**Peach Worm.**  
In many of the papers at this season may be found remedies for the peach worm. They may be called standard remedies, because they appear periodically year after year. There is no harm in trying them, but the only remedy we believe in and have found effectual, as well as simple, is to examine each tree, spring and fall, with a knife tapering to a sharp point, hunt up the intruder and destroy him. If he is about at all, there is no difficulty in finding him immediately under the surface of the ground, his presence being indicated by the gum. Just below the surface the bark is tender, which makes it the point of attack. In the hard bark above the ground he cannot make an entrance, and to guard against him below we have pursued the plan each fall of exposing the trunk by drawing away the earth around it down to where the large roots begin to branch out, and leaving it exposed all winter. The bark thus becomes hard and impenetrable. In the spring it should be filled up again a little above the level; a peck or more of leached ashes being applied also around each tree. This application greatly promotes the thrift and growth of the peach. By attending to these recommendations, instead of being a short lived tree, having but two or three crops, and then dying off, as is the case with many orchards, we believe it can be made to live and be productive and profitable from ten to fifteen years at least, and perhaps longer. We know of peach trees in this vicinity, apparently perfectly healthy and bearing well, twenty-five years old. To those who consider this plan too troublesome, we only say do without peaches and make no complaints. Fruit of the best quality cannot be grown without care and trouble, and if it could, would not be valued so much as it is. The yellows in the peach is far more difficult to manage, and indeed no remedy has yet been found. Whenever it makes its appearance, the tree should be exterminated, root and branch.—*Earm Journal.*

**To DESTROY CRICKETS.**—Sprinkle a little quinine near to the cracks through which they enter the room. The lime may be laid down over night and swept away in the morning. In a few days they will most likely all be destroyed. But care must be taken that children do not meddle with the lime, as a very small portion of it getting into the eye would prove exceedingly hurtful. In case of such an accident, the best thing to do would be to wash the eye with vinegar and water.

**To REMOVE MILDEW FROM WHITE CLOTHES.**—Having well washed the part with soap and water, lay upon it, while it is wet, a thick plaster of finely scraped chalk, expose it to the air, and as the chalk becomes dry, wet it again, until the spots are quite removed, which will most likely be on the second if not the first day. A grass plot in the shade is the best situation for bleaching.

**RECIPIES.**—To become excited to a little office—be at all times ready to act as a tool for big men.  
To become respectable—say 'yes,' to every other man's opinions and have none of your own.  
To become slandered—edit a paper, tell the truth, and tread on the toes of rogues and squirts.

**BOOKS AND STATIONARY,**  
**FOR CASH ONLY.**

The amount of goods in our line purchased by country merchants is usually quite small, compared with their dry goods, hardware, and other bills, and this very circumstance absolutely compels jobbers in the book business, who sell on time, to get larger profits in order to make up for the losses and extra expenses necessarily involved in a credit business of small amounts. It is also easy for the merchant to make arrangements to buy his book bill for cash; though it might not be so convenient for him to purchase his larger bills in this way.  
These considerations have led us to adopt in our business, from this date, January, 1854, the following principles, viz. SMALL PROFITS, UNVARYING PRICES AND TERMS ALWAYS CASH.  
Being ourselves the sole publishers of a number of the leading and most extensively selling School Books in the country, as well as works in other departments, our facilities are unsurpassed.

Call upon us, or send an order, and judge for yourselves, if the saving you can make by buying of us for cash is worth while.  
Our location is very central, and easily found. Stand on the Astor house steps, and look straight forward across the corner of the Park, and you cannot avoid seeing our sign. **REMEMBER THE NAME! MASON BROTHERS.**

Mr. Mifflin, Builder, in Brooklyn, was attacked with raising blood, followed by a cough, pain in the side, and all the usual symptoms of consumption. He employed two of the best physicians; they did him no good, and told him he could not live.  
Hearing of the wonderful cures performed by Sherman's Balm, he sent at 10 o'clock at night to Mrs. Hayes, 136 Fulton street, and got a bottle; it operated like a charm, stopped the bleeding and cough! Before he had taken one bottle he was able to be about his work. It had saved his life. His daughter, residing at 147 Myrtle Avenue, can attest it.  
Miss Ann Mason, of Williamsburg living in Teuth, near South Fourth st., says—That she had been troubled with a hacking cough, and pain in the chest, for a long time, which at last became so bad that she was obliged to give up her school for more than a year. She then commenced taking the All-Healing Balm—which soon alleviated her symptoms. She is now fast recovering, and has resumed her laborious occupations as a teacher.  
14 years Mr. John O'Neil, 10th avenue and 21st street, suffered with a cough, raising of phlegm, and pain in his side. He could get no relief till he tried the All-Healing Balm, which drove the pain from his side, allayed the cough, and brought the disease upon the surface; and before he had taken three bottles, was entirely cured.

Mrs. Baggis, a lady upwards of 70, residing 88 Sheriff street, has for years been subject to attacks of Pleurisy, Raising of Blood, severe Cough, Shortness of Breath, Pain in her Head and various parts of her body. **Poughkeepsie, N. Y. March 2, 1844.**  
I certify, that I took two vials of B. A. Fanestock's Vermifuge, which I found to be the greatest cure for worms I have ever used. I have been troubled with tape worms for a number of years, and I have never found so good a medicine as B. A. Fanestock's Vermifuge. I therefore recommend it.
