

**The Jeffersonian.**  
THURSDAY, SEPTEMBER 28, 1854.

**WHIG STATE TICKET.**  
FOR GOVERNOR.  
**Jas. Pollock, of Northumberland**  
FOR CANAL COMMISSIONER.  
**George Barsie, of Allegheny.**  
FOR JUDGE OF THE SUPREME COURT.  
**Daniel M. Smyser, of Montgomery.**

**FIRE.**—We regret to learn that the barn and wagon house of Mr. Valentine Werkheiser, of L. Smithfield township, was destroyed by fire on Saturday evening last. This is a serious loss to Mr. W., as he has lost his entire crop of grain and hay. His loss is estimated at \$2,000.

The Democratic Senatorial Conference of this District, who met in this Borough on Saturday last, were unable to agree upon a candidate for the State Senate, and adjourned *sine die* without making a nomination. There were three candidates before the Convention, viz: J. H. Walton, of Stroudsburg; P. W. Crane, of Wayne, and J. H. Brodhead, Pike.

Mr. Walton has declared himself a candidate. His card may be found in another column. What the other gentlemen, named above, purpose doing we are unable to say.

The Democratic Congressional Conference of Northampton, Monroe, Pike, Wayne, and Carbon counties, held their conference at the Court House, in this Borough, on Saturday last, and re-nominated Hon. Asa Packer, of Carbon, as their candidate for Congress.

Gov. REEDER, left Easton, on Friday of last week, for Kansas. The "Argus" says he was escorted to the Depot by the Easton Band and several hundred citizens. E. J. Fox, Esq., made a few appropriate remarks, wishing him a safe and pleasant journey, prosperity and success. Mr. REEDER was too much affected to make any reply, shook hands with all around him and as the Cars left, three hearty cheers were given.

**WONT WRITE ANY MORE LETTERS.**—The Potomac Ledger, a Loco Foco journal says: "A doubting Democrat, who don't appear to have much faith in Mott's denial of his being in the Know Nothing ring, has written him another letter, making the queries more direct and searching. Mott, however, refuses to answer. He won't write any more letters on that subject."

**Fatal Accident.**  
Mr. PETER LANDERS, a citizen of Philadelphia, was killed on the New York and Erie R. Road on Wednesday last, and his body brought to this place and entered at the Easton Cemetery on Monday afternoon. He was conveying a lot of sheep to New York, and while standing on the top of one of the cars, was struck on the forehead whilst the train was passing under a bridge. He died a few hours after the accident occurred.

**Are You Assessed?**  
In order to vote it is necessary that strangers and new comers should be assessed in the district in which they have taken up their residence at least ten days before the election. Friends of Pollock, see to it that you are "all right," and ready, without let or hindrance to deposit your ballots on the second Tuesday of October.

**POST OFFICE DEPREDAATIONS.**—The editor of the Trinity (La.) Advocate, who is himself a Postmaster, says that "post office and mail route robberies are becoming almost as common as Railroad collisions, murders or steam boat explosions."

**The Health of Pittsburgh.**  
PITTSBURGH, Sept. 26.—The gratifying improvement in the health of the city continues. Yesterday, there were only 27 deaths, principally cases of some day's duration. The new cases reported are very few, and the deaths to-day will probably show a corresponding diminution.

**New York.**  
The Whig State Convention has made the following nominations:  
For Governor—Myron H. Clark, of Ontario.  
For Lieut. Governor—Henry J. Raymond, of New York.  
For Canal Commissioner—Henry Fitzhugh, of Oswego.  
For Prison Inspector—Norwood Bowden.

The clock business in Connecticut stands as follows: 28 clock factories, 1279 hands employed, \$1,000,000 capital invested, and the result 90,000 clocks annually. One-fourth of the clocks are sold in England.

The Stroudsburg Female Bible Society held their first annual meeting on Wednesday, Sept. 20th, in the M. E. Church, and present the following sketch of their proceedings during the year:  
Monies given by the citizens \$40 42.—Fourteen Families in the Borough were found destitute of the Bible, and were supplied.

