[From the Plough, Loom and Anvil.]
Wood and Timber Lands.

In many sections of the country, the scarcity of timber for the practical and economic purposes is presenting an alarming feature. In many portions of the country, too, the use of fuel is so fast increasing, that the inquiry, how are coming generations to be provided? is much more than an idle question. Yet the axe is still swift in its work of destruction, and, what is more lamentable, the useless manner in which wood-lands are allowed to remain, in too many instances, furnishes but poor reason to anticipate their renewal.

With many it is a practice, in getting their annual supply of fuel, to get one tree in this place and another in that, thus running over the territory of trees, and, of course, marking the whole with paths, and occupy an alarming portion of the wood-land. Then, again, when the solitary tree is taken, a quantity of smaller timber is broken down so that in fact, the getting of a single tree amounts to a clearing, and a clearing it is apt to remain; the grass comes in, and in due time, the premises exhibit the appearance of a pasture.

We are pleased to see, that with more observing and careful owners of wood-lands, a better system of things is introducing itself. Instead of practicing this wasteful, ill-looking system they commence clearing, or cutting every thing clean in a remote part of the lot, and thus, each year, working nearer home, until the whole is cut over. A new crop springs up on the land thus cleared, which if protected from animals, will in from fifteen to thirty years according to soil and locality, yield a heavy burden, and again invite the axe-man to its shade. The advantages of this system are obvious.—The new growth is an even one, and there is no loss of timber from high winds as is always the case in these forests, as the new growth protects itself from their influence.

There is a great saving of lands in the matter of paths; for one path through the lot is sufficient, and as the operation advances homeward, that becomes useless, and itself grows up to trees. The new growth shades itself, and thus retains sufficient moisture in times of drought, and also protects itself from grass and weeds. As the timber increases in size, the feeder shoots die out, and themselves become, by decay, food for those that remain.

Nature directs the time when forest trees should be cut off, in order, either, to kill the germinating principle, or to renew themselves. We have long noticed that when trees are cut while the sap is in a half dormant state, as through the freezing and thawing season of spring, or for a few weeks after the fall of the leaf in autumn, re-production is hardly to be expected.

The vital energy of the roots all runs out in the flow of the sap, or bleeding from the pores. But any time in winter, chopping may be safely performed with a view of re-productions; so too from the time of the development of the leaf to its fall. Timber cut in June, if divested of its bark acquires, by seasoning, great firmness and durability. Wood cut in August and September, if seasoned in the open air, is more valuable fuel than that cut in March; for it has ample time for seasoning, and retains all its goodness. In addition, the growth of a season is saved by allowing it to stand over summer.

Fields intended for Corn.

If the ground you intend to put in corn this spring is a clover lay, manure and plough it up deeply, leave it until just before you are going to plant your corn, then harrow it until you get it into fine tilth. This done, sow on each acre of it two bushels of salt, harrow it in, roll, and plant your corn, and you will experience but little annoyance from grub and other worms, as the salt will give them their quietus just as notable as though you had done it with a lodkin. Thus instead of being depredated upon and injured by these troublesome serpents, your soil will be enriched by the decomposition of their bodies and they made to encourage the growth of your corn. The salt however, will do more than this—it will, to a considerable extent, act as a fixer to the ammonia, in the soil as it may be formed, attract moisture from the atmosphere, preserve the corn plant from firing, and furnish no inconsiderable quantity of soda and chlorine for their appropriation.

**BOOKS AND STATIONARY,
FOR CASH ONLY.**
The Amount of goods in our line purchased by country merchants is usually quite small compared with their dry goods, hardware, and other bills, and this very circumstance absolutely compels jobbers in the book business, who sell on time, to get larger profits in order to make up for the losses and extra expenses necessarily involved in a credit business of small amounts. It is also easy for the merchant to make arrangements to buy his book bill for cash; though it might not be so convenient for him to purchase his larger bills in this way.
These considerations have led us to adopt in our business, from this date, January, 1851, the following principles, viz. **SMALL PROFITS, EXHAUSTIVE PRICES AND TERMS ALWAYS CASH.**
Being ourselves the sole publishers of a number of the leading and most extensively selling School Books in the country, as well as works in other departments, our facilities are unsurpassed.
Call upon us, or send an order, and judge for yourselves, if the saving you can make by buying of us for cash is worth while.

Raising Blood

And Consumption, pain in the side and night sweats, Asthma, Whooping Cough, palpitation of the heart, Liver complaint, Bronchitis, and all diseases of the throat, lungs and liver cured by Sherman's All-Healing Balm.

RAISING BLOOD & CONSUMPTION
Mr. Mine, Builder, in Brooklyn, was attacked with raising blood, followed by a cough, pain in the side, and all the usual symptoms of consumption. He employed two of the best physicians; they did him no good, and told him he could not live.

