the cause of his suffering, you will perceive small specks, or pointed lumps. By taking a tolerable sharp knife and scraping quickly back and forward on these lumps of specks, they will bleed a little, (they must be made to bleed, if it is to be had), and if the lip itself should be slightly scarified by the process it will be all the better. This thoroughly and quickly done, rub on the bleeding lip the following mixture, or preparation:—

equal parts of common salt, saltpetre, gunpowder, and full brimstone, pulverized; rub freely for two or three minutes. A tablespoonful of the mixture is sufficient if carefully applied. I have seen many horses, upon which all the usual remedies had been tried and failed, cured in this manner—entirely relieved in ten minutes, and anxious for food. Do not reject it because it looks improbable; there may be some intimate sympathy between the lip and maw that we cannot comprehend. One thing is certain, it can do no harm, nor give pain to the poor brute that is usually inflicted by pouring nostrum down his throat.

For windy colic give the following:—if it don't cure nothing else will: To two ounces good mustard, add half pint pure Holland Gin, and on pint of water—shake well and drench.

While upon this subject, I will add that I have known many horses, in excruciating torment from foul sheath, doctored to death by alternately dosing for bots, or colic, as it might please the fancy of each passer by to prescribe. They mistook the disease, and the very quantity of nauseous stuff given was sufficient to kill.

A FRIEND TO THE HORSE.

Red Ants.—Having noticed several paragraphs in the "Dollar Newspaper," with regard to the depredations of red ants, I give you my experience upon the subject. For several years we were much annoyed by red ants, and for the protection of our provisions, &c., I procured a cupboard and suspended it in the cellar, by wires or cords fastened to the corners of the cupboard, from timbers above. I then wound a leaf of tobacco around the wires, and bound it with a string, so that it would not fall off. I also bound a small leaf of tobacco around table legs and other things in the battery, and let them remain as long as they would, even around the wires for years, and not one red ant ever passed over or under the tobacco.—The remedy was effectual.—Cor. Dollar Newspaper.

Bone Wens.—I noticed an inquiry for a cure for bone wens; I have a recipe which I have used, and has effected a cure. Take equal parts of indigo dissolved in wine and soft soap, apply it quite warm, with a wet cloth, twice or three times a day. This I have tried on a calf six months old, and on a two year old, and effected a cure.—N. E. Farmer.

Preserving Butter.

The farmers of Aberdeen, Scotland, are said to have adopted the following mode of curing their butter, which gives it a great superiority over that of their neighbors:

"Take two quarts of the best common salt, one ounce of sugar, and one ounce of common saltpetre; take one ounce of this composition for one pound of butter work it well into the mass and close it up for use.—The butter cured with this mixture appears of a rich and marrowy consistence and fine color and never acquires a brittle hardness nor tastes salty. Dr. Anderson says:—"I have eaten butter cured with the above composition that has been kept three years and it was as sweet as at first." "It must be noted however that butter thus cured requires to stand three weeks or a month before it is used. If it is sooner opened the salts are not sufficiently blended with it and sometimes the coolness of the nitre will be perceived, which totally disappears afterwards."

Setting out Orchards.

We know not how we can better subservise the interest of our agricultural friends by repeating our advice of this time last year.

Those who have no orchards on their estates; or whose trees are old and dilapidated should set out new orchards, and be sure to plant none but the most superior kinds. Such fruits always and always will bring good prices. An acre in the best kind of apples will yield more profit than will three or four acres in wheat, corn or tobacco. And it may be here proper to remark, that the demand for superior fruit is on the increase.

In buying trees to set out an orchard, every farmer and planter should repudiate the idea of buying from tree peddlers—they being a race of beings that cannot be depended upon. Nurseries of established reputation, conducted by honest men—respectable men—are alone to be relied upon; and should they deceive you, you have your recourse at law.

Paint Your Tools.—Every farmer should be provided with a small quantity of the coarser kinds of paint, a few pots and brushes and oil paint, oil, and should keep his carts, wagons, sleds, harrows, &c. well coated with paint.

IMPOTENCY.—Through unrestrained indulgence of the passions, by excess or self abuse, the evils are numerous. Premature impotency, involuntary seminal discharges, wasting of the organs, loss of memory, or occasional derangement, are sure to follow. If necessary, consult the Doctor with confidence; he offers a perfect cure. READ AND REFLECT.—The afflicted would do well to reflect before trusting their health, happiness, and in many cases their lives, in the hands of Physicians ignorant of this class of maladies. It is certainly impossible for one man to understand all the ills the human family are subject to.—Every respectable physician has his peculiar branch, in which he is more successful than his brother professors, and to that he devotes most of his time and study.

