

this morning. I assure you upon the honor of a gentleman, that I will never speak disparagingly of woman's duties again. Two of us, I find, make considerable work, enough at least for a little wife to perform.

'You are pardoned on the spot. And let me assure you that I do not regret this day's experience; and perhaps the Widow Sauburn and several other persons will not.'

'And your humble servant among the number,' replied the squire, bowing.

We have only to add that the squire kept his word; that Tom Pettifogger married the pretty seamstress, and 'only two of us' was never used except as a pleasant jest.

Agricultural.

Fall Plowing.

While perusing the columns of the 'Newspaper,' I have looked a long time to see brought before the public, the recommendation of fall plowing for the spring grain; and being much interested in the Farmers' Department of the 'Newspaper,' I take the responsibility of introducing a few remarks into its columns.

For several years I have noticed the fact that the different kinds of grain produced better, and that spring wheat is not so liable to be affected with rust, if sown on land ploughed in the fall. Farmers who have fall and spring ploughing in the same field, side by side, and putting the same kind of grain on both parts, will notice the fact very clearly. I remember noticing last summer, about the middle of June, a field of wheat, a part of which was at least one fifth larger than the rest, and healthy, fresh and green, while on the other hand, the rest appeared dried up and withered. On asking the tiller of the farm the reason of the difference, he replied that it was all the same kind of grain, and all sown the same day; but the wheat that looked the best was on fall, and the other on spring ploughing. And let me remark that the harvest showed the difference that was apparent in the month of June.

The reasons assigned for this difference are: First, that the stubble and weeds, if it be stubble ground, serve as a manure, and by being turned under in the fall, their fertilizing powers are all applied directly to the soil; while otherwise, if the natural refuse matter was left on the surface during the winter, its best qualities pass away, and are partially lost in the form of gas. My second reason is, that the frost during winter has more surface to act upon, by having the ground thrown up light in the fall.—*Dollars Newspaper.*

Green Peas for Winter Use.
The lovers of green peas will be pleased to learn that they can be preserved for winter use by simply gathering them at the proper season for using them green, shelling them and drying them in the shade, and when well cured and perfectly dry, packing them away for use.—When required for use, they should first be immersed in warm water for ten or twelve hours, which will render them as tender and deliciously succulent as when taken from the vines. The best method of preserving them, after they have been thoroughly cured by the above process, is to put them into close jars or bottles. In this way not only green peas, but green beans and green corn may be had the year round.

Note this.
In a cloudy morning it is a matter of importance to every farmer to know whether it will be sunny or showery in the afternoon. If the ants have cleared their holes nicely, and piled the dirt up high, it seldom fails to bring a good day for the farmers, or even if it should be cloudy till ten or eleven o'clock in the forenoon. Spider webs will be very numerous about the tops of the grass and grain some cloudy mornings, and fifty years observation has shown the writer that these little weather guessers seldom fail in their predictions of a fair day.

It is wrong to wish for death, and worse to have occasion to fear it.

The Boston Bee says—a man can get along with advertising, so can a wagon without greasing, but it goes hard.

At Cincinnati a boy who was amusing himself by shooting off fire-crackers, seeing an empty whiskey barrel lying on the sidewalk, put a lighted cracker into it and stopped the bung-hole. Singular as it may appear, the explosion of the cracker forced out the head of the barrel and broke the boy's leg.

WHOLESALE BOOK AND STATIONARY HOUSE
IN NEW YORK
ON THE CASH PLAN:
EXTENSIVE SALES AND NO LOSSES,
Make it profitable to sell at very Low Prices.

MASON BROTHERS,
23 Park Row opposite the Astor House N. Y.
Offer one of the most extensive Stocks and complete assortments in the country of
BOOKS AND STATIONARY,
FOR CASH ONLY.

The Amount of goods in our line purchased by country merchants is usually quite small compared with their dry goods, hardware, and other bills, and this very circumstance absolutely compels jobbers in the book business, who sell on time, to get larger profits in order to make up for the losses and extra expenses necessarily involved in a credit business of small amounts. It is also easy for the merchant to make arrangements to buy his book bill for cash; though it might not be so convenient for him to purchase his larger bills in this way.

These considerations have led us to adopt in our business, from this date, January, 1854, the following principles, viz. SMALL PROFITS, UNVARYING PRICES AND TERMS ALWAYS CASH. Being ourselves the sole publishers of a number of the leading and most extensively selling School Books in the country, as well as works in other departments, our facilities are unsurpassed.

Call upon us, or send an order, and judge for yourselves, if the saving you can make by buying of us for cash is worth while.

Our location is very central, and easily found. Stand on the Astor house steps, and look straight forward across the corner of the Park, and you cannot avoid seeing our signs. **REMEMBER THE NAME IN MASON BROTHERS.**

Raising Blood

And Consumption, pain in the side and night sweats, Asthma, Whooping Cough, palpitation of the heart, Liver complaint, Bronchitis, and all diseases of the throat, lungs and liver cured by Sherman's All-Healing Balsam.

RAISING BLOOD & CONSUMPTION
Mr. MiNe, Builder, in Brooklyn, was attacked with raising blood, followed by a cough, pain in the side, and all the usual symptoms of consumption. He employed two of the best physicians; they did him no good, and told him he could not live.

Hearing of the wonderful cures performed by Sherman's Balsam, he sent at 10 o'clock at night to Mrs. Hayes, 136 Fulton street, and got a bottle; it operated like a charm, stopped the bleeding and cough! Before he had taken one bottle he was able to be about his work. It had saved his life. His daughter, residing at 127 Myrtle Avenue, can attest it.

Miss Ann Maston, of Williamsburg living in Tenth, near South Fourth st., says—That she had been troubled with a hacking cough, and pain in the chest, for a long time, which at last became so bad that she was obliged to give up her school for more than a year. She then commenced taking the All-Healing Balsam—which soon alleviated her symptoms. She is now fast recovering, and has resumed her laborious occupation as a teacher.

14 years Mr. John O'Neil, 10th avenue and 21st street, suffered with a cough, raising of phlegm, and pain in his side. He could get no relief till he tried the All-Healing Balsam, which drove the pain from his side, allayed the cough, and brought the disease upon the surface; and before he had taken three bottles, was entirely cured.

PLEURISY AND CONSUMPTION.
Mrs. Baggas, a lady upwards of 70, residing 88 Sheriff street, has for years been subject to attacks of Pleurisy, Raising of Blood, severe Cough, Shortness of Breath, Pain in her Head and various parts of her body. Her friends believed past recovery. The All-Healing Balsam relieved her at once of all her alarming symptoms, and now she is able to attend to her work.

ASTHMA AND WHOOPING COUGH.
Mrs. Lucretia Wells, 95 Christie st., L. S. Beals, 19 Delancy street; W. H. Youngs, 75 Walnut st.; know the value of this great remedy.

Ask for Sherman's All-Healing Balsam, and see that his written signature is on each bottle.