Hearing of the wonderful cures performed by Sherman's Balm, he sent at 10 o'clock at night to Mrs. Hayes, 136 Fulton street, and got a bottle; it operated like a charm, stopped the bleeding and cough! Before he had taken one bottle he was able to be about his work. It had saved his life. His daughter, residing at 127 Myrtle Avenue, can attest it.
Miss Ann Maston, of Williamsburg living in Tenth, near South Fourth st., says—That she had been troubled with a hacking cough, and pain in the chest, for a long time, which at last became so bad that she was obliged to give up her school for more than a year. She then commenced taking the All-Healing Balm—which soon alleviated her symptoms. She is now fast recovering, and has resumed her laborious occupation as a teacher.
14 years Mr. John O'Neil, 10th avenue and 21st street, suffered with a cough, raising of phlegm, and pain in his side. He could get no relief till he tried the All-Healing Balm, which drove the pain from his side, allayed the cough, and brought the disease upon the surface; and before he had taken three bottles, was entirely cured.

PLEURISY AND CONSUMPTION.

Mrs. Baggas, a lady upwards of 70, residing 88 Sheriff street, has for years been subject to attacks of Pleurisy, Raising of Blood, severe Cough, Shortness of Breath, Pain in her Head and various parts of her body. Her friends believed past recovery. The All-Healing Balm relieved her at once of all her alarming symptoms, and now she is able to attend to her work.

ASTHMA AND WHOOPING COUGH.

Mrs. Lucretia Wells, 95 Christie st.; L. S. Beals, 19 Delancy street; W. H. Youngs, 75 Walnut st.; know the value of this great remedy.

8500 CHALLENGE.

Whatever concerns the happiness and health of a people is at all times of the most valuable importance. I take it for granted that every person will do all in their power, to save the lives of their children, and that every person will endeavor to promote their own health at all sacrifices. I feel it to be my duty to solemnly assure you that worms, according to the opinion of the most celebrated Physicians, are the primary causes of a large majority of diseases to which children and adults are liable; if you have an appetite continually chargeable from one kind of food to another, Bad Breath, Pain in the Stomach, Picking at the Nose, Hardness and Fullness of the Belly, Dry Cough, Slow Fever, Pulse Irregular—remember that all these denote worms, and you should at once apply the remedy:—

Hobensack's worm Syrup.

An article founded upon Scientific Principles, compounded with purely vegetable substances, being perfectly safe when taken, & can be given to the most tender Infant with decided beneficial effect, where *Dowel Complaints* and *Diarrhea* have made them weak and debilitated, the Tonic properties of my Worm Syrup are such, that it stands with, out an equal in the catalogue of medicines, in giving tone and strength to the Stomach which makes it an infallible remedy for those afflicted with *Despepsia*, the astonishing cures performed by this Syrup after Physicians have failed, is the best evidence of its superior efficacy over all others.

The Tape Worm!

This is the most difficult Worm to destroy of all that infest the human system.—It grows to an almost indefinite length, becoming so coiled and fastened in the Intestines and Stomach affecting the health so sadly as to cause St. Vitus Dance, Fits, &c. that those afflicted seldom if ever suspect that it is *Tape Worm* hastening them to an early grave. In order to destroy this Worm a very energetic treatment must be pursued, it would therefore be proper to take 6 or 8 of my Liver Pills so as to remove all obstructions, that the Worm Syrup may act direct upon the Worm which must be taken in doses of 2 Table spoon's full 3 times a day, these directions followed, have never been known to fail in curing the most obstinate case of Tape Worm.

Hobensack's Liver Pills.

No part of man is more liable to disease than the Liver, it serving as a filterer to purify the blood, or giving the proper secretion to the bile; so that any wrong action of the Liver affects the other important parts of the system, and results variously, in Liver Complaint, Jaundice, Dyspepsia, &c.—We should, therefore, watch every symptom that might indicate a wrong action of the Liver. These Pills being composed of Roots and Plants furnished by nature to heal the sick; namely 1st, An *Expectorant*, which augments the secretion from the Pulmonary mucus membrane, or promotes the discharge of secreted matter. 2d, An *Alterative*, which changes in some explicable and insensible manner, the certain morbid action of the system. 3d, A Tonic, which gives tone and strength to the nervous system, renewing health and vigor to all parts of the body. 4th, A Cathartic, which acts in perfect harmony with the other ingredients, and operating on the Bowels, and expelling the whole mass of corrupt and vitiated matter, and purifying the Blood, which destroys disease and restores health.

To Females.

You will find these Pills an invaluable medicine in many complaints to which you are subject. In obstructions either total or partial, they have been found of inestimable benefit, restoring their fractional arrangements to a healthy action, purifying the blood and other fluids so effectually to put to flight all complaints which may arise from female irregularities, as head ache, giddiness, dimness of sight, pain in the side, back, &c.
None genuine unless signed J. N. Hobensack, all others being base imitations.