YEARS OF PRACTICE, exclusively devoted to the study and treatment of diseases of the sexual organs, together with those upon the body, throat, nose, or less, pains in head, or bones, mercurial diseases arising from venereal excesses, or impurities of the blood, whereby the constitution has become debilitated, enables the Doctor to offer speedy relief to all who may place themselves under his care. Whatever concerns the happiness and health of a people is at all times of the most valuable importance. I take it for granted that every person will do all in their power, to save the lives of their children, and that every person will endeavor to promote their own health at all sacrifices. I feel it to be my duty to solemnly assure you that worms, according to the opinion of the most celebrated Physicians, are the primary causes of a large majority of diseases to which children and adults are liable; if you have an appetite continually changeable from one kind of food to another, Bad Breath, Pain in the Stomach, Picking at the Nose, Hardness and Fullness of the Belly, Dry Cough, Slow Fever, Pulse Irregular—remember that all these denote worms, and you should at once apply the remedy.—

Hobensack's Worm Syrup. An article founded upon Scientific Principles, compounded with purely vegetable substances, being perfectly safe when taken, & can be given to the most tender Infant with decided beneficial effect, where Bowel Complaints and Diarrhea have made them weak and debilitated, the Tonic properties of my Worm Syrup are such, that it stands without an equal in the catalogue of medicines, in giving tone and strength to the Stomach which makes it an infallible remedy for those afflicted with Dyspepsia, the astonishing cures performed by this Syrup after Physicians have failed, is the best evidence of its superior efficacy over all others.

The Tape Worm! This is the most difficult Worm to destroy of all that infest the human system.—It grows to an almost indefinite length, becoming so coiled and fastened in the intestines, and Stomach affecting the health so solidly as to cause St. Vitus Dance, Fits, &c. that those afflicted seldom if ever suspect that it is Tape Worm hastening them to an early grave. In order to destroy this Worm a very energetic treatment must be pursued, it would therefore be proper to take 6 or 8 of my Liver Pills so as to remove all obstructions, that the Worm Syrup may act direct upon the Worm which must be taken in doses of 2 Table spoon's full 3 times a day, these directions followed, have never been known to fail in curing the most obstinate case of Tape Worm.

Hobensack's Liver Pills. No part of man is more liable to disease than the Liver, it serving as a filter to purify the blood, or giving the proper secretion to the bile; so that any wrong action of the Liver affects the other important parts of the system, and results variously, in Liver Complaint, Jaundice, Dyspepsia, &c.—We should therefore, which every symptom that might indicate a wrong action of the Liver. These Pills being composed of Roots and Plants furnished by nature to heal the sick; Namely Sls, An Expectorant, which augments the secretion from the Pulmonary membrane, or promotes the discharge of secreted matter. 2d, An Alterative, which charges in some explicable and insensible manner, the certain morbid action of the system. 3d, A Tonic, which gives tone and strength to the nervous system, renewing health and vigor to all parts of the body. 4th, A Cathartic, which acts in perfect harmony with the other ingredients, and operating on the Bowels, and expelling the whole mass of corrupt and vitiated matter, and purifying the Blood, which destroys disease and restores health.

To Females. You will find these Pills of invaluable medicine in many complaints to which you are subject. In obstructions either total or partial, they have been found of inestimable benefit, restoring their fractional arrangements to a healthy action, purifying the blood and other fluids so effectually to put to flight all complaints which may arise from female irregularities, as head ache, giddiness, dimness of sight, pain in the side, back, &c. None genuine unless signed J. N. Hobensack, all others being base imitations: Agents wishing new supplies, and Store Keepers wishing to become Agents must address the Proprietor, J. N. Cure of Consumption,