Monies sent to the Parent Society \$34 12.  
Resolved, At this meeting that the Society present the Bibles for each chamber used by the public, if it be acceptable to them, and every family or individual in the Borough who is yet destitute will be supplied.

**Hon. James M. Porter.**  
We have heard it intimated from quarters likely to be well informed that this gentleman seriously contemplates resigning the office of President Judge of this District. The reason assigned is that since the slight paralytic stroke he recently suffered, he has not had so complete a control of his right hand as to write with the necessary facility. We shall be glad to learn that this report has no foundation whatever in fact, or if it has that the impediment referred to is in a fair way to be speedily removed. In the whole Commonwealth there is not a Judge more accomplished in the law or more upright in his instincts and deliberations.

We further hear that Mr. Thomas S. Bell of Chester, late one of the Justices of the Supreme Court of this State, is already talked of as the successor.—*Honesdale Dem.*

**Pennsylvania.**  
A private letter to the N. Y. Tribune from Pittsburgh, dated the 14th, contains the following, which confirms our previous advices from all parts of the State:

"Loco-Focoism is most decidedly dominant in this part of Pennsylvania. In the Convention which met here a short time since for the purpose of nominating a County ticket, thirty-five of the delegates, in all about one hundred, are openly opposed to the re-election of Bigler. In one of the wards of this City two avowedly Anti-Bigler Delegates were elected by a vote of eighty-one to eighteen for the Bigler Delegates.

"You may set down this county as good for a majority for Pollock of 5,000 or upwards."

**Are the Whigs Ready?**  
Are they prepared to do their duty to their principles and their country on the second Tuesday of October? Are they aroused to the importance of the great question presented to them—FREE LABOR, FREE SOIL, FREE SPEECH and FREE MEN, and the repeal of the Nebraska swindle, against SLAVE LABOR, SLAVE SOIL, FETTERED SPEECH and BOND MEN! and Slavery extension over the immense territories of the Republic!

Do you condemn the late act of perfidy committed by Congress and the Administration?—then go to the polls and make your condemnation emphatic and felt by those who betrayed their country. Go and protect the hallowed principles of the Fathers of the Republic—the principles of Washington, Adams, Jefferson and their compatriots, who struggled for the liberties of the people, and give your vote for JAMES POLLOCK, DANIEL M. SMYSER, GEORGE DARSIE, FREE LABOR, FREE SPEECH, FREE SOIL, and FREE MEN, and let no one stay at home, or neglect that important duty.

**Awful Scenes at Savannah.**  
The subjoined private letter from a gentleman in Savannah to his brother in Philadelphia, will show the terrible condition of things:

"I have but a moment to write to let you know that—and myself are alive, every man in the store having deserted us in consequence of the epidemic. We are determined to stay and take our chances, to see the city out of it. I enclose our report of interments yesterday (51) out of a population of not over 3,500 white people. Interments for the week 210. Everything is in an awful state, and death and destruction stare us in the face everywhere. The gale was enough to have ruined us at most times, and now all that is required to fill our cup is a fire. We work night and day, and spend our money as if it was public property, for the benefit of the sick and destitute, and you cannot begin to imagine what distress prevails here. We cannot procure coffins enough to bury the dead, and to-day all the house carpenters in town have quit everything else, and gone to making them. Our own citizens have to take the spade and dig graves.—It is really awful. Be satisfied that we are all doing our duty and hope God will help us to do good."

**CHLORIFORM VESSELS FOR AMERICA.**  
—A letter from Paris, it is stated, reports that two vessels of two thousand tons burthen each, are in course of construction at Nantes, to play between Havre and New York, the engines of which are to be worked by chloroform. This is a recent French adoption, and it was reported some time back that experiments were being made in France with the view of applying it as a motive to ships. If one succeeds in reaching America it will be a curiosity.

**EFFECTS OF THE GRADUATION BILL.**  
—During four days of last week about 8,000 acres of land were sold at the Chillicothe (Ohio) Land Office, at 12 1/2 cents per acre, under the provisions of the new law of Congress.

