

**The Mormon Temple at Salt Lake.**

The great Temple which the Mormons are building at the city of the Salt Lake is described as promising to be a wonderful structure, covering an area of 21,850 square feet. The block on which it is located is forty rods square, and contains ten acres of ground, around which a lofty wall has already been erected, to be surmounted by an iron railing manufactured by the Mormons themselves at their Iron Works, in Iron county, Utah Territory. The Temple building will have a length of 180 feet east and west, including towers, of which there are three at the east end and three at the west, and the width will be ninety-nine feet. The northern and southern walls are eight feet thick.

The towers spoken of above are cylindrical, surmounted by octagon turrets and pinnacles, and having inside spiral stairways leading to the battlements. Besides these there are four other towers on the four principal corners of the building, square in form, and terminating in spires. On the western end will be placed in order to relieve the great Dipper or Ursa Major. As regards the interior arrangement, there will be in the basement a baptismal font 57 feet long by 35 feet wide, and on the first floor a large hall 120 feet long by 80 feet wide, while on the third floor there will be another of the same size, besides numerous other rooms for various purposes. Around the outside of the building will be a promenade from 11 to 22 feet wide, approached on all sides by stone steps.

**NEGRO WIT.**—A colored boy was looking through a grave yard fence upon the grave stone of a villager who in life had been known as a rather close-fisted citizen, whose principal care had been 'the greatest good to the greatest number,' the 'greatest number, with him having been 'number one.' After a pompous inscription, the following passage of Scripture was recorded: 'He that giveth to the poor lendeth to the Lord.' 'Dat may be so,' soliloquized Sambo, 'but w'en dat man died he did not owe 'in a red cent' man! Eyn! e'jah!

A little boy had a colt and a dog, and his generosity was often tried by visitors asking, 'just to see what he would say,' to give them one or both of his pets. One day he told a gentleman he might have his colt—reserving the dog, much to the surprise of his mother. 'Why, Jacky, why didn't you give him the dog?'

'Say nothin', say nothin', mother; when he goes to get the colt, I'll set the dog on him!'

**Philadelphia Market.**

The Flour market is dull and inactive. Shipping brands are generally held at \$9.25 per barrel, but there is no export demand, and the only sales making are small lots at this figure for home consumption, and better brands sold extra from \$9.37 1/2 up to \$10.50, as in quality. Rye Flour and Corn Meal are scarce—a small lot of the former sold at \$7.

Grain—There was more Wheat offering this morning on 'Change, but the demand is less active—the millers generally holding off for some concession in prices, which holders are unwilling to accept. Sales of 3000 bushels prime Southern red at \$1.95 1/2 per bushel. Rye continues scarce—small sales at \$1.16 1/2, 20, at which figure it is in demand for distilling. Corn is in active request for shipment, and about 10,000 bushels yellow have been disposed of at \$1.25 1/2 cents for weavily, and 84 cents for good, including a lot in store at 85 cents; a lot of new sold at 77 cents. Oats are scarce—2000 bushels dark Southern sold at 51 cents per bushel and 1000 bushels prime Delaware at 54 cents, which is a further advance.

Whisky—The demand is limited. Small sales at 42 1/2 cents in barrels, and 41 cents in hds.

**WILBOR'S COMPOUND OF PURE COD LIVER OIL AND LIME.**

A Cure for Consumption, Scrofula, Coughs, Colds, Asthma, Bronchitis, Spitting of Blood, and all complaints of the Lungs.

The Proprietor has succeeded (from directions of Professor Stone) in combining the Oil and Lime so perfectly, that the taste of the Oil, which is nauseous to persons generally, is entirely overcome, and it can be taken by the most delicate females with pleasure. And as regards the benefit of this article over the pure oil, the following case, by Prof. Stone, is sufficient to convince the most skeptical. The young lady was 24 years of age.

'Her disease was one of unmixed phthisis, which had been expected to terminate in the course of a few months, fatally. The upper part of both her lungs was filled with tubercles; and in some places were beginning to soften. The case was evidently a bad one. The treatment of cod liver oil was at first used, but without marked improvement. The phosphate of lime was then administered with the oil, and the result, as in the case of many others, was soon apparent. The patient was rapidly getting well.'

CAUTION.—On account of the great reputation of this Compound for all Lung Complaints, the subscriber would caution the afflicted against using any except that manufactured by him, as he has the only receipt in the United States for combining the Pure Oil with Lime in a proper manner. Therefore, as you value your health, purchase none except that manufactured by

**DR. J. LANTZ, DENTIST.**

Has permanently located himself in Stroudsburg, and moved his office next door to Dr. S. Walton, and nearly opposite S. Melick's Jewelry store, where he is fully prepared to treat the natural teeth, and also to insert incorruptible artificial teeth on pivot and plate, in the latest and most improved manner. Most persons know the danger and folly of trusting their work to the ignorant as well as the traveling dentist. It matters not how much experience a person may have, he is liable to have some failures out of a number of cases, and if the dentist lives at a distance, it is frequently put off until it is too late to save the tooth or teeth as it may be, otherwise the inconvenience and trouble of going so far.—Hence the necessity of obtaining the services of a dentist near home. All work warranted.