Liver Complaint, Colds, Coughs, Asthma, Bronchitis, and all Throat and Lung Complaints. I have published a brief work on Consumption, which contains an invaluable recipe for the cure of these prevalent diseases, even in their worst stages, when friends and physicians have given up all hope. The Lung Balsam prescribed in this work Cures without the expensive aid of physicians or injurious use of patent medicines. In adopting this System of Cure the patient knows what he is using—knows that he is not shortening his days by the use of anodynes or narcotics, which may seem to Relieve but never Cure. He knows when using this Life-saving Balsam, that he is taking mild, pleasant, efficacious remedies, such as Nature prescribes for the ills her children suffer. The ingredients composing this Lung Balsam are obtained absolutely free wherever consumption exists, proving that Every ill has its antidote. Consumptive patients may Rely on this receipt.—(All Lung Complaints are removed by its use.)—I would not attach my name to it, had I doubt of its efficacy. The directions for preparing and using the Balsam are perfectly plain. I prefer selling the Recipe to making the Balsam, as it enables people to Make their own Medicine at a Trifling Cost. I will impart the secret of making the Balsam, and the Family right to use it, for \$1, but in no case will I sell it for speculating purposes.

Proof of its Goodness.

JACKSON, Mich. March 21, 1851. Doct. S. TOUSEY—Sir: You wished me to let you know what effect your preparation of Medicine for Consumption, and other diseases had in my family. After the first ten days my wife gained in weight 3 lbs, relieved her cough, changed her countenance, and all appearances were better. My family would not be willing to do without it. It is a medicine much needed in Jackson—there is many cases similar to my wife's. The Rev Mr. Blanchard will write you for a recipe. Respectfully yours. O. F. POOL. LIVER COMPLAINT,

Jaundice, Dyspepsia, Chronic or Nervous Debility, Diseases of the Kidney, and all diseases arising from a disordered Liver or Stomach, such as a constipation, inward piles, fullness or blood to the head, acidity of the stomach, nausea, heartburn, disgust for food, fullness, or weight in the stomach, sour eructations, sinking or fluttering at the pit of the stomach, swimming of the head, hurried and difficult breathing, fluttering at the heart, choking or suffocating sensations when in a lying posture, dimness of vision, dots or webs before the sight, fever and dull pain in the head, deficiency of perspiration, yellowness of the skin & eyes—pain in the side, back, chest, limbs, &c. sudden flushes of heat, burning in the flesh, constant imaginings of evil and great depression of spirits, can be effectually cured by Dr. Hoofland's celebrated German Bitters.

PREPARED BY Dr. C. M. JACKSON, at the German Medicine Store, 120 Arch st. Philadelphia. Their power over the above diseases is not excelled—if equalled—by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal, safe, certain and pleasant. Read and be Convinced. From the Boston Bee. The editor said, Dec. 22nd—Dr. Hoofland's celebrated German Bitters for the cure of Liver complaint, jaundice, dyspepsia, chronic or nervous debility, is a remedial one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor—a fact worthy of great consideration. They are pleasant in taste and smell and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use. "SCOTT'S WEEKLY," one of the best Literary papers published, said, Aug. 25— "Dr. Hoofland's German Bitters, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitutions will find these Bitters advantageous to their health, as we know from experience the salutary effect they have upon weak systems."

More Evidence. The Hon. C. D. Hineine, Mayor of the City of Camden, N. J. says: "Hoofland's German Bitters. We have seen many flattering notices of this medicine, and the source from which they came induced us to make inquiry respecting its merits.—From inquiry we were persuaded to use it, and must say we found it specific in its action upon disease of the liver and digestive organs, and the powerful influence it exerts upon nervous prostration is really surprising. It calms and strengthens the nerves, bringing them into a state of repose, making sleep refreshing. "If this medicine was more generally used we are satisfied there would be less sickness, as from the stomach, liver, and nervous system the great majority of real and imaginary diseases emanate. Have them in a healthy condition, and you can bid defiance to epidemics generally. This extraordinary medicine we would advise our friends who are at all indisposed, to give a trial—it will recommend itself. It should, in fact, be in every family. No other medicine can produce such evidences of merit." Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor is, that there is more of it used in the practice of the regular Physicians of Philadelphia, than all other nostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt after using it as directed. It acts specifically upon the stomach and liver; it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to female or infant with safety and reliable benefit at any time. Look well to the marks of the genuine. They have the written signature of C. M. JACKSON upon the wrapper, and his name blown in the bottle, without which they are spurious. Prices reduced.—To enable all classes of invalids to enjoy the advantages of their great restorative powers. Single Bottle 75 cents. For sale by STARRIB & WALLACE, Stroudsburg Pa. Aug. 5, 1852.—1y.