**Old Soldiers' Widows.**  
In answer to inquiries on the subject, we deem it proper to state that the following section in the Army Appropriation bill is the only legislation during the last session of Congress referring to widows bounty land or pension claims. All circulars, heretofore, professing to give information as to Revolutionary claims or prospects are calculated, if not intended, to deceive:

Sec. 3. *And be it further enacted*, That the act approved September twenty-eighth, one thousand eight hundred and fifty, entitled "An act granting bounty land to certain officers and soldiers who have been engaged in the military service of the United States," the act approved March twenty-second, one thousand eight hundred and fifty-two, entitled "An act to make land warrants assignable and for other purposes," and the act approved February third, one thousand eight hundred and fifty-three, entitled "An act to continue half pay to certain widows and orphans," shall not be so construed as to deprive any widow from the benefits there-in granted for the services of her husband, though she may have married again: *Provided, however*, That the applicant is a widow at the time of making the claim: *Provided*, Such party shall not receive pension during coverture.

**Coal Trade of Delaware and Hudson Canal.**  
The shipments of coal from Honesdale by the Delaware and Hudson Canal Company, from the opening of navigation up to the 16th inst. amount to 270,000 tons. Up to the same period last year, 310,000 tons. Falling off this year, 43,000 tons. The shipments from Hawley by the Pennsylvania Coal Company, the present season, up to the 16th inst. amount to 284,694 tons. Up to the same period last year 325,991 tons. Deficit 40,487 tons.

Total deficit by both Companies, 83,489 tons.  
But for the lack of water on the Summit between the Delaware and Hudson rivers the deficit would have been measurably relieved. The recent rains have put the canal in good boating order, but the streams are not yet so full as to keep navigation up without drawing upon the reservoirs. It is not probable that the above deficit can be made up.—*Honesdale Democrat.*

**Wrecks in the Indian Sea.**  
Reported loss of eight hundred lives. The recent overland mail brought intelligence, which has led to the belief that two vessels have been lost, and nearly eight hundred lives, viz: the brig Hyacin, and the ship Lady Nugent. The first was wrecked on the rocks, in the Indian Sea, with the loss of three hundred and ninety lives; and the last is supposed to have been dashed to pieces in a terrible manner, about three weeks after she sailed from Madras, having on board the twenty-fifth Madras Infantry, or upwards of four hundred souls in all.

**The Sussex Register** relates some curious impositions practiced by John Frey, a German, who pretended to be a magic doctor, in Sussex county, N. J. He deceived several persons of considerable money, who had submitted themselves to his operations. In one case he treated a sick child by giving it a piece of gingerbread on which he had scratched with a pin some cabalistic characters, and also doses of salt and water. The child died. He also attempted the cure of a man by feeding him with paper pellets, with words written on them. Finally his victims suspected his abilities and had him arrested. He was not convicted, but after being dismissed from Court, two of those whom he had cheated fled foul of him and gave him a severe drubbing and some stabs.

A man, belonging to Salem, Mass., joined the army forty-two years ago, and was not heard from again until he returned to that city one day last week.—He left a wife, and daughter one year old, and when he returned he found his daughter the mother of twelve children, some of whom are married. His wife lived a widow, as she supposed, over twenty years, and then married, and is now living with her husband in Salem.

**A Hard Winter Coming.**  
We regret to state that the most indubitable signs of a hard winter are apparent and prevalent. Some of our oldest widows have perfected the preliminary arrangements for entering anew the matrimonial relation. This class of our population feel the future "in their bones," and, connecting their premonitions with the price of coal, have taken steps accordingly.—*Springfield Republican.*

A deserted husband in Baltimore, advertised his wife as having left his bed and board, and offers a reward of fifty dollars to any man that is white, and has never been convicted of stealing, who will marry her and take her to California.

About forty children, boys and girls, started from New York on Wednesday afternoon to find homes in the West.—They are sent out by the Children's Aid Society in charge of Mr. E. P. SMITH. Most of them are orphans gathered out of the streets.

By a slip received from the office of the Columbia Spy, we learn that the cholera has ceased its ravages there, only three new cases having occurred since Friday afternoon last. The citizens who fled have commenced returning to their homes and ventilating their houses preparatory to their re-occupation, and the streets begin to present a lively appearance again. The Spy sets down the total number of deaths at 107, but says others suppose the actual number to be about 120.

To empty a house of blockheads, set two dogs to fighting in the street.

**New Way of Fattening Pork.**  
Tennessee farmer has hit upon a way to fatten hogs where the drouth has cut off the corn. The plan is simply to boil up all the juvenile porkers, and feed them to those of larger growth until they have concentrated the pork family into a compass consistent with the needed supply of bacon. He argues that if cod-liver oil will fat pork, hog oil will fat it faster, and that by the time one half of the family have eaten the other half they will be fit for family use.

The Cincinnati Price Current gives the hog census of 64 counties in Indiana at 2,168,833. We think about half that lot might be boiled with advantage to the owners.—*Tribune.*

**Another Nebraska Meeting at Chicago.**  
On Saturday night there was a second attempt to explain to the folks of Chicago the beauties and benefits of the Repeal of the Missouri Compromise. Lieutenant-Governor Willard of Indiana being bro't forward as the chief speaker. Senator Douglas and his immediate friends were on the platform. There was no actual interruption of the proceedings; but considerable merriment was occasioned by the cross-questioning of the speaker by the audience. Gov. Willard's weakness seemed to be an uncontrollable desire to pitch into some newspapers, and among others he selected the New York Tribune. The moment he had uttered the name, a call was made "Three cheers for the N. Y. Tribune!" which were given with an almost unanimous voice that made the rafters quiver, followed by six cheers for Greeley, and groans for Douglas.—Mr. Douglas bore the infliction with tolerable grace, even to the cheering for Joshua K. Giddings.

**Don't Know.**  
A gentleman just arrived in California entered into conversation with one of the editors on the subject of the "Know Nothing" order. "Talk of Know Nothings," says he, "why you are all of that order, I should think, in California. When I left the steamer, I made numerous inquiries of those I met relative to matters which interested me, but nobody seemed to know anything. Nobody knew which was the best hotel—what business promised best for a stranger to embark in—or indeed anything else. I tried hard to get some information out of a gentleman to whom I had a letter of introduction, but failed. At length in despair, I said 'Will you take something to drink?' His reply was characteristic: 'Well, I don't know but I will!'"

The New York Times says that there is a new thing under the sun. The gentleman's bearers this Fall have the brims set, underneath, with white fur, instead of black. The effort is very startling; for it gives you the idea that every man you meet has either been born with lint-white locks, or has become prematurely grey.

The Grand Jury of Philadelphia, has indicted Robert Simpson, late Treasurer of the County of Philadelphia, Wm. J. Christmas, his chief clerk, and John Sizer, one of his sureties, for felony, in embezzling, \$89,789,25 belonging to the commonwealth of Pennsylvania.

**BEEF EATERS.**—Eighty oxen only make one meal for the crews of the British fleet in the Baltic.

A child has just been added to the population of Paris, which the editor of the Constitutionnel says is of three distinct colors. Its legs are blue, body cherry red, and face black as a negro's.

The trotting horse Grey Eddy was sold in New York on Saturday, to Mr. Griffiths, of Philadelphia, for the sum of \$5,500.

**THE END OF THE WORLD.**—The Millerites have been holding a series of meetings at Syracuse, N. Y., and have now fixed on the 19th of May, 1855, as the day when the world will positively come to an end.

**CONTRACT FOR CORN.**—Messrs. Mitchell & Garnier, distillers at Alton, Ill., have contracted for about 25,000 bushels of corn, to be delivered from the Illinois river; 12,000 at 45 cents without sacks included. These are about double the rates paid last year by the same parties.

**DON'T DESPAIR.**—If you slip down, just get up. A stout heart is as sure to finally weather the gale, as a pretty girl is to bring down the man of her choice.

In the city of New York 25,110 persons were arrested by the police for criminal offences from the first of January to the 30th June of the Present year.

N. C. Nelson, Postmaster, Keesville, N. Y., has been arrested on the charge of robbing the mail. He is editor of the Democratic paper at Keesville, and son of Dr. Wolford Nelson, of Canadian Patriot war memory.

**Whittlers and Scribblers.**  
There are a great many persons addicted to the sin and shame of whittling and scribbling over the tables, chairs, railings and desks, as well as nibbling at the edibles and knick-knacks of their friends or acquaintances. We remember a rather capital story, told of a Boston Yankee, who for a series of years, was addicted to nibbling in a grocery store, where he once in a while bought household luxuries. At length the grocer thought he would keep a small account of the transaction, and he did so, and at the end of the year, among other items in the bill, was one rather startling to the citizen, viz:  
Ten dollars for nibbles, July 4, 1850, to the 4th of July, 1851. The nibbles were settled, but the nibbler gave up his vocation and practice.

Platt Evans, our next door neighbor, relates a squib pretty much on a par with the above. A gentleman came to Platt's store one day, and seating himself upon the counter, out with his knife, and cuts quite a notch in the end of the mahogany plank of which the counter top was made. Now any body at all acquainted with Platt, knows that he is not apt to suffer in purse or property to any extent without making a fuss about it. Platt observed with horror and indignation the onslaught made on his counter by the man's jack-knife and being very busy with sharp shears, cutting out a garment, he made a misgo, and went both the tails of the whittler's coat.

"My stars!" said he, "Evans, what in thunder are you at?"  
"Oh, nothing!" says Platt.  
"Nothing. Why look here; you've cut off my coat tail."  
"And you've cut a chip out of my counter," says Platt.

But that does not hurt your counter; the little piece I whittled off may be glued on again," said he.  
"So it can, and your coat tail," replied Platt, "that can be sewed on again, it won't show very bad."

The whittler cleared out in high dudgeon, and also left off whittling.  
Moral—don't nibble, or scribble around other people's premises: it's a shabby habit, and neither pays you for loss of time nor pleases your victim, whose property you destroy.—*Memphis Appeal.*

The young lady who was carried away by the "force of a remark," came in last night on a "train of thought."

**Philadelphia Market.**  
The flour market continues in the same state of dullness and inactivity which we have noted for some time past, and prices have declined 50 cents per bbl. A sale of good brands at \$8.25 per bbl, but there is no export demand, and the only sales reported at this figure are small lots for home consumption and extra at \$9.25. In Rye Flour nothing doing. 500 bbls Corn Meal sold at \$1.

Grain—There is a fair amount of Wheat offering, but the demands is limited.—Sales of 45000 bushels, at \$1.75, 1,70 per bushel for fair and prime Southern red, and \$1.80, 1,84 for fair and prime white. No sales of Rye. Corn is in fair demand, and 75000 bushels yellow sold at \$5.80 cents afloat. Oats are in demand and have advanced—sales of 6000 bushels prime Delaware at 55 cents per bushel.

Whiskey—The demand continues limited. Sales at 41 1/2 cents in both hhd and bbls.

**To the Electors of the Congressional District composed of the Counties of Northampton, Wayne, Carbon, Monroe and Pike.**

The undersigned has been requested by a number of citizens from different parts of the District, to offer himself as an Independent Candidate for CONGRESS at the ensuing election. Although the proposition was altogether apart from his wishes or expectations, yet, after much reflection, he has determined to give an affirmative response to his friends. The reasons which have induced this conclusion are various. He is willing to serve the public if they make the demand.—Again he believes that there is a desire in the District to have an Independent Candidate that this opportunity may be allowed the voters to express their views upon measures of importance now before the country. This is a time to dismiss party subservience and to show by speech, vote, and action, true patriotism. No one capable of reading the "signs of the times" can deny that our country has reached a historical crisis. What we need is not so much platforms or political creeds as a fearless integrity to speak brave sentiments and to do right.

Having been born and reared in the county of Northampton, and lived therein almost all his days, he feels that he needs no special introduction of himself to the people of the district. Specific pledges it is not wise to anticipate. Generally he promises, if elected, to give his best attention to the advancement of the interests of the important and growing district whose special representative he would be, not forgetting the principles to which the citizens of the good old Commonwealth have always been attached, at the same time studiously looking to the welfare of these United States, upon whose union and prosperity the hopes of the friends of freedom throughout the world rest.
